THREE SHOT BY INSULTER OF FLAG; GERMANS AT GATES OF PETROGRAD

Oakland Mariners, Held as Hun Captives, Wrecked Off Coast of Denmark

FATE FREES CREWS OF 6 SHIPS SUNK BY RAIDER

German Wolf Captures 400 Prisoners in the South Sea; Prey on Merchant Vessels

EAST BAY FAMILIES HEAR OF LOST RELATIVES

Beluga, Winslow and Encore Among Boats Sunk; Welfare of Loved Ones Cause Worry

Families of several Oakland mariners, whose vessels have been overdue many months at this port, received the welcome news today that the commanders and crews of six ships which had been sunk by the German sea raider Wolf in the South Pacific, had reached Denmark on the Spanish steamer Igotz Mendi, in charge of a German prize crew.

In this case what to most persons is considered a misfortune intervened to save the captured mariners from imprisonment in a German detention camp, for the Igotz was bound for Germany when she went ashore on the Denmark coast. As the German captives were all non-combatants it is considered improbable that there will be any opposition to permitting them to return to their homes so soon as transportation can be provided.

MANY HAD BEEN ON BOARD WOLF

Many of those aboard the Igotz Mendi had been aboard the raider Wolf for nine months, following raids in the Gulf of India. In addition to their other trouble they had had to fight an epidemic of scurvy and beri-beri on board the vessel. Twenty-two persons, including nine women and two children, have been landed by a life-boat from the Skaw already, according to a despatch via London. The German prize crew refused to leave the ship, and the Danish authorities interned the commander.

The prisoners, who have been aboard the Igotz Mendi, which had orders to follow the Wolf, are believed to include survivors of the whaler Beluga and the four-masted schooners Winslow and Encore, which fell victims to the Wolf, the companion raider to the Seeadler. Efforts are already under way to determine the present condition of the crews and commanders of those vessels and ascertain if they were among those landed at the Skaw. The commanders of all three were known in Oakland, two of them living in the east bay district and having families here.

The Encore of the Rolph Navigation and Coal Company was captained by R. D. Olsón, 1130 Ocean avenue, Oakland. His son, Raymond Olson, declared this morning that his family had come to the conclusion that his father's vessel was the victim of a sea raider and have been frantic for information as to his whereabouts.

"The strain which has been causing us considerable anxiety for the past few months has at least been broken," he said. "I had gradually come to the conclusion that he had fallen a victim to the raider, which we have believed was operating in the Pacific. We are hoping against hope that my father and his men have been saved."

CAPTAIN HAD WIFE, DAUGHTER ON BOARD

The steam whaler Beluga was in charge of Captain George Cameron, a brother of Henry Cameron, 2536 Bancroft avenue, Berkeley. The latter was in the east, but his wife, Mrs. Cameron, declared that Captain Cameron's home was in Vancouver, B. C., and that he had a host of friends around San Francisco Bay. She said the family has been worried for fear the Beluga had been sunk with all on board. With Cameron on his craft were his wife and small daughter, both of whom are now believed to be with Captain Cameron in the German prison camp.

The Winslow, Captain R. D. Trudgett, has been the object of interest to Captain Trudgett's family, 1208

Retrial of Miss Edwards For Murder Set For April 15

LOS ANGELES, Feb. 26.—Retrial of Marie Pinzon Edwards, charged with the murder of Henry H. Lyon, state senator, was set today for April 15 in the superior court.

A jury in the first trial disagreed and was discharged Saturday night.

The prosecution said a suggestion that Miss Edwards be admitted to bail would be considered.

MEMBERS OF MUSIC UNION ARE WOUNDED

SAN FRANCISCO, Feb. 26.—A man said to be G. Tuzzi, when ejected from the Musicians' Union Hall for refusing to salute the flag this afternoon, drew a revolver and opened fire on the other men in the place, wounding three.

The wounded men are A. Less, D. Spiller and H. Schultz, all well-known local musicians.

The shooting occurred in the assembly room of the union on Haight street.

Tuzzi had been charged with making anti-American statements. He had played last week in the orchestra at the automobile show and it was alleged that he had refused to stand up when the "Star-Spangled Banner" was played. Charges were preferred against him at a meeting of the union and he was told to salute the flag. He refused, it is declared, and was expelled.

Immediately the man drew a revolver from his pocket and opened fire.

After the shooting he ran from the union hall, but was captured a few blocks away.

Say Railroads Spent Sum in Politics

Interstate Railroad Commission Makes Public Old Record,

WASHINGTON, Feb. 26.—An official record of how the Louisville & Nashville railway spent many thousands of dollars in political activity in Southern States between 1907 and 1914 was made public today by the Interstate Commerce Commission.

The disclosures were based on an affidavit recently filed by Milton H. Smith, president of the road, answering questions to which he had refused replies during an Interstate Commerce Commission inquiry in May, 1916, and to secure which the commission obtained from the Supreme Court last November an order requiring Smith to give answers. This affidavit has now been made public.

Smith explained that $50,000 was spent for political campaign purposes in Alabama in 1914, but none in that State in 1912 or 1913. The expense was charged to railroad operations and great effort was made in records to obscure or conceal the purpose of the payments from employees and minor officials.

In February, 1910, $20,715 was spent in payment to protect agents, but Smith did not specify in what State.

Smith made affidavit that the Louisville & Nashville spent about $34,800 in Alabama through the Johnson-Dallas Agency in a campaign against rate reductions as advocated by former Governor Comer of that State.

BARUCH IS HEAD

WASHINGTON, Feb. 26.—Bernard Baruch was today named chairman of the war industries board, succeeding Daniel Willard, who resigned.

(Continued on Page 2, Col. 3)

REED GIVES FACTS FROM COAL PROBE

Solon Predicts Another Shortage May Occur if Drastic Measures Are Not Taken

Filibuster Senators Accused of Responsibility for U. S. Entry Into Big European Conflict

UNITED PRESS LEASED WIRE TO TRIBUNE

WASHINGTON, Feb. 26.—Predicting a coal shortage of the most disastrous character in the near future unless the fuel administration ceases "experimentation and guess work," Senator Reed of Missouri today submitted to the fuel-food investigating committee a statement of facts developed at the recent inquiry into the coal situation.

"Amidst the chaos now existing in the coal business from the mine to the retail yard, one fact indisputably appears, namely, that uncertainty must at once give way to stability, or we will in the near future be confronted by a coal shortage of the most disastrous character," Reed declared.

Reed submitted the following recommendations to avert this situation:

One—Ending of governmental interference with the coal business.

Two — Immediate announcement of prices which will prevail after April 1, so that dealers may make contracts.

Three—Giving of information to consumers so they will know that coal will be available and at what prices.

At the same time coal shipped abroad, including that for bunkering ships sailing from American ports, was less than used in 1916 by more than 500,000 tons.

FIXES REASON FOR COAL SHORTAGE

That a serious coal famine occurred, Reed declares, is due to the following causes:

One—Repudiation of the prices fixed last summer by the Lane committee.

Two—The lapse of sixty days between repudiation of the Lane prices and the fixing of new prices by the Federal Trade Commission.

Three — Constant assurances given the public of an abundant supply of coal, together with advice not to buy at current prices.

Four—An unwise multiplicity of priority orders.

Five—Forcing of coal into the Northwest, while needs of Middle West and Eastern states were ignored.

Reed reviewed the work of Secretary of the Interior Lane and F. S. Peabody last June in fixing coal prices, the repudiation of these prices later by Secretary of War Baker, and the disastrous effect on the confidence and the business of many coal dealers.

Then he quoted at length the conflicting statements made from time to time regarding the threatened coal shortage.

"Coal dealers who anticipated a coal shortage and stated the real facts were severely criticised by the Federal Trade Commission. If, indeed, they were not blacklisted," said Reed.

CHIEFS CRITICIZED FOR WRONG ADVICE

Fuel Administrator Garfield and Secretary Baker were criticised for telling the public not to buy when coal was plentiful and cheap.

Coming to the sending of coal to the Northwest through lake ports, Reed said:

"If one-tenth of the energy expended in getting coal to Canada and the Northwest had been expended in delivering bunker coal, no ship would have been obliged to remain in port an hour because of the lack of fuel."

He pointed out that though the Northwest is chiefly agricultural, the coal was shipped from Ohio, a great manufacturing state, when a coal shortage existed and forced into the Northwest.

This Ohio famine, Reed said, was repeated all through the East and New England, where people had been told that though the coal was being rushed to the Northwest "they would get plenty later on."

Criticizing the Garfield closing order, Reed said that the chief reason assigned for it was to get bunker coal to free ships tied up in ports for lack of fuel.

"The terrible burden imposed on the country because of the failure to furnish bunker coal, calculated by the cost of the remedy applied, is appalling," said Reed. Declaring the closing order had failed of its purpose, he declared it resulted in only fifty-six vessels getting bunker coal.

Senators who participated in the filibuster which resulted in the defeat of the armed ship bill at the last session were assailed by Senator Swanson of Virginia, an administration leader, in a speech today as having destroyed "the last chance for peace" between the United States and Germany. "By this action Germany was convinced," he said, "that we did not have the courage to defend our rights and that

SENSATIONAL NOTES READ AT INQUIRY

Heney Introduces Letters Before U. S. Trade Body Very Damaging to Meat Packers

Advise Dropping Union Labor, Opposition to 8-Hour Law, Shorter Hours for Women

BY ASSOCIATED PRESS LEASED WIRE TO TRIBUNE

CHICAGO, Feb. 26.—More letters and the reading of some of them, opposing legislation in various States, were introduced by Francis J. Heney today at the Federal Trade Commission's packing inquiry.

They ranged from advice to increase employment of negro labor and a caution to drop union men at Denver, without allowing unionism to appear as the cause, to opposition against the eight-hour law in Illinois, and against a Kansas act intended to regulate and shorten hours for women.

John E. O'Hearn, general superintendent for Armour & Co., continued his testimony by giving reasons why he considered the eight-hour day impracticable for stock yards employees during the war. He said the killing plants were constructed on the basis of a ten-hour day and that the cooling-rooms, tanks and by-products departments were standardized accordingly.

To operate on an eight-hour day basis, he said, every packing plant would have to be enlarged and reconstructed, which work would take two years, according to the witness, and cost thousands of dollars.

O'Hearn said government inspection regulations require a clean-up of the plant daily, which takes about four hours. This, he said, would make it impracticable to operate three eight-hour shifts in the rush season, or even two eight-hour shifts daily.

ADVOCATE 15 PER CENT RAISE IN NEGRO HELP

Recommendations to increase the percentage of negro help at the Denver plant of Swift & Company was contained in a letter to Louis F Swift and signed "Swift & Company, per J. H. H." It said the intention was to get this percentage 15 per cent or higher "as soon as we possibly can." The letter was not dated.

The next letter, addressed to the Swift Company at Denver July 11, 1917, and signed "J. Burns," read:

"Answering: Want you to work closely with Hanson to prevent your house becoming organized, handling so as not to force strike. Advise find cause other than being members labor unions for dropping two men mentioned, or other active members, and dispense with services as soon as possible."

A letter from Wilson & Company's files, dated Kansas City, 1915, addressed to W. R. Brown, Kansas legislature, and signed "O. S. B.," mentioned that Governor Capper had mentioned strengthening the compensation act. The letter continued:

WARNS OF POSSIBLE UNFAVORABLE LAWS

"We are perfectly safe in assuming that the compensation bill is going to be more favorable to the workmen unless decided opposition is put up or some other means used for getting through legislation that will suit us."

Another on Kansas, from "I. Bowman," on February 28, 1917, addressed to Roy N. Hope, Topeka, read: "Female labor bill, very desirable not to have any limit in hours per day or per week. Defeat whole measure if possible. If you have to compromise offer nine hours a day, total fifty hours per week, but do not permit fixed time for beginning or ending day. All our labor must be sufficiently elastic to meet heavy runs livestock we have, particularly in hog killing season. Drastic legislation affecting women labor law would certainly raise in forcing out large number of women now employed in packing houses at good wages and substituting men."

SERVICE TREATY IS ACCEPTED BY ITALY, FRANCE

WASHINGTON, Feb. 26. — France and Italy have accepted in substance the proposed treaty with the United States respecting military service of nationals similar to that signed with Great Britain and Canada.

Secretary Lansing sent word to Chairman Flood of the House foreign affairs committee today that he had received that word in cablegrams from the American ambassadors at Paris and Rome.

SHIPMEN'S STRIKE

VICTORIA, B. C., Feb. 26.—Victoria and Vancouver shipyard workers are to meet tonight to discuss a proposal that they strike Friday for higher wages. Union leaders assert 8000 men will walk out if the strike is called. The imperial munitions board, which sets the shipyard wage scale, is said to have shown no sign of yielding to the men's demands.

Americans and British Flee Russian Cities as Germans Approach

Petrograd Makes Hurried Preparation to Battle Invaders for Possession of Capital; New Places Are Captured By Advancing Enemy.

RUSS SOLDIERS REFUSE TO FIGHT

WASHINGTON, Feb. 26.—Arrangements have been made to move the Americans in Moscow to Samara, 500 miles to the east. No immediate occupation of Moscow by German troops is reported, but it was thought advisable to move the Americans.

LONDON, Feb. 26.—The American and British embassies are departing from Petrograd, leaving a few persons in charge, according to Exchange telegraph despatches from the Russian capital dated February 25, 5:40 p. m.

Pskov, 175 miles southwest of Petrograd, has been recaptured by the Bolsheviki and street fighting is going on there, according to an Exchange Telegraph despatch from Petrograd dated Monday. The Red Guards are resisting the German advance everywhere.

The capture of Pskov by the Germans was announced in the official statement issued last night at Berlin.

Signing of a Russo-German peace will not be the final solution of the German problem on her eastern frontier and the final settlement will come when the peoples of Courland, Lithuania, Livonia and Poland take matters into their own hands, according to the Bolsheviki delegates to the Brest Litovsk negotiations, in an interview to the Daily News.

BERLIN, Feb. 26.—"The stubborn enemy was defeated in a violent battle south of Pleskau (Pskov) and the town was captured," the German official statement declared today.

"The fortress of Reval was captured after a battle."

General Linsingen's forces operating in Volhynia have captured the town of Kolenkowitz after a battle, the German general staff announced today.

COPENHAGEN, Feb. 26.—German troops that occupied the Russian naval base of Reval at the entrance to the Gulf of Finland are moving in the direction of Taps, according to a report from a German source today. Taps is forty-one miles northeast of Reval and 150 miles southwest of Petrograd.

PETROGRAD, Feb. 26. — Despite acceptance of the German-imposed peace, mobilization and hurried preparations for the defense of Petrograd continue.

Small German detachments are reported moving toward Petrograd from Pskov (162 miles southwest of Petrograd). Workmen's battalions were quickly organized and several are already moving in the direction of Pskov.

After the capture of Pskov, the Germans advanced several stations. The Russians then began a counter-offensive and the city changed hands several times. The remaining Russian workmen's battalions are continuously leaving for Pskov.

The garrison soldiers refuse to fight, but the workmen are enthusiastically joining the revolutionary army. Four thousand from the Putiloff works, and three thousand from the Vyborg and Smolny have formed an armed camp with red flags flying.

As soon as the news of the capture of Pskov was received here, the factory whistles called the workmen to arms.

Red Guards and Lettish riflemen recaptured the Pskov postoffice, battling in the streets with German detachments which had been cut off from the main lines.

Reval was stubbornly defended before it was captured.

STIRRING SCENES AT SOVIETS' MEETING

The scenes at today's meeting of the Soviets' executive committee were most stirring. Men accustomed to follow Premier Lenine unswervingly cursed and swore, demanding that the revolution die fighting. Despair filled the ante chambers and corridors of the Tauridi, which originally saw the birth of the hopes of the revolution.

The coolest and most unconcerned of all was Lenine. The premier, short and stocky, with massive head and sturdy shoulders, deepset eyes and iron features, walked up and down the famous Ekaterinsky Hall.

Lenine calmly discussed the situation, after threatening to resign unless Germany's peace terms were accepted. He ridiculed the idea that Russia is able to fight and pointed out that Russia needed peace at all costs, so as to organize further and strike in revenge at the proper political moment.

WASHINGTON, Feb. 26.—The suggestions coming through unofficial Japanese sources that Japan is about ready actively to participate in the war for the aid of the anti-Bolsheviki elements in Siberia deeply interested Washington today. Officials refused comment. It was pointed out that it would be most unwise to do so, inasmuch as if Japan intends to get into action against the German dominance and control of Russia her plans should not be advertised or interfered with in advance.

The German army was only eight hours distant from Petrograd yesterday and still advancing, according to a message from Ambassador Francis via Pekin, dated yesterday.

It was very frankly explained in official quarters that the United States has "every and all confidence in Japan and her rulers," and that whatever action she finally takes will be enthusiastically approved by the United States and all of the entente.

Japan will protect the Pacific should Russia become a German vassal state, as now seems certain, officials say.

The United States would be left free to concentrate all of its men, money and ships on the fighting line in France. Its great weight in everything warlike, which has been entirely counted on by the entente to weigh down the scales against the German military machine, will be delivered exactly as originally counted on.

LONDON, Feb. 26.—American Ambassador Francis is turning over the duties of the Petrograd embassy to the Norwegian minister, according to an Exchange Telegraph despatch received here this afternoon.

27 Bombs Are Dropped on Venice

Five Persons Killed and Nine Injured During German Air Raid.

ROME, Monday, Feb. 25.—During air raids Sunday night, a semi-official announcement says, enemy aeroplanes dropped twenty-seven bombs on inhabited places at Venice, thirty-one on Mestre and five on Castle Francois. Two persons were killed and nine injured in Venice and three were killed at Mestre. All were civilians. The material damage was slight.

LONDON, Feb. 26.—Repulse of a German attempt last night to raid a British sap was reported today by Field Marshal Haig. The enemy raid was attempted south of the Arras-Cambrai road.

AMSTERDAM, Feb. 26.—Turkish forces entered Trebizond on Sunday, according to reports from Turkish sources reaching here today.

Trebizond, a city in the Turkish province of that name, on the north shore of the Black Sea, has been in Russian hands since April 19, 1916, when it was taken by Grand Duke Nicholas.

NEW YORK, Feb. 26.—The British freight steamship Philadelphian of 5129 gross towns owned by the Leyland Line has been sunk by a submarine. She left here with a cargo for British ports on February 11 and was torpedoed about February 21.

News of the Philadelphian's loss was received today in marine insurance circles and confirmed at the offices of the Leyland Line. No details were received. The Philadelphian was built in 1891.

DENIES BLAME

WASHINGTON, Feb. 26.—The reply of Governor Tom C. Rye of Tennessee to the protest of the National Association for the Advancement of *Colored People* against the burning and torturing February 12 of Jim McHilron, a negro, at Estill Springs, was made public here today. He deplored the lynching, but disclaimed responsibility in the absence of any request for action on his part by local authorities or court officers.

IS A CANDIDATE

MADISON, Wis., Feb. 26.—James Thompson, of LaCrosse, a lawyer announced his candidacy for United States Senator today. He will be the LaFollette candidate.

CONFERENCE SUGGESTION IS SCOUTED BY ALLIES

Von Hertling's Speech Clearly Convinces Diplomats That Germany Wants to Fight On

CHANCELLOR'S ADROIT PHRASES CAMOUFLAGE

Entente Believes There Can Be No Move for Peace Until the Real Principles Are Accepted

BY ASSOCIATED PRESS LEASED WIRE TO TRIBUNE

WASHINGTON, Feb. 26.—German Chancellor von Hertling's speech to the Reichstag was studied today by President Wilson and state department officials without any official indication of how it was regarded, or that it would be made the basis for a further step in the President's custom of discussing the subject of peace before Congress.

Officials who read the address thought it served to emphasize a point recently made by President Wilson that while the Central powers appeared to accept the general broad altruistic principles for which the entente allies and America were contending, when it came to the arrangement of details, the Central powers appeared reluctant to apply those principles.

They noted Von Hertling's references to Ireland, India and Egypt, and regarded them as calculated to create discord between the entente allies and continue a deception of the German people, who apparently believe the military party is willing to make peace without annexation and indemnities.

SUGGESTION MEETS NO GREATER FAVOR

Von Hertling's suggestion of a conference of the belligerents apparently meets with no greater favor than heretofore, and officials see not the slightest hope of a "round table discussion" in advance of a complete acceptance by the Central powers of the broad principles upon which the entente is willing to consider peace terms.

By JOHN EDWIN NEVIN.
International News Service Staff Correspondent.

WASHINGTON, Feb. 26.—All talk of a possible "peace by negotiation" has ended in Washington today. Count von Hertling, the imperial German chancellor, in qualifying his "acceptance" of the four principles of peace enunciated by President Wilson, has convinced officialdom here that Germany wants to fight on.

The adroit phrases used by the chancellor, officials declared today in private conversation, are "merely camouflage." His socalled reserve that the declarations of the President must be accepted by all of the entente, coupled as it was with a new threat against the integrity of Belgium, left no doubt here that the German militaristic policy is to be carried out to the limit.

Officials have rather welcomed this development. It has ended uncertainty for some time to come. While no official statement is forthcoming as to the President's views—no one but himself has the right to speak for him—it is expected that within the near future the chief executive will make it plain for the benefit of the anti-war parties of Germany and Austria that Count von Hertling again has made a serious error.

AGGRESSION IN RUSSIA COMES AT BAD TIME

Germany's aggression in Russia has come at a bad time when considered by the peace utterances of her statesmen, officials say. Accepting at their face value the declaration of the German chancellor that Germany is unwilling to negotiate for peace, it must be plain to everyone when Russia's plight is considered, officials here pointed out today, that she is not willing to make the slightest concession to meet the conditions laid down by the President.

"I must decline this tribunal as prejudiced—the tribunal of the entire world—joyfully as I would greet it if an impartial world of arbitration existed, and gladly as I would cooperate to realize such ideals," the imperial chancellor declared. And this declaration, officials pointed out, coupled with his announcement on the Belgian situation, shows that the present rulers of Germany will have no peace except a peace "made in Germany." Such a peace is exactly what President Wilson warned the world the United States will not consider for a moment.

That the President will reply to Von Hertling and also will take steps to

(Continued on Page 2, Cols. 2-3)

STORM FREES CAPTIVES OF SEA RAIDER

(Continued From Page 1)

Willow street, Alameda. His wife was of the opinion the vessel had grounded on a reef out in the Pacific, and had been hoping against hope that he had escaped raiders. The news that the Winslow had fallen a victim, like the others, to the Wolf, has brought fresh anxiety.

None of the three vessels has been seen on the Pacific since last May. Every vessel sailing from port has been on the lookout for them, but not a trace has ever been found, save when the schooner Ottilie Fjord, Captain George Dent of Oakland, on a recent trip from Australia to this port took a picture of a burning ship at sea which is believed to have been the last of the Beluga. Fears have been felt for months that the vessels have been victims of raiders, but there was nothing to verify it until today.

WINSLOW LEFT SYDNEY MAY 20

The Winslow, long known on the coast, left Sydney May 20 for Apia. She was owned by George E. Billings of San Francisco, and was not heard of until it was learned that a raider had sunk the craft. The Encore was owned by the Rolph Navigation and Coal Company of San Francisco, headed by Mayor James Rolph Jr. She sailed ten months ago from the Columbia river with 750,000 feet of lumber aboard for Sydney. The cargo value was in excess of $75,000.

The Beluga was originally a steam whaler built at Bath, Me., under the name of Mary and Helen, which came to the coast thirty years ago and operated for the Pacific Steam Whaling Company. Five years ago the craft was sold to Folwell and Gilmore of Oakland for $10,500 and converted into a sailing vessel, after which she loaded with coal oil at Point Richmond for Australia, thence proceeding to South America to get nitrate for Honolulu consigners, and thence to Oakland in ballast. Upon her arrival home she was sold for $45,000 to her last owners. She was en route to Australia with case oil when she dropped from sight. Her tonnage was 409.

More than twelve vessels are still missing from this port, according to marine advices. With the exception of those noted above, the Hitachi Maru, a Japanese schooner, and the Idotz Mendi, a Spanish vessel, the rest of the missing craft are British. None of them have been seen or heard from since they left port.

MAKES PORT.

AMSTERDAM, Feb. 26.—A despatch to the Dusseldorfer Zeitung from Berlin says the auxiliary cruiser Wolf landed in the Austrian harbor of Pola (Adriatic sea). The despatch adds that the vessel tried repeatedly to return to the North sea, but always was barred by the watchfulness of the British ships.

BERLIN (via London), Feb. 26.—An official communication issued says:

The auxiliary cruiser Wolf has returned home after fifteen months in the Atlantic, Indian and Pacific oceans.

The kaiser has telegraphed his welcome to the commander, and conferred the order Pour le Merite, together with a number of iron crosses, on the officers and crew.

400 PRISONERS.

The Wolf was commanded by Frigate Captain Nerger and inflicted the greatest damage on the enemy's shipping by the destruction of cargo space and cargo. She brought home more than 400 members of crews of sunken ships of various nationalities, especially numerous colored and white British soldiers, besides several guns captured from armed steamers, and great quantities of valuable raw materials, such as rubber, copper, brass, zinc, cocoa beans, copra and similar articles to the value of many million marks.

The English cruiser Turritella, which was captured in February, was equipped as a second auxiliary cruiser and christened Ilis. She successfully operated in the gulf of Aden under command of the Wolf's first officer, Lieutenant Captain Drandis, until confronted by British forces. She was sunk by her own crew, numbering twenty-seven, who are prisoners in British hands.

This cruise of the Wolf, carried out under most difficult circumstances, with no base and no communication with home, constitutes a unique achievement.

THREE SINKINGS CONFIRMED.

LONDON, Feb. 26.—Referring to a German report of the return of the German auxiliary cruiser Wolf after a cruise of fifteen months, a British admiralty communication assumes that during that period the Wolf sank in the Indian and Pacific oceans the following eleven ships and made their crews prisoner:

Steamers — Turritella, Jumna, Wadsworth, Wairuna, Pelusa, Mattunga, Hitachi Maru and Icolzmendi.

Sailing Vessels—Dee, Win Sow and Encore.

The communication adds:

The Turritella was an unarmed merchantman and not a cruiser. She was captured in February, 1917, and a German prize crew placed aboard. The Turritella was then equipped for mine-laying, but a few days later was encountered by a British warship, whereupon the prize crew sank the Turritella and were themselves taken prisoner.

FROM THIS PORT.

According to the British admiralty statement, three American vessels were sunk by the auxiliary cruiser Wolf the steam whaler Beluga, 538 tons, belonging to the Pacific Steam Whaling Company of San Francisco; the Winslow, a four masted schooner of 566 tons, hailing from San Francisco, and the four-masted schooner Encore, 631 tons, the home port of which was San Francisco.

The other vessels mentioned are all British except the Hitachi Maru, Japanese, of 6656 tons and the Idotz Mendi, Spanish, 4648 tons.

The Turritella was of 3551 tons, the Jumna of 1152, the Wairuna 3347 tons and the Matanga 1618. Available records do not give the Wardsworth. The Dee was a three-masted schooner of 1169 tons.

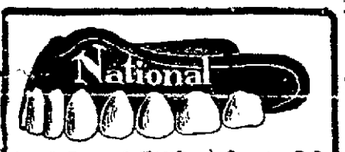

Doctor Praises Eczema Remedy

The cure of Skin diseases (eczema) and diseases of the scalp is known to be difficult even with the best efforts of intelligent and discriminating physicians. However there is one remedy that is entirely dependable in this distressing and troublesome disease, that is D.D.D. Prescription, manufactured by the D. D. D. Company of Chicago, Ill. I take much pleasure in recommending it to the entire confidence of all sufferers with any form of skin disease, as a medicine they can rely upon with perfect confidence.

M. L. RANDOLPH, Md.
Dec. 11, 1917. Oakhurst, Texas.

Hertling's Stand Bar to Peace Chancellor's Words 'Camouflage' Acts That Belie Utterances

(Continued From Page 1)

define the attitude of the United States as to the latest rape of Russia is considered a certainty today.

AMSTERDAM, Feb. 26.—The Central powers intend to give self-government to the provinces of Courland and Lithuania, Imperial Chancellor von Hertling declared in his address to the Reichstag yesterday.

The operations of the Central powers in the east, the chancellor said, were being carried out with the sole aim of securing the fruits of the peace with Ukraine. He added:

"We do not intend to establish ourselves in Esthonia or Livonia."

Von Hertling announced that the Russian government had accepted the German peace conditions, and he added that conclusion of peace must ensue shortly.

"News was received yesterday," said the chancellor, "that Petrograd had accepted our conditions and had sent its representatives to Brest-Litovsk for further negotiations. Accordingly, our delegates traveled thither last evening. It is possible that there will still be a dispute about details, but the main thing has been achieved.

"The will to peace has been expressly announced from the Russian side; our conditions have been accepted and the conclusions of peace must ensue within a very short time."

AGREES WITH WILSON ON FOUR PRINCIPLES

Speaking before the Reichstag yesterday the imperial German chancellor, Count von Hertling, made this declaration:

"I can fundamentally agree with the four principles which, in President Wilson's view, must be applied in a mutual exchange of views, and thus declare, with President Wilson, that a general peace can be discussed on such a basis.

"Only one reserve need be made in this connection: These principles must not only be proposed by the President of the United States, but also must actually be recognized by all states and peoples.

"But this goal has not yet been reached. There is still no court of arbitration established by all the nations for the preservation of peace in the name of justice. When President Wilson incidentally says that the German chancellor is speaking to the tribunal of the entire world, I must decline this tribunal as prejudiced, joyfully as I would greet it if an impartial court of arbitration existed, and gladly as I would cooperate to realize such ideals.

"Unfortunately, however, there is no trace of similar statements on the part of the leading powers of the entente. England's war aims are still thoroughly imperialistic, and she wants to impose on the world a peace according to England's good pleasure.

"When England talks about the people's right of self-determination, she does not think of applying the principle to Ireland, Egypt and India.

"It has been repeatedly said that we do not contemplate retaining Belgium, but that we must be safeguarded from the danger of a country with which we desire after the war to live in peace and friendship, becoming the object of jumping-off ground of enemy machinations. If, therefore, a proposal came from the opposing side, for example, from the government in Havre, we should not adopt an antagonistic attitude, even though the discussion at first might only be unbinding.

"Meanwhile I readily admit that President Wilson's message of February 11 constitutes perhaps a small step toward a mutual rapprochement."

SAYS WORLD IS LONGING FOR PEACE

With reference to a statement recently made by Walter Runciman, the former president of the board of agriculture in the British cabinet, the chancellor said:

"I can only agree with Mr. Runciman if he meant that we should be much nearer peace if proper responsible representatives of the belligerent powers would meet in conclave for discussion. That would be a way to remove all intentional and unintentional misunderstandings and bring about an agreement on many individual questions. I am thinking especially in this connection of Belgium.

"The world is longing for peace," the chancellor said, "but the governments of the enemy countries again are inflaming the passion for war. There are, however, other voices to be heard in England; it is to be hoped these voices will multiply.

"The world now stands before a final decision. Either our enemies will decide to conclude peace—they know on what conditions we are ready to begin a discussion—or they will continue the insanity by the criminal war of conquest.

"Our people will hold out further, but the blood of the fallen, the agonies of the mutilated and the distress and sufferings of peoples will fall on the heads of those who insistently refuse to listen to the voice of reason and humanity."

The chancellor asserted the Central powers has freed Poland with the intention of calling an independent state into existence. The constitutional problem involved was still being discussed in its narrower sense, he said, by the three countries involved.

"Our war aims from the beginning were defense of the fatherland, maintenance of our territorial integrity and freedom of our economic development," said the chancellor. "Our warfare, even where it must be aggressive in action, is defensive in aim. I lay special stress upon that just now in order that no misunderstandings may arise in regard to our operations in the east. Their sole aim is to secure the fruits of our peace with the Ukraine.

"Regarding recent Swiss intrigues, I declare that we never have thought, and we never will think of assailing Swiss neutrality," Hertling declared. "We hold the greatest esteem and gratitude toward Switzerland, and Holland, Scandinavia, Spain and other neutrals, who have preserved their neutrality despite temptations and oppressions.

"Our war aims from the beginning have been:

"Defense of the fatherland.

"Maintenance of territorial integrity.

"Freedom of economic development.

"Even our aggressive warfare has been defensive. I am to emphasize the latter, so there will be no misunderstanding regarding the operations in the east.

LONDON, Feb. 26.—Chancellor von Hertling's reference to a statement made by Walter Runciman, former president of the Board of Trade, concerned remarks by Runciman in a speech in the House of Commons on February 23. Runciman said that the greatest contribution that could be made to the peace of the world would be that the represenatives of opinion in the belligerent countries draw together and exchange views.

THE HAGUE, Feb. 26.—Despite the fact that Count von Hertling, the German chancellor, told the Reichstag that he agreed fundamentally with the four underlying peace principles laid down by President Wilson on February 11, the belief was expressed in diplomatic circles today that the chancellor's address would not make a favorable impression in the allied capitals.

The partial account of the speech received here at the time this telegram was written indicated that allied statesmen could find ample grounds for charges of insincerity against the German chancellor. Chief material for such an accusation lies in the open war of aggression against Russia which Germany is now waging.

REED GIVES FACTS FROM COAL PROBE

(Continued From Page 1)

no injury she could inflict would result in warfare.

"This small group of wilful Senators," Senator Swanson declared, "were responsible for the creation of this belief in Germany and deserve severe condemnation for misrepresenting and thwarting at this critical time the will of the American people. Convinced by defeat of the measure for armed neutrality that the United States was too craven to fight, hardly had Congress adjourned before Germany commenced the enforcement of extended submarine warfare."

Senator Swanson, after reviewing the causes which led to America's entrance into the war, declared there is "an insidious and treasonable propaganda now being conducted in this country designed to produce dissatisfaction and patriotic lethargy in order to secure a German-made peace."

Engaged in spreading this pernicous propaganda he said "is a motley crew composed of fanatics, German spies and persons corrupted with German gold and promises offered by a few selfish politicians who foolishly think they see an opportunity for self-advancement, although it may result in the wreck of the country.

"The activities of former German Ambassador von Bernstorff and other German agents, despite our neutrality, in attempting to cripple our industries, instigate plots and to influence the Congress in the interest of the German empire," also were denounced by Senator Swanson.

ALLEGED GRAFT RING TRIALS ON

SAN FRANCISCO, Feb. 26.—The first trial of the alleged Angel Island Immigration graft ring was begun today before District Judge Cushman on the indictments of William H. Morris, Tong Tang and Chew Toy, charged with conspiracy to land Chinese in violation of the exclusion law.

The arrest of Morris and these two Chinese in San Mateo in December, 1916, and the revelations which followed, formed the basis for the indictment of a score of Angel Island employees and local attorneys in an alleged ring which is said to have received $100,000 a year for illegally bringing Chinese into the country.

The government, as presented by Assistant U. S. Attorney Casnar Orphaun began the empaneiment of a jury, which was followed by the opening statement of Attorney John L. McNab, representing the defendant.

SPEED IS QUESTION

Whether Nels Quist was driving his automobile at a reckless speed, so fast that he swerved to avoid hitting Alfred Soares he ran over the sidewalk and smashed into the fence, as Soares claims in his complaint for damages for personal injury, or whether he was going along so slowly that he stopped within six feet when Soares dashed in front of the machine, are questions the jury in Superior Judge Koford's court are trying to solve today. Soares is suing for $10,000 damages.

There are four women on the jury.

CHIN IS PROMOTED

PEKING, Feb. 26. — Chin Nun-Hsun, minister of the interior, has been appointed acting premier in place of Wang Chin-Chen, who has been granted a leave of absence. Wang is said to favor a temporizing attitude toward the southerners, and is not in sympathy with the president's announced military policy against the rebels.

ARTILLERY DUEL GROWS IN INTENSITY

BY ASSOCIATED PRESS
LEASED WIRE TO TRIBUNE

WITH THE AMERICAN ARMY IN FRANCE, Feb. 26.—The artillery due in the American sector northwest of Toul grows more intense daily. The Germans fired a hundred or more shells during the last 24 hours and late this evening began to bombard violently some of our batteries with gas and high-explosive shells.

The American artillery has replied constantly, doing most effective work against the enemy front line trenches, his battery positions and wire entanglements. Numerous enemy working parties also were shelled. Beyond observation by balloons there has been no aerial activity owing to the low clouds and rain.

FIRE MANY ROUNDS.

American machine guns last night and this morning fired many thousand rounds in the rear of the German positions, where marked movement of men and material progresses. The enemy tried unsuccessfully to hinder the American patrol work by hurling new and powerful flares into the American wire entanglements.

FRENCH GRAND HEADQUARTERS, Feb. 26.—Trench raids along the French front have increased in intensity during the past month to such an extent that they have become, in some instances, battles in which thousands of men have been engaged and hundreds of prisoners taken. The artillery is throwing unheard of quantities of shells.

The objects of the raids vary widely. Sometimes a raid is undertaken in order to identify enemy units and at other times to improve the line or capture observation points. Again, a raid may be made to destroy the enemy's works and prevent him from attacking. This was the case in Saturday's raid at Asbach, Alsace, where the Germans were in strongly fortified lines which they had held since December, 1914. The enemy positions were bombed beyond recognition and placed in such condition as to hinder German operations.

WATCHES WORK OF GUNS.

The correspondent watched the showers of metal tearing away the wire entanglements flattening the gun emplacements and setting fire to the enemy's ammunition dumps. The operation was a complete surprise to the Germans and most of them retired to rear positions while French infantry completed the work of the gunners. Only a few prisoners were taken, but most valuable information regarding the enemy's disposition of troops was obtained before the French returned to their own lines.

Other successful raids in Lorraine, the Argonne and northwest of Rheims have demonstrated the nature of the German defense system. Nearly everywhere the enemy front lines are held lightly and the main bodies of troops are kept so far in the rear that occasionally the French have reached the third and even the fourth line with slight resistance. This is the reason for the generally small number of prisoners, but in Lorraine the Germans were caught napping last week and the haul of captured was large, being more than 400.

MANY SMALLER RAIDS.

In addition to these big raids there have been innumerable smaller ones which have not been mentioned in the official statements. They have been carried out by mere squads who usually bring back a number of prisoners.

Raiding, in fact, has become quite a modern military art and is encouraged by the commanders. It has been found to maintain the offensive spirit of the French troops, who seem to revel in the work in which they must display initiative and at the same time worry the Germans.

By H. G. WALES.
International News Service Staff Correspondent.

WITH THE AMERICAN ARMY IN FRANCE, Feb. 26.—An entire battalion of American troops volunteered to accompany the French in the raid against the Germans north of the Chemin des Dames (on the Aisne river front) on Saturday morning, it became known today. Twenty-six of the Americans were selected, while the French group consisted of seventy-six men. Rehearsals of the attack were held. German positions were shelled for forty-five minutes and then the Franco-American squad went forward behind a barrage. The Germans captured were taken while fleeing from a first-line dugout that had been struck by a shell.

The Germans scattered in their attempt to escape, but were rounded up in a trench. The occupants of two dugouts were chased for a half a mile, but finally got away in a communication trench.

TRAVERSE BARRAGE.

Upon their return the raiders had to traverse a German barrage fire, during which five Frenchmen and six of the German prisoners were wounded.

The prisoners were Prussians, their ages being from 16 to 41. They explained that morning inspection had just been completed when the raid began. The captives looked ill-nourished, but they claimed that food was plentiful. According to their stories they got 750 grammes of bread daily, meat twice a week, sausage on other days and coffee and hot soup daily.

The stories of the prisoners were suspiciously identical. They said that before the war they had been farm hands and factory workers.

TRY NEW MOTOR

WASHINGTON, Feb. 26—The first test flight of an airplane with a Liberty motor will take place in Washington. Representative Hull of Iowa declared today in announcing that arrangements had been completed to give congressmen an opportunity to see the new engine in action. The public tests, which probably will include distance and speed flights and military maneuvers.

KEEPING THE QUALITY UP.

LAXATIVE BROMO QUININE, the World-Famous Cure for Colds and Grip, is now 30c per box. On account of the advance in the price of the six different Medicinal, Concentrated Extracts and Chemicals contained in LAXATIVE BROMO QUININE, it was necessary to increase the price to the Druggist. It has stood the test for a Quarter of a Century. It is used by every Civilized Nation.—Advertisement.

HUTSINPILLER FINANCES IN COURT'S EAR

When the Hutsinpiller divorce case was resumed today before Superior Judge Everett J. Brown, Rev. Simeon D. Hutsinpiller, former pastor of Berkeley Trinity church, took the stand for cross examination by Attorney Samuel Shortridge, representing Mrs. Fannie Hutsinpiller, the plaintiff.

The story of their marriage and the first years of their life was gone over perfunctorily, the minister explaining minor details of their relations. No new evidence was adduced. The witness denied again that he had ever asked his wife to allow him to use her private income, from some $200,000 worth of property inherited by her from her father, or that he had interfered with her plans of disposing of the estate by will without recognizing him. He said that except to ask her to name him as co-executor with her brother, he had never discussed the subject with her.

The minister said that his illwill toward Mrs. Ida Brooks, sister of Mrs. Hutsinpiller, whom he charges with causing the difficulty in their home, was occasioned by her imposition upon his wife. He denied that he had ever received money payments from Mrs. Brooks.

Dental bills contracted by the minister for work done by Dr. Brooks were rehashed. One bill was rendered for $150, which the minister refused to pay, claiming that the work was done by his nephew in exchange for favors. At the suggestion of the family it was paid later, he said, "in order to keep him from bothering them for money."

The minister said that his wife had repeatedly declared since 1906 that he married her for her money. He denied that he had ever said that he begrudged her what she ate.

GRAIN DEALER'S LICENSE REVOKED

SAN FRANCISCO, Feb. 26.—The first drastic action of the federal food administration in California taken for the refusal of firms to obey orders, occurred today in the case of H. P. Cox, rice and grain dealer, with offices in the Merchants' Exchange building. The license of Cox, No. 34231, was revoked for the period of the war by Ralph P. Merritt on direct telegraphic authority of Herbert C. Hoover.

Cox's license was rescinded because of speculation in grain. "He was performing no useful function in food distribution and had caused financial loss to those with whom he had made contracts for delivery of essential foodstuffs," said Merritt today. "His actions tend to break down channels of distribution and cause the public to suffer through fictitious prices caused by speculation."

It is pointed out as a coincidence that the action in the Cox case closely followed the charge of yesterday that the high prices of coarse grain had been caused by speculation. By the loss of his license Cox must immediately cease all business as a grain dealer under penalty of a $5000 fine, two years' imprisonment or both. A similar action is to be taken in the cases of others whose names are not revealed at this time, was the further announcement made.

PHOEBE COULD NOT LIVE WITHOUT CLIFFORD

Phoebe Hall of Oakland, thought so much of Clifford F. Reuman, a traveling salesman, that she could not live without him, according to a statement made in court in Los Angeles, by Mrs. Carrie E. Reuman. The state of Phoebe Hall's heart became known to Mrs. Reuman by means of a telegram from the Hall woman, according to the testimony of Mrs. Reauman.

Mrs. Reuman told of the telegram in her suit for divorce here. She said her husband became infatuated with the other woman and she filed separation proceedings, naming Miss Hall. This complaint afterwards was abandoned and an amended complaint filed, charging desertion only.

Reuman did not appear to contest the suit and Mrs. Reuman was granted a decree and $100 a month alimony.

GIVEN PROBATION

R. M. Emerson, brother of H. T. Emerson, congressman from the Ohio twenty-second district, stood before Superior Judge James G. Quinn today charged with forging a check. On previous arraignment he had pleaded guilty and the matter was referred to Probation Officer Leonard Compton. The report was favorable and Judge Quinn granted probation, on the condition that Emerson abstain from drink, even to the degree of abandoning friendship of people who ask him to take a drink. The check was for $11.

FAVOR HOUSING OF LABOR BILL

WASHINGTON, Feb. 26.—Secretary of Labor Wilson's bill appropriating $50,000,000 for housing facilities in congested war centers, was reported out favorably by the House building and grounds committee today. Only slight changes were made by the committee.

Should the bill pass the fund will be expended under the direction of Otto M. Eidlitz, newly appointed director of housing under Secretary Wilson.

SOLDIER IS KILLED WITH IRON BAR

CAMP LOGAN, Houston, Tex., Feb. 26.—Private Clyde E. Scott, of Battery C, 133d artillery, was found murdered today in the warehouse section of this city. His body was found by a driver for a storage company. The skull of the soldier was crushed.

Military and local police are investigating the case. An iron bar two feet long was found a few feet from Scott's body. When the dead soldier's clothes were searched a Bible, a Christmas card and his pass signed by his sergeant entitling him to leave camp were found in his pockets.

The body was cold and stiff and indications were that the soldier had been dead for several hours.

Scott enlisted in his battery on April 17 of last eyar. His home is believed to be in Fairmount, Ind.

SEAMEN ACCUSED OF ENEMY TRADING

With the steamers Nehalen, now in the bay, and the Centralia, in San Pedro, ordered held for investigation by government agents, and two men, Heman Neilson and Fred Sundquest, engineer and waiter on the steamer Alliance, held under guard at Angel Island, secret service operatives are today probing what is declared to have been a widespread plot to ship arms and ammunition to German agents in Mexico and South America.

The investigation is under the direction of the War Trade Board. The men under arrest are to be charged with trading with the enemy. The two men arrested were declared by passengers to have traded with German agents on the West Coast.

Both vessels are well known on the Oakland waterfront. Seizure of several coastwise vessels is declared to be imminent.

Government agents are looking for Frank Stark, freight clerk on the Centralia. It was declared that he knew the details of German trading at Guayquil, Ecuador. He has not yet been heard from, although reported on his way to San Francisco from Los Angeles.

According to Federal agents, a large part of the trade going to South America is for German agents, and it is to investigate this that the vessels were held.

Hun Fund Put at His Credit
Humbert Said to Have Had Sum

NEW YORK, Feb. 26.—Further disclosures in the investigation conducted here into the activities in America of Bolo Pasha, under sentence of death in France for treason, were made made public yesterday, indicating that Charles Humbert, the French senator who was arrested subsequent to Bolo Pasha's conviction in Paris, had German money amounting to $170,000 on deposit in this country.

This money was placed with J. P. Morgan & Co. here on instructions of Bolo Pasha, who, according to the evidence, had it transferred from his own account in the Royal Bank of Canada to Senator Humbert's account with the Morgan firm.

The documents showing this transaction are in the possession of the French government for use in connection with Senator Humbert's trial. They were obtained from the records of J. P. Morgan & Co. during the Bolo Pasha inquiry by Merton E. Lewis, attorney general of New York state. Their publication was authorized today by the attorney general.

TO HUMBERT'S CREDIT.

The evidence shows that Senator Humbert had to his credit in New York at various times as high as $489,000. Most of it was transferred from Paris to New York through Morgan, Harjes & Co. to J. P. Morgan & Co., but $170,000 was transferred from the New York branch of the Royal Bank of Canada to J. P. Morgan & Co.

"This $170,000 was German money," Perley Morse, investigator for Attorney-General Lewis, said in making public the evidence. "Whether any part of the rest of the money which Senator Humbert had on deposit in New York came to him from Bolo Pasha remains to be determined by the French government."

The Humbert credits with the Morgan firm were partly in cash and partly in British bonds.

OPENS ACCOUNT.

Humbert opened his account with J. P. Morgan & Co here on August 11, 1915, when Morgan, Harjes & Co. transferred about $32,000 to the New York firm from Humbert's Paris account. Transfers continued to be made in this way until July 27, 1917, at which time his credits with the Morgan firm here approached the half-million mark.

On October 5 last, when Attorney-General Lewis' inquiry was completed, Senator Humbert, the documents show, still had to his credit here $128,000 in cash and $200,000 in bonds. It is understood these credits are with the Morgan firm here today.

Letters show that Morgan, Harjes & Co. introduced Humbert to the Morgan firm here as "one of the most influential members of the French senate," and owner of "Le Journal," "one of the largest and most important newspapers in France"—a man whose patronage the Paris bankers were eager to retain.

SOCIALIST UNITY TOLD BY TROTZKY

CHICAGO, Feb. 26.—German and Austrian Socialists, in their efforts to force the Prussian military powers to peace, have the full support and encouragement of the Socialists of America. In a cablegram which is on its way to Leon Trotzky today from the Chicago offices of the Socialist party, American Socialists convey their congratulations to their European comrades. The cablegram, which is signed by Adolph Germer, secretary, said:

"Leon Trotzky, Petrograd: Convey to German and Austrian Comrades hearty congratulations of American Socialists on their revolutionary activities for peace."

The message was submitted to the State Department and sent forward through the censorship bureau.

SPAIN VOTES ON NATIONAL PARTIES

MADRID, Feb. 26.—The election returns are still very incomplete, earliest indications, however, pointing to the defeat of the Socialists and Radicals.

Five Monarchists, three Radicals and several Socialists have been elected in Madrid, including Antonio Maura, ex-premier and leader of the Conservative party; Alvarez Arauez, Jacinto Benevente and Santa Enlacia, also Conservatives; Pablo Iglesias and Senor Besteiro, Socialists, and Senor Castrovido, Republican.

Melquiades Alvarez, leader of the reformist party, and Alejandro Lerroux, the Radical leader, were beaten in Madrid. Alvarez probably will be elected for another district.

Gabriel Baura, son of the Conservative leader, was defeated. The election of Benevente, who is a dramatist and well-known Germanophile, caused great surprise.

61 ADDED TO DEATH LIST OF TUSCANIA

WASHINGTON, Feb. 26.—The War Department today received sixty-one more names of dead from the Tuscania disaster, who were previously reported as unidentified or missing. They include:

CLARENCE W. ALLEN, Traverse City, Mich.
GEORGE A. ALTWIEN, Temple, Tex.
ROGER BAKER, Levee, Ky.
WILLIAM BINNIE, Fallon, Mont.

EARL WEISENBERGER, Jim Falls, Wis.
PATRICK H. WHITE, Dallas, Tex.
JOSE Y BARRA, Laredo, Texas.
PAUL A. WILLIAMS, Pueblo, Colo.

SAN FRANCISCO, Feb. 26.—John M. Crowley enlisted in the aviation corps as a machinist August 10, 1917. His brother is Timothy A. Crowley of 119 Page street. Crowley was 29 years old.

Charles P. McVey enlisted in San Francisco on November 23, 1917, in the aviation corps as a chauffeur. His mother is Mrs. Katherine Daley of 511 Tenth avenue. McVey was 19 years old.

DAY PROTESTS BRIDGE PRICES

As the representative of a number of the owners of property required for the new estuary bridge right-of-way, Albert S. Day, realty dealer, is out with the declaration that the board of supervisors is beating down prices too severely.

"There have been two appraisements made for the county," Day declared. "One of the appraisers told me that he considers the property owners, under condemnation, in the same position as a debtor under foreclosure proceedings. The statement should disqualify his appraisement. The law provides that property owners under condemnation are entitled to reasonable time in which to find a buyer who wants to buy with full knowledge of the use to which the property is to be put. And there is a great difference between selling property to the highest bidder under foreclosure proceedings and the price obtained from buyers who want to buy such business property as is involved here, situated as it is in the wholesale district.

"The other appraiser also advised me that the value of property on Fourth street as determined by the rental offered by the wholesale firm of Water Brothers is $200 a foot, whereas it was fixed in the appraisement at $150. The appraisement was made before he knew of this rental offer.

"Competent appraisement of property is based upon income. The wholesale district is permanently established, doing a business of from $15,000,000 to $20,000,000 annually. Hundreds of thousands have been invested in property and buildings and the rental conditions are under long term leases upon a permanent basis and the property in the right of way is within the main business district and being used by the principal business lines.

"Seventy-five per cent of the property owners have been absolutely fair in their position before the board. Their desire was, if there was to be a controversy, to have the values determined by arbitration and it is to be regretted that the board and the district attorney's office did not co-operate with them to secure adjustment on that principle."

REVEAL BIG FRAUD

LOS ANGELES, Feb. 26.—An alleged gigantic fraud, rivaling the peculations of J. Rufus Wallingford and "Blackie" Daw fictional characters, stands exposed here today by the arraignment in court of William Freese and William T. McKenna, alias Killymoone, charged with embezzlement and fraud. The men are alleged to have manipulated a scheme to promote a big motion picture corporation, selling stock. Scores of women and men are said to have been swindled and as much as $200,000 sunk into the project with no returns to investors.

LIEUT. STARR DIES

CHICAGO, Feb. 26.—Cablegrams received from England today announced the death of Lieutenant Philip C. Starr of Field Company 154, Royal Engineers. Starr, who was a resident of Chicago and son of Merritt Starr, a Chicago attorney, enlisted at Toronto. He was educated at Thatcher School, California, where he won fame as a bareback rider, and at Harvard, where he gained some note as a football player. He was graduated from Harvard in 1914. He was 28 years old.

3 FACTORIES NOW MAKING BROWNING GUN

WASHINGTON, Feb. 26.—The Browning machine rifle adopted for the American army in France, and declared by ordnance experts to be the greatest weapon of its kind yet developed, is now being turned out in three factories, Secretary Baker announced today, and more than one hundred already have been delivered.

TREASON IN CAMP?

TACOMA, Wash., Feb. 26. — The war department desires the prosecution of the four Austrians at the Tacoma army camp who are alleged to have made statements that when they arrived in France and went into action they would shoot their officers. A telegram received at the camp this morning was to the effect that the closest investigation should be made on the activities of the men, and if it was found the statements purported to have been made by them are true they will be charged with treason and tried. The maximum penalty is death.

Announcement—

We have taken the agency for

Pathé

Phonographs and Records

WE take pleasure in announcing that we have been appointed agents for the Pathe Pathephone and the Pathe Library of Double Records.

In this store you will find a complete line of Pathephones, ranging in price from $25 to $225. Every Pathephone is equipped to play all makes of needle-type records. Every Pathephone is equipped with the famous

Pathe Sapphire Ball

—A polished ball-shaped genuine jewel that takes the place of metal needles. It is *permanent.*

The Pathe Guarantee: We guarantee every Pathe Record to play at least 1000 times with the Pathe Sapphire Ball, without impairment of the unexcelled beauty of tone, and without showing any perceptible wear on the record.
PATHE FRERES PHONOGRAPH COMPANY

No Needles to Change

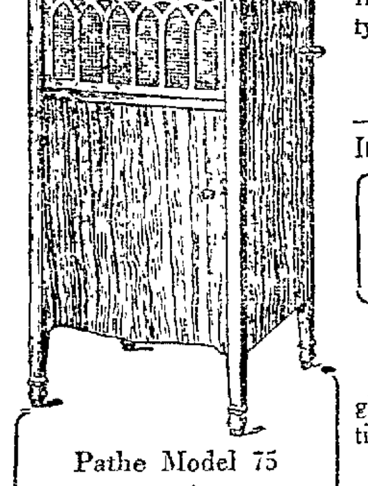

Furthermore, this little jewel glides along the records without tearing, digging into or ripping them. Pathe Records are guaranteed to play at least 1000 times, without showing any perceptible wear. This insures

Long Life to the Record

We will also carry Pathe Foreign and American Double-Disc Records. Selections by the great singers of America; by famous foreign artists who have never appeared in America; celebrated foreign orchestras and bands, etc.

Come into this store today. Hear your favorite selections played as you have never heard them played before.

Have you a copy of the latest Pathe supplement? If not, come in and get one.

Pathe Model 75

YVETTE GUILBERT

Famous and Unique French Artiste

Succumbs to the Magic Charm of the

SOLOELLE

The Tone-Coloring Solo Player Piano

Autrefois le piano—mecanique donnait simplement le "dessin" sec de la musique n'exprimant que les contours crus, indispensables—avec le "Soloelle," la couleur l'harmonieuse, la couleur l'harmonieuse et pittoresque couleur est enfin venu amplifier la "Verite musicale" et parfaire la Beaute de l'harmonie! Et voila une nouvelle invention, plus educatrice, que les lecon de musique d'inferieurs professeurs? Beni sait l'inventeur du "Soloelle!"

Yvette Guilbert

"Formerly the mechanical piano gave simply a dry sketch of music expressing only the bare outlines.

"The Soloelle arrived, created and amplified the color, the harmonious and picturesque color—in short, the Musical Truth—and reached the beauty of harmony, and here we have a new invention, more educational than the music lessons of inferior teachers.

"May God bless the inventor of the Soloelle."

YVETTE GUILBERT

The Soloelle is radically different—is vastly superior to any player piano you have ever heard.

With it you can accomplish what no other player piano permits you to do—because every other player piano is lacking in the two essentials that are the basic fundamentals of musical expression.

***First:* Complete and unrestricted individual controls of Melody and Accompaniment.**

***Second:* Control of Tone-Color—the charm and essence of musical expression.**

The Soloelle, alone of all player pianos, is a musically-satisfying and artistic instrument. You can *now* obtain immediate delivery on any of the following:

Knabe Soloelle. Kohler & Chase Soloelle. Gabler Soloelle.
Shoninger Soloelle. Andrew Kohler Soloelle.
Fisher Soloelle. Hobart M. Cable Soloelle.

$575 to $1250

Terms if desired. Other instruments in exchange.

If not convenient for you to visit our showrooms during the business hours, you may have a Soloelle demonstration any evening by appointment.

535-14th St. Oakland — Kohler & Chase — **26-O'Farrell St. San Francisco**

If out of town, write for Clarence Eddy's Book, "Observations on the Soloelle."

Phosphate Will Strengthen Your Weak Nerves

DRUGGISTS SUPPLY IN TABLET FORM AND PURCHASERS RECEIVE BINDING GUARANTEE. SATISFACTION MONEY BACK.

Weak nerves rob men and women of all the joy of life and quickly reduce the strong and robust to a condition which is pitiable in the extreme. This condition is brought about slowly and stealthily in the majority of cases, and the poor sufferer fails to realize what is wrong until faulty memory, indecision, lack of desire for work or recreation, insomnia or some other unmistakable symptom indicates weak nerves. It is then that many people make the big mistake of resorting to the use of so-called nerve tonics, alcoholic stimulants or drugs. Nothing could be more harmful or more dangerous. The nerves are weak and exhausted; they need food and nourishment—not drugs that will lash them into temporary activity. Feed your nerves and they will become strong and your health will improve in consequence. That is the advice of present day physicians and specialists, and the nerve food they recommend is just one 5-gr. tablet of pure bitro-phosphate taken during or immediately after every meal. Simple advice, but its excellence has been proved over and over again, and, as a package containing sufficient bitro-phosphate tablets for two weeks' treatment can be obtained from any druggist at reasonable cost, the remedy is within the reach of every sufferer from weak nerves. Moreover, the whole risk of the trial is assumed by the manufacturers, for every package of bitro-phosphate tablets is accompanied by a binding guarantee of satisfaction or money back. It is sold in this city by The Owl Drug Co., and all good druggists.—Advertisement.

An Unfailing Way To Banish Hairs

(Beauty Note.)

Ugly hairy growths can be removed in the privacy of your own home if you get a small original package of delatone and mix into a paste enough of the powder and water to cover the hairy surface. This should be left on the skin about two minutes, then removed and the skin washed and every trace of hair will have vanished. No harm or inconvenience can result from this treatment, but be sure you buy real delatone.—Advertisement.

ECKMAN'S Calcerbs

INVALUABLE FOR COLDS

SCHOOL AND BOND BOARDS AT VARIANCE

Widening the breach that has existed between the city board of education and its advisory bond committee over the selection of an architect to supervise the construction of new buildings under the proposed $4,000,000 bond issue, notice was given the board last evening that the committee has adjourned to the call of Chairman Adoph Werum, with the understanding that there will be no further deliberations on its part until the board more definitely defines its position in the matter.

That the advisory committee was fully informed as to the desires of the board toward its activities was stated by Secretary Dan W. Pratt, who said that the outline of the duties of the committee as presented by Director Floyd Gray a week ago and adopted by the board had been sent to Chairman Werum. Pratt told the board members last evening that after the receipt by him of the notice of adjournment of the committee he had telephoned to Werum telling him that a copy of instructions from the board had been mailed.

"Werum said that he had a letter on his desk from the board of education, but that he had not had time to open it," said Pratt.

"That's about as far as we can go," commented President Kelly.

PROTEST ENTERS IN.

Coupled up with the controversy between the board and its committee is the protest made a week ago against the employment of J. J. Donovan as supervising architect. This was requested by the committee, which asked that the board appropriate $500 to defray the expenses of preliminary plans. The board was unable to make the appropriation. Then last week a letter was received by the board protesting against the employment of Donovan. The communication was signed "Arthur M. Hallett, 5132 Ayala street."

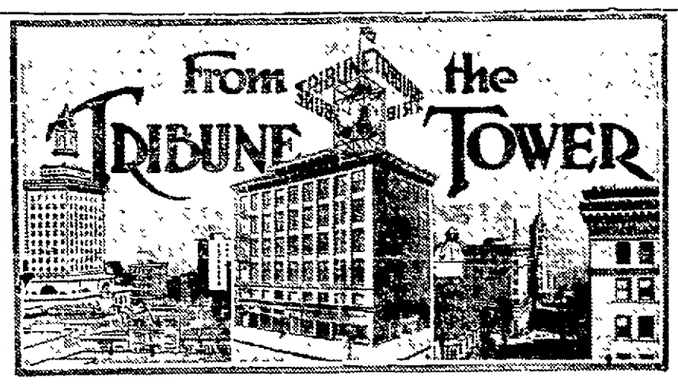

Donovan, in a communication to the board last evening, stated that he had been unable to locate Hallett, either by registered letter, due inquiry or in the directory or telephone book, leaving the impression that in his judgment Hallett is a fictitious person.

MAY BE SHOWDOWN.

As the situation now stands, it is probable that a "showdown" will be demanded between the school board and the advisory committee in order that the proposed bond issue campaign may be started as soon as possible.

The advisory board members were named by the Civic Association under authority given by the board of education and when the members were selected they were accepted by the board wit hthe result that the committee went to work in December, 1917. Several months ago the committee made a tentative report of its survey of the needs of the department in new schools and buildings.

The board, in defining the future powers of the committee a week ago, asked that the body suggest the best methods to pursue in promoting a bond campaign. Until Chairman Werum opens the letter of instructions from the board it is not likely that the committee will be able to act further.

Harry Lafler, realtor and poet, owns tennis for a hobby. He and Maurice McLaughlin used to play as a team in the Oakland Tennis Club. W. C. Jurgens, manager of the Hotel Oakland, has a hobby in mathematics. When at the University of California Jurgens was one of the star mathematicians of his class, and now, to relax, he delves deep into integral calculus. Jacob Strubel, millionaire inventor, has two hobbies, aviation and music. He has a $25,000 pipe organ in his suite at the Hotel Oakland, and is an accomplished player. Fred Kahn studies history as a hobby. Robert Robertson, baker, plays the piano for relaxation from the strain of mixing dough to comply with Government specifications.

RAIN VERY BAD FOF PET MEERSCHAUM

Harry E. Green, captain of inspectors, is a devotee of the *meerschaum* and on duty or on the street. Captain Green without his pipe would be a sight one would not often meet. He is more concerned about that pipe than he is about an umbrella. While on his way to the city hall Saturday morning the captain got caught in the southwest downpour and he puffed into his office pretty well drenched.

"It's a regular soaker," commented Inspector Bodie Wallmann as the captain entered his office.

"Yes, confound it," blurted Green as he shook himself from the effects of the precipitation, "I couldn't keep my pipe lit."

BLOW ON HEAD BROKE ARCHES OF DARKEY'S FEET.

S. J. Gray knows the shoe game like a mother knows her offspring. He has had his share of hard-headed customers, but he met the man with the world's record last Monday. He was just closing for the evening when a colored gentleman from West Oakland came in.

"Ah been havin' trouble with mah feet," he said, "and ah wants to get a pair of shoes to fix 'em up."

Gray examined the colored man's feet.

"Good Heavens!" he said. "Your arches are all broken down."

"Is dat so?"

"I should say it is. What do you do?"

"Ahm an iron worker."

"Well, how did you ever break your feet down like that?"

"Doan know, suh, 'less it was yestiddy. Yuh see dey done drap a iron beam on mah head, and to tell yuh the truth mah feet has hurt me ever since."

Gray has been in business in Oakland for the past twelve years, and for two years has occupied half the San Pablo frontage of the Heald's Business College building at Sixteenth and San Pablo, the other half having formerly been occupied by a branch of the Owl Drug Company. The part of the building formerly leased by the drugstore has again been leased and is being remodeled. Gray purposes to stay in the building and will share the San Pablo frontage with the newcomers.

HERE'S A MUSICAL WEAPON FOR HUNS

German tear gas is going to be out-teared and the Huns are going to weep sadly and copiously when a new and potent war weapon, invented and patented in Berkeley, is loosed over No Man's Land. The new weapon is not lethal but psychological. The inventor is Robert Lloyd, brother of Mrs. John Madden, 2429 Edward street, Berkeley, who is going to give singing lessons to the enlisted men at the Presidio and Camp Fremont.

Here is Lloyd's plan. Some night in the stilly silence of the trenches when the Huns are cooking their sausage suppers and singing in fancied security, a plaintive funeral dirge will waft itself across from the American trenches. All down the line the lugubrious strains of Chopin's funeral march or the dead march from Saul will be taken up in mournful unison by the American troops.

The psychological effect on the enemy, it is predicted, will be startling. Lloyd claims it will be more demoralizing than a drum fire or a barrage. Ere the last notes of the death chant have died out the Americans will go over the top confident that Fritz will be too busy weeping and wailing and mourning over his frankfurters to put up a fight.

TOWELLESS TOWEL JORDAN'S INVENTION

Hoo-ray!

The cleanly are to be safe from Bacteria!

No longer will the fatal towel spread microbes abroad among those who wash! No longer will cleanliness be next to the undertaker! For the towelless towel has been invented to save mankind!

John Jordan manager of the Claremont Hotel, is the inventor and benefactor of mankind responsible for the new weapon against germs.

"In the hotel wash rooms I propose to install hot air blowers," he declares. "After the guest washes, instead of using a germ-laden towel, he need only place his face before the blower. The rush of hot air at once drives all the moisture to the region in the back of his neck, where of course it would never be noticed if he is as polite as a guest in a first-class hotel should be, and never turns his back on anyone.

"Of course, if he wears a toupee, he'd have to hold it on, or pin it down."

NAME WRONG, BUT IT'S SOME ANIMAL

Alfred H. Marchant makes calculating machines. He also shoots ducks. He is one of the few duck hunters who can come home without passing a duck store on the way back. Among his friends he is considered an authority on the subject of hunting.

Recently a friend of his about to leave for South America came to him for advice.

"I am going down south with an expedition that is going to hunt these here wild onyx, and I want to know what kind of a gun to take."

"Wild what?" asked Marchant.

"Onyx! You know, them things with the corkscrew horns. They are rare, but there's still a few left."

Marchant shook his head and confessed he had never heard of them. The friend was manifestly disappointed in Marchant's knowledge about hunting, and went away. About an hour later Marchant's telephone rang.

"Hey," said the friend over the wire, "that wasn't an onyx. That was an ibex! I got the name wrong!"

AVIATOR DIES.

MEMPHIS, Tenn., Feb. 26.—Tryze Thronson, of Chicago, a civilian instructor at Park Field, near here, who was injured when his airplane fell from a height of 100 feet, died late last night.

Oakland Lady Overcomes Use of Morphine

"Troubled about 10 years with what the doctors called gall stones; often I thought I would die before the doctor could get here, when he would give me a hypodermic of morphine and advise an operation. A neighbor told me about Mayr's Wonderful Remedy for stomach trouble, and since taking the first dose two years ago I have not had an attack nor needed a hypodermic." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded—Osgood's Dept. Drug Stores.—Advertisement.

LABOR PROTESTS WRITER'S CHARGE

A resolution, protesting recent attacks of Walter V. Woehlke, writer, who assailed coast labor organizations on the charge that they are unpatriotic, was passed last night by the Central Labor Council. The council sets forth that the union men of America, and particularly of the coast, are ardently patriotic, and questions Woehlke's good faith in making his charges, declaring that the writer is a German by birth, and that his writings, being propaganda designed to cause union unrest, should be investigated by the government.

The resolution was presented by E. F. Hurley of the electrical workers. It follows:

"Whereas, Organized labor is being bitterly censured by one Walter V. Woehlke, through the columns of the Sunset Magazine, stating that organized labor is retarding the government's plan of ship building, and

"Whereas, Said Walter V. Woehlke is a German by birth and admittedly one by preference, stating that his presence in the United States would not add to the military strength of the country, and the Sunset Magazine is now and always has been opposed and antagonistic to organized labor, and

ATTACK LABOR.

"Whereas, Taking the pro-German attitude of Woehlke and the anti-labor attitude of the Sunset Magazine, leads us to one conclusion, that the emissaries of the Kaiser have seized upon this opportunity to unjustly attack labor, with the expectation that the attack would so incense labor that it would cause a breech in the now pleasant relations existing between labor and our government, thereby impeding the production of ships and munitions which are so necessary in this war for the crushing of Hohenzollernism, and

"Whereas, It is our firm belief that if this pro-German editor and his anti-labor paper are permitted to continue their unwarranted attacks upon organized labor that the result will tend to impede production, therefore be it

"Resolved, That the Central Labor Council of Alameda County, in regular session assembled, do hereby declare the said Walter V. Woehlke and the Sunset Magazine to be acting in a manner and spirit such as will give aid and succor to our enemies, inasmuch as they are attempting by libelous statements to create dissension and discord among the productive factors of this country during the war—this we believe borders on the edge of treason, and be it further

PRESENT FACTS.

"Resolved, That the secretary of this council, assisted by a committee of three to be selected at this meeting, present such facts as are at our command to the federal authorities, and request of them to suppress the Sunset Magazine and to proceed against Walter V. Woehlke for his treasonable actions, and as final, be it further

"Resolved, We hereby deny any and all charges made by this apparent German spy in so far as it relates to the laxity of organized labor in the shipyards or any other industry now engaged in manufacturing necessities of warfare and that we again reaffirm our allegiance to the government of the United States and hereby pledge to them every single effort at our command for the successful termination of this war.

"We hereby call to the attention of the country at large our efforts to date to assist in the speeding up of the shipping board's plans, and declare it to be our intention to continue to do our bit, regardless of Woehlke or any other of the Kaiser's emissaries."

FOUR FOLLOWERS ARE HELD IN CAMP

Membership in the Church of the Living God in Berkeley is not sufficient to bring exemption from the draft, and because this is the only reason advanced by Louis Weiss, Chas. W. Kaull, Erics Koster and Adam Kraft for their refusal to register under the enemy alien act, they are now in an internment camp, held under a Presidential warrant.

In the registration period these men attempted to file with Chief of Police Vollmer of Berkeley an affidavit stating that they were "Citizens of Heaven" and "Subjects of God," "not enemies of anyone," did not believe in warfare and so should not be required to register.

When the chief refused to accept these affidavits they insisted on reading them, and were ejected. Later their attorney, Theodore Bell, appealed to the court, when Don Rathbun of the Departament of Justice refused information as to their whereabouts.

Federal Attorney Preston gave Bell a permit to see them. Assistant United States Attorney Caspar Ornbaum during the proceedings brought by Bell stated that the Church of the Living God was used by persons who sought to evade the draft. They were taken into the membership, though not actual followers of the creed.

A Presidential warrant, charging him with being a dangerous alien enemy, was also issued for Frank Bauman, a German member of the I. W. W.

SCORED BY SOLONS

MADISON, Wis., Feb. 26.—The Wisconsin House of Representatives will act tomorrow on the resolution denouncing United States eSnator LaFollette's war stand passed, 22 to 7, by the senate last night. The resolution declares the people of Wisconsin stand squarely behind the present war and condemns LaFollette and all others "who have failed to see the righteousness of our nation's cause."

NOON DAY MEETING.

Each Wednesday brings a larger audience to the noonday union meetings at the Crane Wilbur playhouse. Tomorrow another service will be held from 12:10 to 12:50. People who cannot spare the time to be present the entire forty minutes are requested to be present any part of the time that they can.

Rev. H. A. Van Winkle will preside. Dr. O. S. Dean will lead the congregational singing. Miss Amy Holman will sing a solo. Dr. John Stephens will deliver the message, after which the congregation will sing "America," and receive the benediction.

"It's All Bosh, Ned, to Pay Cash for a Suit"

"I never do, and you'll admit that I'm about the best dressed fellow in the crowd. I don't say this to boast—heaven knows I couldn't do it without the aid of Cherry's. But their way of selling clothes is so sensible and practical. I pay a little down when I pick out the garment. Then I take it home and wear it while I pay the rest off in small weekly payments. You'll be amazed when you go to see the fine dandy suits and overcoats they carry. Cherry's have one big store at 528 13th. Women's store, 515 13th."—Advertisement.

WANT RUSS TRADE

SAN FRANCISCO, Feb. 26.—That the Kaiser would gladly exchange Alsace and Lorraine and all of her colonies for the Russian market is the assertion of Mitchell Berg, secretary of the Russian people's economic mission to the United States, who is here today, in commenting on the drive into Russia.

"Germany is now seeking to buy control of Russian industry by offering a high rate for rubles," he declared. "For the Russian market she would willingly exchange her colonies and Alsace-Lorraine. She wants to provide machinery and control the raw materials of Russia. But the Russian people want to trade with America, not with Germany."

Berg says that his commission represents, not the Russian government, but the people of Russia.

GOES ON DUTY.

VALLEJO, Feb. 26. — Sergeant Arthur Kelley, a former newspaperman of this city, is on his way to France.

AWAIT EXPLORER

DAWSON, Y. T., Feb. 26.—Arrival of the Northwest mounted police expedition which left here January 1 for Fort McPherson and Herschel island is expected daily with advices from Stefansson, and it is possible that the explorer will return with the party. No news was received from him since Captain Allen reached Yukon in January, having left Herschel November 8 and "mushed" overland.

WOMEN ARE NEEDED TO HELP IN WAR.

Women can be usefully employed in nursing the wounded, in making up the soldiers' kits, and a thousand other ways. Many American women are weak, pale or anemic from woman's ills. For young girls just entering womanhood; for women at the critical time; nursing mothers and every woman who is "run-down," tired or over-worked—Doctor Pierce's Favorite Prescription is a special, safe and certain help. It can now be had in tablet form. It is prepared from nature's roots and herbs and does not contain a particle of alcohol or any narcotic. It's not a secret prescription for its ingredients are printed on wrapper. Send 10 cents for trial package to Dr. V. M. Pierce, Buffalo, N. Y.

SAN FRANCISCO, CAL.—"I was all run-down, caused from over-work. I suffered from displacement, was nervous, tired, languid all the time, and had a dragging-down feeling, headache and backache. My sister told me how Dr. Pierce's Favorite Prescription had helped her, so I took six bottles and was then so well I am glad to recommend it to others."—MRS. H. EMOND, 467½ Sanchez Street.

SORELLA, OREGON.—"I have suffered everything during expectancy, but the last time I took Doctor Pierce's Favorite Prescription and I never missed a meal, and had comparatively no suffering. I would surely recommend the 'Prescription' to all prospective mothers and, also, for young girls coming into womanhood.

"A friend is taking this medicine now as I advised her to do and she is improving fast. One would not know she was the same woman."—MRS. H. E. GIBSON.

BENEFIT FOR WAR DEPENDENTS

Plans are complete for the big concert and vaudeville performance to be held at the Oakland Auditorium Thursday night for the benefit of British war dependents in America. The affair will be under the direction of Major C. S. Manchester, chairman of the evening. Several prominent local musicians and artists will appear on the program, which will raise funds to care for the families of Britishers in California who are called to the colors.

The program will be as follows:

Overture .....
U. S. Naval Training Station Band, Michael Cimimo, Director.
Official British war film, "The Story of the Drifters."
Bacchanal, "Interpretative Dance"
Pupils of Miss Daisy Wright, accompanist, Mrs. Maker.
Whistling solo.....Fred Bishop
Contralto solo, "O Heart That's Free" .....Robyn
Miss Ora Danmar.
Accompanist, Miss Dorothy Van Haltren.
Dick Glissman, "A Knut from the Foolish Factory."
Cello solo—
(a) S .....
(b) Hungarian Rhapsodio.....Popper
Miss Mary Sherwood.
Accompanist, Miss Beatrice Clifford.
French songs (in costume)—
(a) Par un Matin .....Wockerlin
(b) Verduron, Verduronette .Wockerlin
Mrs. T. A. Rickard.
Accompanist, Miss Marie Louise Hilgard.
Lieutenant J. S. Dagger entertainment by himself
Official British war film, "H. B. M.'s Visit to His Grand Fleet"
Selection, U. S. Naval Training Station Orchestra, Michelo Cimimo, director.
Dances—
(a) Persian Religious Incense Dance .....Miss Ruby Rivera
(b) Louis XIII French Minuet.....
Baby Gladys Johnston and Miss Dell Myhre.
Pupils MacDonald-Johnston School.
Fred Emerson Brooks, the California Poet
Soprano solo, "My Heart at Thy Sweet Voice," from Samson and Delilah .....Saint-Saens
Miss Irma Randolph.
Accompanist, Charles Greenwood.
Duet .....Selected
R. D. Parry, baritone.
H. J. Williams, tenor.
Scotch Piper and Dances—
(a) Selection, James Lemon, champion piper
(b) Highland dances, Prof. Alec Matthew and Mrs. Irene Hanna.
Sketch .....W. S. Weeks
Accompanist, Mrs. T. A. Rickard.
Song of the Allies—
Pupils Miss Daisy Wright.
National Anthems, U. S. Naval Training Station Band.

CHICAGO BOY DIES

CHICAGO, Feb. 26.—Merritt T. Starr, Chicago attorney, was notified by the war department today of the death of his son, Lieutenant Philip C. Starr, in action in France February 26. He was an officer in the Royal Engineers, enlisting with the British army a year and a half before America entered the war.

SHIP IN PERIL.

SANTIAGO, Chile, Feb. 26.—Latest reports from the American steamer Centra, stranded near Coronel, are that the steamer remains in a critical position. If the weather remains favorable it may be possible to salvage the cargo in the upper holds.

BUSINESS NOTICE

Baldness

—Is rapidly increasing—says Prof. John H. Austin, Chicago's bacteriologist, hair and scalp specialist of 38 years' practice—and is in many, many cases directly or indirectly caused by

Alopecia Pityrodes

—A very common scalp trouble.
—It starts with a scaling of the scalp, sometimes slight, called "dandruff," sometimes abundant—producing thick, grayish-white, dry or greasy scales—which leads to falling of the hair.
—At first, when the hair starts to fall, it is hardly noticeable; but as this ailment, "Alopecia Pityrodes," becomes more deeply seated, and the germs multiply, as they always do, the falling of the hair increases rapidly, and in time the top of the head becomes entirely bald. Both men and women of all ages of life are subject to Alopecia Pityrodes, but particularly those between the ages of 20 and 35 years.
—Prof. Austin says that people who are all troubled with any kind of hair and scalp trouble, such as

—Itching Scalp
—Falling Hair
—Excessively Oily Hair
—Dry and Brittle Hair
—Dandruff
—Split Hair
—Gray or Faded Hair

—Should have their hair examined at once under a powerful microscope.
—Prof. Austin says that the use of mange cures, dandruff cures, hair tonics, vaseline and elixirs is like taking medicine without knowing what you are trying to cure.

Both men and women are invited to take advantage of the FREE MICROSCOPIC EXAMINATIONS of the hair and scalp this week. Private office on the main floor of Kahn's at Drug Dept. Hours 10 to 12 and 2 to 4 daily.

"Oh, Selma, the Loveliest New Suits and Gowns"

"The cleverest new styles I've seen anywhere—and such a variety of colors and designs. Suits of serge, tricotine and gabardine that fairly take away your breath with their prettiness. And the latest effects in serge, taffeta, georgette crepes and combinations—ever so quaintly made. The prices? Marvelously reasonable, Selma, when you consider that you buy these pretty things on credit—a little down and a little each week. Of course, you're curious to know where we saw such good things. Well, it's a shop called Cherry's—at 515 13th St.; men's store, 528 13th."—Advertisement.

RESCUES ON FLORIZEL ARE MOST HEROIC

ST. JOHNS, N. F., Feb. 26. — Graphic stories of rescues from the wrecked liner Florizel and further details of Sunday's disaster were related today by survivors who are recovering here from the terrible hardships they endured befpre they were saved by small boats from the New Foundland steamer Prospero.

Members of the crew said the mistake in reckoning which brought the Florizel head-on to the coast, twenty miles north of Cape Race, when all hands thought she was well out to sea as she turned westward for Halifax was due to running without the patent log. The heavy snow forming an icy crust, or what the natives term "slob," as it struck the sea, made it impossible to use the log to register the steamer's progress against the storm.

The steamship, therefore, was navigated by dead reckoning, and as frequently happens in this region of shifting currents and baffling winds the calculations were off, and the Florizel went the way of other brave ships in this "graveyard of the North Atlantic."

Many of the passengers were swept to death in less than fifteen minutes after the steamer struck the rocks. Dozens of passengers were trapped below decks by cascading seas which filled the saloon.

THIRTY SWEPT AWAY BY GIANT WAVE

Directed by officers and crew who never for a moment forgot the best traditions of the sea in looking after their passengers those who escaped from the saloon sought safety on the bridge deck. Two hours later a giant wall of water thundered upon them, wrenching the structure bodily from its base and engulfing thirty men and women.

A short while later twenty persons clinging desperately to the roof of the smoking room met a similar fate.

The stout construction of the wireless house saved most of the survivors. Thirty-two persons piled into the wireless room, packed so closely they could neither sit nor lie down. They were without food, water or adequate clothing. They were often engulfed by boarding seas. Some of them were badly injured by flying timbers and died as they stood.

MEMBERS OF FAMILIES MEET PITIFUL DEATHS

The pitiful manner in which members of families died one by one was graphically described by survivors. Three-year-old Betsy Munn, daughter of John S. Munn, managing director of the line, was swept overboard before his eyes. The child's nurse had been drowned in her berth. Munn was swept to his death with the group on the bridge deck.

Fred Butler, an architect of this city, who was going to Florida with his wife, was supporting her against the rush of water, when one comber towering above all the others, snatched her from his arms. He was carried along helplessly in the torrent, bringing up in a tangel of wreckage. Bruised and enmeshed, he was unable to extricate himself and perished there.

Unstinted praise was given to bluejackets of the New Foundland Naval Reserve who made up a large part of the volunteer rescuing crews. One of them sacrificed his life, the only one of the rescue fleet to perish.

CHICAGO, Feb. 26.—George Massey, his wife and daughter, of Chicago, were drowned in the wrecking of the steamer Florizel off New Foundland, according to a telegram received today. Their bodies have been recovered.

Massey distinguished himself at the time of the Eastland disaster when, unaided, he saved more than a dozen men and women from drowning.

Massey was a representative of R. B. Boak & Co., wholesale fish merchants of Chicago. With his family he was returning from New Foundland to Chicago.

WASHINGTON, Feb. 26.—E. W. Stevenson of New York was the only American lost on the Red Cross steamship Florizel, according to a report of the American consul at St. John's N. F., to the State Department. Stevenson's name is not among those reported safe.

HAVOC IN STORM

MILWAUKEE, Wis., Feb. 26.—Five persons were injured and property damage which will run into the thousands of dollars resulted from the storm which struck here during the night.

A 35-mile-an-hour gale struck the city suddenly, creating havoc in its path. Store windows were blown in, while telephone and telegraph wires were also seriously damaged.

WANDERLUST IS NO EXCUSE FOR SHIRKING ARMY

BERKELEY, Feb. 26.—"I have been walking around so much I didn't know where to register. I couldn't settle down long enough anywhere to register." This excuse for not registering under the draft law was given today by John Reichert, who was found by the police sleeping in an empty house in West Berkeley.

Reichert, who has done much traveling by foot, may in future indulge in his fondness for walking, bearing a military knapsack instead of a pack and under Uncle Sam's direction instead of his own free will. He blew into town with an older companion also afflicted with the wanderlust. They took up quarters for the night in an empty house, but were routed out by the police and taken to the police station. The other man was liberated, but Reichert was held for the federal authorities, as he had no registration card although within the draft age.

CAFE TOAST, FIGHT, TO BE QUIZ TEXT

George W. Kahler, proprietor of the Faust Cafe, 417 Twelfth street, has been summoned by Commissioner of Public Health and Safety F. F. Jackson, to appear before the city council tomorrow morning at 11 o'clock, and explain the alleged "harboring" of aliens in his place. Joseph Rickard and N. B. Myran, two Americans, who broke up a meeting, during which ten Germans are alleged to have toasted the Kaiser, have been also ordered to attend the hearing.

"We want to find out what is going on around here among enemies of our country," said Commissioner Jackson. "If this place is harboring people of that class it should be put out of business. We will not stand for that sort of thing in Oakland."

Coincidentally with the action of the municipal authorities, it was learned today that the alleged "toast" to the Kaiser was being made the subject of a Federal investigation. Agents of the United States Government are inquiring into the activities of Dr. H. E. Franck, former surgeon of the Central Emergency hospital, and Gus Lindemann, employee of a local wine company, who are alleged to have been active during the melee in which Rickard and Myran put the Germans to flight.

NOTICED PARTY.

According to the story told to the police by Rickard, he and his friend Myran were eating in the place when they noticed a party of ten Germans near them, engaged in drinking and talking. He alleges several toasts were made, among them being one to the Kaiser. Rickard asserts that his wrath came to the surface and he decided to [illegible] though outnumbered five to one.

When the Germans left the cafe, Rickard says he and Myran followed them to the sidewalk. An altercation followed during which Lindemann received two black eyes, Dr. Franck escaped without marks and the rest were put to flight. Lindemann denies the charges of the two men who assaulted and declares that their party was made the target for "hoodlumism" because they spoke German.

DENY CHARGE.

"We did not drink a toast to the Kaiser or any other person," he said today. "We had a few friendly drinks together; most of the party are American citizens of German birth. I alone was a German. As we came out, Rickard cursed us for being Germans and picked a fight. Others on the sidewalk joined in. I wanted to be taken to the police station for an investigation, but the mob jumped us. You know what we can do with a mob. We certainly were not crazy enough to toast the Kaiser in that cafe or any other. I wish the government would make an investigation and give us a chance to tell our story."

BELL IN OFFICE

Harmon Bell today received his formal commission of appointment as food administrator of Oakland from Federal Food Administrator Herbert Hoover in Washington. At the same time Frank J. Edoff was named food administrator for the city of Piedmont. Bell has opened offices for the food administration in the Central National Bank building.

The War Service League will hold a district meeting at the Cole school tonight. Sergeant Blote, who graduated from the Cole school some ten or twelve years ago, will be the chief speaker of the evening.

A district club of the War Service League was organized last night at the Longfellow school with sixty-seven charter members.

ANNA LARSON LOG RETOLD BY MARINER

SAN FRANCISCO, Feb. 26.—The Hindu Ghadr conspiracy prosecution closed today with the testimony of Captain B. H. Schluter of the schooner Anna Larson, which was used as a tender to the steamer Maverick and was to supply the Hindu revolutionists with arms and munitions to be used in the revolution to disrupt British rule in India.

Captain Schluter told [illegible] being employed by Olson & Mahoney, shipowners, and being ordered to San Diego to take command of the Anna Larson, which was then loading her cargo of firearms to be trans-shipped at Soccoro island to the Maverick, and of meeting with M. Martinez, San Diego ship broker, who is alleged to have chartered the schooner for the revolutionists. Details of the voyage and the spectacle of a captain taking orders from a supercargo, in this instance W. H. Page, representative of the German consulate, were also introduced by Schluter, who testified, too, of correspondence which passed between Page and Heinrich Kauffman, former chancellor to German Consul Franz Bopp.

United States Attorney John W. Preston failed to obtain an identification of Bernard Manning by Schluter.

Jodh Singh, who was to have been used as a government witness and then refused to testify and who was recently made the subject of an appeal to President Wilson by the Pacific Coast Hindu Association on charges of ill treatment at the Alameda county jail, was ordered transferred to the Cowdrey Sanitarium in Alameda by Judge Van Fleet, where a better opportunity to observe his mental condition would be had.

Dr. Jay Don Ball of Oakland is in charge of the government alienists who have the Hindu under observation.

The defense will open its case tomorrow with request for an instructed verdict of not guilty against a number of the defendants, including John F. Craig, Franz Bopp, Heinrich Kauffman, Louis D. Hengstler and Joseph Bley. Motions to strike out certain evidence and testimony presented by the government will be argued at this time.

ECCLESTON FIRST VICE-PRESIDENT

J. Y. Eccleston, for many years cashier and secretary of the Oakland Bank of Savings, was elected first vice-president of the bank at a meeting of the directors last evening. Eccleston has been connected with the institution for twenty-five years and is well known in banking and financial circles throughout California and the Pacific Coast. He takes the title formerly held by W. B. Dunning, who entered the government service as cable censor in San Francisco several months ago.

Other changes made in the personnel of the bank force at the meeting of the directorate include the election of A. W. Moore, assistant cashier for many years, to the position of cashier; and that of J. A. Thomson, assistant secretary, to the position of secretary. Moore has been connected with the bank for eighteen years and Thomson for twenty-eight years Both are highly esteemed by their associates in the bank.

Samuel Breck, who retains the rank of assistant cashier, has been placed in charge of the Berkeley branch of the bank as manager.

L. L. Hotchkiss, assistant manager of the Berkeley branch, has been acting manager for several months. He will remain in Berkeley as Breck's chief assistant. Breck is also one of the men who have seen long service in the Oakland Bank of Savings, having been with the institution for the past twenty-eight years.

There were no other changes among the officers. W. W. Garthwaite remaining as head of the bank, and Henr Rogers and W. K. Cole as vice-presidents, with First Vice-President Eccleston.

OBSERVE FEAST OF PURIM TODAY

Local Jewish congregations this week are celebrating the traditional feast of Purim, one of the ancient rites of the church, the holiday being today. Temple Sinai's congregation celebrated principally through social affairs in the religious school. Last Sunday a masquerade ball was given in the afternoon and the coming Sunday will see a dinner and dance to be directed by the Sinai Seniors.

The orthodox Jewish congregation held the traditional services today.

The Feast of Purim is one of the minor festivals of the Jewish faith being based on incidents in the Book of Esther. It is not a religious feast, but is more in the nature of a thanksgiving. There are, however, a few rites, including reading the Book of Esther from a parchment scroll, and several special prayers. The day commemorates the fate of Haman, vizier of Persia, who had planned to exterminate the Jewish race on the day set aside, and on that day instead met his own fate. Following this the Jewish peoples declared it their holiday.

PERMIT CARS TO MAKE STOPS AT SECOND STREETS

For the purpose of aiding in the conservation of electricity, the city council on recommendation of City Engineer Brown, today granted permission to the traction company to inaugurate a "skip-stop" service in the outlying districts.

This system, which means that every other car will stop at every other block, will save one-third of the present stops, the traction company officials say. The action on the part of the [illegible] of the system [illegible] installation.

The new plan will not [illegible] the district within the bounds of Market street, Lake Merritt and Twenuoth street.

WINS HER DIVORCE

SAN FRANCISCO, Feb. 26.—Too much devotion to his work made Charles M. Titus, instructor of mathematics at the State University Farm at Davis, undesirable as a husband, according to Mrs. Bertha D. Titus, 117 Ocean avenue, and her tale of woe obtained an interlocutory decree of divorce from Superior Judge Mogan.

The divorce was granted on the ground of cruelty. Mrs. Titus testified that from the time of their marriage in Los Angeles on August 24, 1912, until their separation in February, 1914, her husband neglected her to pursue his studies and that he was "gruff" toward her. He earns $250 a month, and she asked for $90 a month alimony. Judge Mogan took the alimony plea under advisement.

ATTACH PERSON

SAN FRANCISCO, Feb. 26.—For the first time in years a man's person has been attached for debt in San Francisco. His is H. C. Cutting, president of the Richmond Land and Canal Company. Several weeks ago Cutting was ordered to pay $500 to H. M. Wright, master in chancery, as the result of a suit decided against him. The $500 was to cover the costs and charges, which obligation the master says Cutting ignored.

TELLS CRUELTIES

Mrs. Augusta Naflaly testified before Superior Judge Joseph S. Koford that her husband, Harry Naflaly, failed by reason of his indolence and idleness to support and maintain her. She also alleged that he beat her on one occasion and made her give up $75 her father had given her with which to engage in a little business. She said that he slapped her and humiliated her in the presence of company because she went in bathing at Neptune Beach without his permission. He refused to take her out to any place of amusement, but went himself, staying out till 3 o'clock in the morning, she said. Judge Koford gave her an interlocutory decree and restored her maiden name of Augusta Epstein.

CHURCH BENEFIT

Members of the First Unitarian Church have completed arrangements for a theater party to be given tonight in the Macdonough Theater for the benefit of the church. It is expected that there will be a large attendance, as the young women of the church have been active in arousing interest in the objects of the benefit, which is to further the work of the church along certain lines.

CAPWELLS BASEMENT STORE

Capwells

Clay, Fourteenth and Fifteenth Sts.

The U. S. Food Administration says: "Save Fats"

AND IT ADDS: *"To save does not mean to do without. Use vegetable fats instead of lard and butter in your cooking."*

THAT is the direct appeal of your Government. It calls for no sacrifice on your part.

—*No sacrifice of nutriment* because vegetable fats are rich, wholesome and pure.

—*No sacrifice in economy* because vegetable fats cost less than butter or lard.

The only change you are asked to make is *a slight change in the way you cook*—the shortening you use.

Fortunately, the country has right at hand an abundant supply of nutritious vegetable fats—of which Cottolene is a well-known and dependable example.

The change from lard and butter to vegetable fats is both simple and patriotic. Cottolene meets the needs of wholesome cooking, the requirements of economy, the wishes of the Government.

And what is the reason for the Government requirements? Simply this:

"Pork, ham, bacon, lard, condensed milk and butter can be shipped in concentrated space"—to feed the under-nourished women and children in stricken countries—to feed our own fighting men and the men of our Allies who are fighting in our defense.

* * * * * *

WITH these compelling facts in mind, is it not a clear duty to put patriotism above cooking customs and use the nutritious, economical vegetable fats which nature has abundantly supplied?

Make your kitchen a patriotic kitchen and remember as you cook—every ounce of vegetable fat you use instead of lard and butter may mean saving the life of someone somewhere in the world.

THE N.K. FAIRBANK COMPANY

Cottolene

Patriotic Shortening

TAFT TO ACT FOR CAPITAL AT MEETING

WASHINGTON, Feb. 26.—William Howard Taft was chosen today by representatives of capital as their representative for the public in the joint conferences here between employers and employees to establish a basis of relations during the war. The workers' representatives also will name a man to represent the public.

Taft has wired his acceptance and is expected here tomorrow.

The conferees held their second session today and each side prepared to outline a program.

Tomorrow they will present their views of what they consider should be incorporated in an agreement to last during the war. The agreement, when reached, will be presented to the secretary of labor for approval and will form the basis of a national labor policy.

Representatives of the workers named William Johnson of Washington, president of the Machinists' Union, to take the place of J. A. Franklin, president of the boilermakers, who was appointed today by Director-General McAdoo, assistant director of the railroad administration's labor division. He will assist with Carter, director of the division, in negotiations with shop trades.

BURGLARS CRATE $2500 IN GOODS; ESCAPE

SAN JOSE, Feb. 26.—Burglars entered the store of Roberts & Horwarth at 72 South First street, crated $2500 worth of goods and carted them away in an automobile. The stolen material consisted chiefly of fountain pens, costly cameras, leather wallets and various other goods.

The burglary is believed to have been the work of a couple of men who robbed the C. P. Cunningham store, a few doors away, of more than $1000 worth of clothing less than a month ago. Detectives investigating the Cunningham robbery found that the thieves had obtained lodgings in a rooming house over the store, entered the store through a skylight and then took the goods to their room in suitcases. Later, just before dawn, they called a taxicab and caught the 4:50 train for San Francisco. They were traced into San Francisco. It is believed the goods were disposed of there.

GIVE UP PRISONER

SAN FRANCISCO, Feb. 26. — The military authorities today notified the police that they would turn over to their custody Joseph J. Blaicher, alias John J. Barton, alias Chapin, who posed as the nephew of a New York banker and jewelry merchant, and is alleged to have obtained $8500 by forging the latter's name to checks in New York and Prescott, Ariz.

Blaicher enlisted in the army as a private and cut quite a dash in social circles in Los Angeles, Chicago and other cities while en route here. The police say that the State National Bank of Prescott is anxious to prosecute Blaicher for the passing of a check for $8500 to which the name Barton was signed.

HAGERMANN 'CONFESSION' IS DISPROVED

SACRAMENTO, Feb. 26.—The case of Fritz Hagermann, I. W. W., who confessed to firing the $1,000,000 plant of the Red River Lumber Company at Westwood and to having participated in the I. W. W. sabotage program, was taken before the federal grand jury today.

United States Marshal Mulhall said today that he has evidence indicating Hagermann is insane, which accounts for his confession. He said they have evidence to prove that it would have been a physical impossibility for Hagermann to have fired the Red River Lumber Company's plant.

Mulhall said there is sufficient evidence to indict Hagermann as a dangerous alien and also for failure to register as an enemy alien. This action likely will be taken by the grand jury.

Mulhall, who with P. H. Johnson, assistant United States district attorney, questioned Hagermann in regard to statements he was said to have made, began an investigation today to learn, if possible, a motive for the alleged statements. Federal authorities expressed the belief that other persons Hagermann was said to have named were fictitious.

Pending final disposition of the case, Hagermann, who was brought here yesterday from Susanville, is being detained at the city jail.

NEW LABOR BOARD

SACRAMENTO, Feb. 26.—Appointment of a farm labor committee to co-operate with the State Council of Defense in solving labor problems growing out of the campaign to increase the crop production this year in California, was announced by Governor William D. Stephens. Alden Anderson, banker of Sacramento and a member of the State Council of Defense, was named as chairman. Other members appointed were:

John M. Perry, Stockton; P. F. Cogswell, El Monte; F. B. McKevitt, Sacramento; Wiley M. Griffen, Fresno; P. J. Dreher, Pomona; Roger J. Edwards, Saticoy; A. L. Wisker, Grass Valley; B. F. Bush, Suisun; W. S. Guilford, Willows; C. O. O. Bullis, El Centro; A. R. Bates, Modesto; Albert Lindley, Stockton; A. R. Hennron, Salinas; W. D. Egilbert, Willows, and C. C. Chapman, Fullerton.

REPORT DISEASE

Under new requirements of the Federal health department, Commissioner F. F. Jackson has made the first regular monthly report on the number of diseases dangerous to public health that have been handled in Oakland during the month of January. The report shows the following cases:

Chicken-pox, 35; diphtheria, 9; erysipelas, 2; measles, 32; mumps, 9; poliomyelitis (infantile paralysis), 1; typhoid, 6; tuberculosis, 31; scarlet fever, 26; whooping cough, 41.

ASK LUMBER CARS

SEATTLE, Feb. 26.—Unless the nation car service commission can furnish sufficient cars to move the lumber of Oregon, the plants in that State will be forced to close, according to Frank Gardineer, a lumber manufacturer of Baker, Ore., who presented a requested for relief before the weekly meeting of the local car commission yesterday.

The local commission declared it is unable to give this relief asked and referred the request to the national body at Washington.

ARE SORRY NOW THEY PROTESTED NEW RENT BILL

PORTLAND, Ore., Feb. 26 — Members of the Portland Realty Board are busy explaining today how it was that they sent a telegraphic protest to Washington against the rent profiteering bill, which was considered in the House yesterday. The bill applied only to the District of Columbia, but local real estate men thought it was national in scope. Now they are charged with favoring "charging all that the traffic will bear" and rent-payers are up in arms.

FINDS DREAD CASE

A case of leprosy has been located in Oakland by Dr. P. P. Musser, city bacteriologist, and the patient interned in the leprosorium at the county infirmary. Mrs. Mary Powell, who came here from the Hawaiian islands recently, is the alleged victim. She was found at Third and Madison streets. The case was discovered by Dr. Musser, who has had considerable experience with the disease on the island of Molokai.

RUNS INTO WINDOW

While attempting to dodge an automobile with his motorcycle, George W. Parslow, an ironworker of 101 Webster street, struck the curb at Sixth and Webster streets and was hurled fifteen feet into a plate glass window last night. He was treated at the Emergency hospital for cuts and bruises. The auto was driven by J. W. Pendergast of 540 Santa Clara avenue, Alameda.

To Prevent Grip

When you feel a cold coming on, stop it with a few doses of LAXATIVE BROMO QUININE Tablets, which destroy germs, act as a Tonic and Laxative, and keep the system in condition to throw off attacks of Colds, Grip and Influenza.

After Severe Sickness

Give them Vinol

The Well-known Cod Liver and Iron Tonic, Without Oil

TO MAKE THEM STRONG

Weakness is the one great drawback to health after sickness. It often seems as though strength never would return.

In such cases Vinol is a real blessing. You see it contains the very elements needed to restore good digestion and a healthy appetite, which is quickly followed by rich blood and perfect assimilation of nourishing food, and in a few days one can just feel one's self "building up," and soon as strong as ever. There is nothing like Vinol to create strength for all run-down, nervous conditions, weak, women, overworked men, feeble old people and delicate children.

WE WILL RETURN YOUR MONEY if Vinol fails to benefit you.

THE OWL DRUG CO., OAKLAND, AND OTHER DRUG STORES.

SENTRY'S VICTIM MAY RECOVER

SAN FRANCISCO, Feb. 26.—John Riondozzo, 514 Chestnut street, the fisherman shot through the lung by a Fort Mason sentry, when, with four companions, he ventured in a power launch too close to the army transport Dix and inside the 100-yard forbidden zone, has an even chance for recovery, it was announced today. Vincenzio Garaneoda, another member of the party, wounded in the leg when the same bullet ricochetted, is recovering.

The two wounded men, with three companions, Francisco Piccolo, Frank Riondozzo and Guiseppi Parisi, had been out fishing beyond the heads since early morning. Coming in they hugged the southern shore, according to the statement they made after the shooting, on account of the currents. Their power boat was close in to the transport dock when Private Mark W. Daniels, Sixty-second Coast Artillery, stationed at the Presidio, called to the men to keep off.

The men allege they did not hear the hail, and when they failed to keep out of the danger zone the sentry fired twice. According to army [illegible] boat as a warning. The second was fired directly into the boat, wounding two. As Riondozzo and Garaneoda fell wounded in the bottom of the boat, the other members of the party veered off and made all speed to Fishermen's wharf.

The police were notified and the wounded men rushed to the Emergency hospital. It was at first believed that Riondozzo would die. His wife and children were notified. Later it was announced that he has a chance for recovery. Lieutenant G. A. Barker, in charge of the transport dock guard, said today that the sentry had orders to fire without giving any warning at all on boats coming within the prescribed zone.

YOUNG RUSSIAN IS NOW FAMOUS

Four years ago Scarpioff, the gifted young tenor of Scarpioff and Varvara, at the Orpheum, was a poor immigrant boy. Today he is a successful vaudevillian and well started on the road leading to the heights. The elements that went to make this remarkable transition in scarpioff's life were his ambition and his will to do. a tailor for whom he worked in his early days in this country, and a pair of pants belonging to a music teacher, a customer of the aforesaid tailor.

Scarpioff, as his name implies, is a Russian. He had his first glimpse of the sun in the city of Riga by the gulf of the same name, this event taking place just over twenty years ago. Ever since he began to know anything Scarpioff had a wild, uncontrollable desire to sing. More than anything else he wanted a musical education. He was fierce, passionate, impressive in his longing. But there were no opportunities in Russia for him. What with having to support his parents and the small wage he was earning the outlook for eventual fulfillment of his desire was discouraging.

And then he felt the call of America, the golden land of promise, of which he had heard so much. Not having passage money he shipped before the mast as a deck hand. Upon landing in this country he became a peddler which was the only thing he could do, handicapped as he was by the lack of language, and ignorance of American customs. From peddling he graduated into a tailor's helper and the change seems to have been foreordained for to it he owes, in a way, his present situation.

The tailor was official presser to a music teacher. Enthused with Scarpioff's apparent ability to hit the high tenor spots, the tailor spoke to the music teacher about his helper. The teacher was persuaded to see the boy, and so impressed was he upon seeing him that he began to give him lessons gratis. Shortly afterward some vaudeville people heard Scarpioff sing and took him into the two-a-day where he has been ever since. Almost overnight, as it were, Scarpioff experienced the sensation of sudden success.

This was four years ago. In that quadrennial of time Scarpioff has risen from obscurity.

MOTORIST IS SLAIN

CHEYENNE, Wyo., Feb. 26.—Raymond S. Harrington, of Denver, said to be one of the proprietors of the Twin Auto Livery Company, Denver, died early today from wounds received last night, when he was shot by Colorado State constabulary on the Greeley-Cheyenne road, eighteen miles south of Cheyenne, while irlving a motor car. According to the officers, Harrington declined to stop his car when ordered. The constabulary is said to have orders to halt any motor car from Wyoming into Colorado, because of the recent prevalence of liquor carrying. The coroner here declared no liquor was found in Harrington's car.

Ice Hominy a can 14c

HOME OF MUNSINGWEAR—FOR THE ENTIRE FAMILY

SOCIETY

ANNETTE BRADSHAW, the fashion editor, has her own ideas about negligee. She has pictured the contrast between grandma's conception of it (on the left) and her own. The choice is for you to make.

In a hundred and one different ways are the women of the east bay cities doing their share of the Red Cross work, some in the Red Cross headquarters, some in the Superfluity Shop and others in the various auxiliaries about the bay. At the Superfluity Shop, where Mrs. Bernard Ransome and her assistants preside, a goodly sum running into the hundreds is realized each week from the sale of superfluities and from the salvage department. Not alone is this the way in which the funds are increased for donations are brought each day in valuable pieces of jewelry or antique ornaments. The children of the different schools have collected tin foil which they have brought as their contributions. One interesting contribution consisted of gold nuggets from a Shasta county mine, the same having been taken from the mine four years ago by the owner. In foodstuffs there were donated dozens of cans of string beans.

Again silver toilet articles and various designs of bric-a-brac were a part of a young matron's contribution.

Some of those who have been donors to the shop are Mrs. W. K. Cole, Mrs. F. W. Rounthwaite, Mrs. Graham Ray, Mrs. Frederick Page Cutting, Mrs. Woodruff Garthwaite, Mrs. Jack Wood Mitchell, Mrs. B. F. Westlake, Mrs. F. V. Pickett, Mrs. Elizabeth Chambers, Mrs. J. D. Burdick, Mrs. J. P. H. Dunn, Mrs. David Jones, Mrs. Spencer Browne, Mrs. L. E. Kemper, Mrs. C. V. Hubbs, Mrs. A. S. Pavenson, Miss Marion Ransom, Mrs. Ida Gardiner, Mrs. Edward Prather, Mrs. Charlotte Fisher, Mrs. Clarence Crowell, Mrs. R. Roberts, Mrs. R. Bates, Mrs. F. D. Elwell, Mrs. Parker McConell, Mrs. Richard Ayres, Mrs. H. Cope, Mrs. V. J. Whitney, Mrs. Thomas Watson Cushing, Mrs. F. B. Lyons, Mrs W. R. Tompkins, Mrs. T. Arthur Crellin, Mrs. J. Shaw, Mrs. Charles T. Rodolph and scores of others.

Tomorrow afternoon is the most important day of the week at the Red Cross Superfluity Shop, Broadway and Fifteenth street, as the committee is to dispose of their gramophone, one of the handsomest instruments donated to the cause.

☼ ☼ ☼

A notable wedding in east bay circles took place last Friday at high noon at the E. B. de Rome home in Piedmont when Miss Viola de Rome became the bride of Dr. Ernest Howard Pape of Berkeley. The ceremony was simple, performed by Rev. John Stephens of the First Methodist church of Oakland in the presence of members of the immediate family.

Dr. Pape, who is a graduate of the American School of Osteopathy at Pittsville, Mo., is at present holding a first lieutenant's commission in the medical reserve corps, and is awaiting call to service. Dr. Pape is a brother of G. Louis Pape, prominent in banking circles of this city, and assistant cashier of the First National Bank, Berkeley.

The bride is the daughter of Mrs. E. B. de Rome, and is a graduate of the Oakland high school.

The bride was unattended, while the best man was Dr. Thomas Dodge of Oakland.

At the close of a week's honeymoon the young couple will make their home at the Graystone apartments in Berkeley.

☼ ☼ ☼

The wedding of Miss Helen Frances Zelt, daughter of Mr. and Mrs. Franklin Pierce Zelt, to James Forrest Thomas, both of this city, has just been announced by the bride's family. The affair was attended only by relatives and close friends of the couple. Miss Genevieve Zelt stood with her sister, while the best man was Beverly Polley. Mr. Thomas and his bride will make their home in Washington for the present, but may leave any time for the east where the former has business interests.

Mrs. Thomas is a recent graduate of the University of California. Her husband is an eastern man.

☼ ☼ ☼

A recent engagement of note in the college city is that of Miss Sarah Merritt Pratt, daughter of Mr. and Mrs. Robert J. Pratt of 2804 Benvenue avenue, to Walter Lewis Haney of Makaweli, Kaual, territory of Hawaii.

☼ ☼ ☼

An informal musical followed by a social tea was given on the afternoon of February 21 by Mrs. Olive Reed Cushman for three of her pupils, Mrs. Cardinal Goodwin, soprano; Miss Verne Berry, mezzo soprano, and Mrs. J. Janz, contralto. The accompanists for the affair were Mrs. Buteau and Mrs. Mowbray. The recital is one of a series given by Mrs. Cushman during the winter months, and was attended by a half a hundred guests.

☼ ☼ ☼

Mrs. C. J. Waterhouse is being welcomed home after an absence of two months, which she spent on the Atlantic coast, visiting in Washington, D. C., and in those centers where war is being lent an emphasis above all else. Lieutenant Waterhouse is completing his training near Washington, and it was to be with him before he sailed for France that his mother went east, arriving on Christmas eve. Later she went into Main eand Vermont for brief visits, returning to Washington before again coming west.

Saturday evening Mrs. Waterhouse was hostess at an informal little dancing party in honor of her daughter, Miss Mary Waterhouse, claiming thirty of the school set at the family home.

☼ ☼ ☼

Another affair in honor of a student aviator from the university barracks will be given next Saturday evening by Miss Lydia Fogg of this city for her brother, Arthur Fogg, at the home of her parents. Several members of the school set will assist Miss Fogg in entertaining the men in uniform.

Will Take Off All Excess Fat

Do you know that there is a simple, harmless, effective remedy for overfatness that may be used safely and secretly by any man or woman who is losing the slimness of youth?

There is, and it is none other than the tablet form of the now famous Marmola Prescription, known as Marmola Prescription Tablets. You can well expect a reduction of from two to four pounds a week without dieting or exercising. Marmola Prescription Tablets are sold by all druggists at 75c for a large case, or if you prefer you can order direct from the Marmola Co., 864 Woodward Ave., Detroit, Mich.—Advertisement.

JOHN B. JORDAN, Manager

Knitting Yarns

By EDNA B. KINARD.

Life has but one meaning. It is Pain. It chains her to the couch. It makes the days long hours to be breathed through somehow and the nights dread eternities of fear. The years stretch ahead holding in their prophecy the crucification of the body and the sure abiding place in the shadowed places of the dark Gethsemane. Not only is she a cripple, but even the sight of birds and trees and flowers, of smiles and sun and moon have been snatched from her. In the darkenss she dwells a lonesome spirit, fighting the brave fight and not murmuring.

What can such as she do to serve her country save be valiant and of good courage?

The war came very close to her. The lads who went forth bearing the standard of democracy, pledging that they would not come back until the world was at rest were very near and dear. In the watches of the quiet night she would listen to the steady tramp, tramp of the millions of men and back in her brain she could see some who must go down before the guns and the others who must fight on through their own terrible sufferings. And the heart in her breast, not for her own tragedy but for the sufferings which must come to others.

It was a simple little room where she laid upon her bed. There was no luxury there nor superfluities but it was beautifully neat. It was her mother, the patient, sad eyed, pitiful woman who must watch her daughter go down alone, who kept it so with her toil hardened, labor wearied hands. Together the tow women came close and their confidences and loving talks were the precious things through the hours which came and went and came and went—all just alike.

Then one day the fine, white spirit flamed up. She must have a part to play. She would not be a dull, listless thing when her country needed service and devotion. There was somewhere the thing which even she could do. At last it came—that work for her. Ah, it was not easy. It took patient endeavor. It brought new pains and great fatigue. It spelled sacrifice of the few little dainty things to eat and the new thing of cheap lace and ribbons which she had coveted to wear above her gown. But she was a patriot and she was giving what she owed to her nation and by her frail, weak hands helping to win the war. Some lad would be kept warm and find health in the warmth of that slowly knitted garment. As she felt her way through the maize of the soft threads and fenced her long bones with the loops of clinging yarns, she breathed a prayer, not for herself who was companion to grief, but for him, the stranger, the soldier, the lover of freedom and country.

And thus the first sweater was made.

It was sent a long way off and in that far country a young stranger chap with home hunger in his eyes, slipped from its fastenings a little card. And he read the message, "Fight the good fight." And he fought. And on that day he won his mention, and back to her in the simple little room where she lay upon the bed knitting, knitting, always knitting, came the grateful words, "I thank you."

Kitchen Economies

by Isobel Brands of the Applecroft Experiment Station

There are many dishes highly prized abroad which cost quite little and which the American housewife should learn to make, both because of their economy and real wholesomeness at low cost. For example, the Turkish "pilaf," made either with a foundation of rice, wheat or barley, is a complete meal and most palatable.

TURKISH PILAF.

1 cupful of boiled rice
2 cupfuls of tomato juice
½ cupful of nuts (either almonds, wainuts or peanuts)
1 chopped onion

Do not chop the nuts, but use them, skinned, whole. After the rice has been boiled add the tomato juice, onion and nuts, and simmer for one hour.

RUSSIAN PIROQUE.

Either fresh or leftover meat of any kind may be used for this dish.

2 cupfuls of flour
½ cupful of water
2 tablespoonfuls of butter or other shortening
4 teaspoonfuls of baking powder
½ teaspoonful of salt

Sift the dry ingredients together and cut in the shortening. Add water, but only enough to hold the mixture together. Do not get too moist. Toss on to a floured board and roll thin. Cut into large circles or oblong shapes, as for apple dumplings. Spread some of the chopped meat on each one, fold together. Do not get it too moist. Toss on one on a greased pan. Bake for about 15 or 20 minutes in a quick oven.

When chopped meat is used it is seasoned with salt, pepper, chopped onions, and, if desired, a little chopped celery. However, vegetables may be used instead of meat, and a favorite Russian combination is chopped carrots, turnips and cabbage. Try it some day.

"Doing My Bit"

Practical Suggestions on Individual Ways to Help Win War

By Albert Barrett Sayres

When the average housekeeper adds the knitting of sweaters for the soldiers and sailors to her other work and considers the time it requires to complete even one, she sometimes wonders whether it's the most efficient way to solve the problem. True, the work of the countless sweater knitters has solved one angle of the big task of keeping the men warm, but—asks many a knitter—is the solution the most practical one. Answers have come from every quarter of the compass. They run somewhat this way:

The application of countless hands to one particular work that might well be done by machinery, but for which there aren't enough machines available, does solve the problem to a degree. That there aren't enough hands at work to supply all the sweaters needed doesn't condemn the broad method of solution, only the particular application of that method.

The sweaters are fine aids; the work of the women who are knitting them shows admirable spirit, but they cannot make all the sweaters urgently needed in brief enough time. In many cases the knitting method is at fault because it takes too long.

MAKING WARM WAISTCOATS.

If you aren't good at knitting, and if you know of several "boys" who could be made warm and happy with special waistcoats that you can make in the same time you could knit a sweater why not make those waiscoats and forget the more common sweater?

The tops of long gloves sewed upon a canvas back is one solution. An old fur coat or a discarded muff or scarf cleaned, ripped apart and fashioned into a waistcoat is another way. Pliable leather from furniture or scraps sometimes cast away in manufacturing leather goods and neatly matched into a waistcoat is a third solution. Eiderdown thinly distributed between the upper and the lower layers of a double waistcoat and sewed so there may be no shifting is a fourth answer. A longer list might be given—you can solve your own problem by giving it a little thought in the light of the warm materials you have on hand that a little ingenuity will turn to waistcoat uses.

Nothing that has been said should be construed to mean dissatisfaction with the sweater as a warmth-giver. Too much cannot be said in praise of the wonderful work of the Red Cross.

Revelations of a Wife

by Adele Garrison

(Continued from Yesterday)

"A GOOD NURSE ALWAYS ENFORCES STRICT OBEDIENCE"

"Are you awake, Madge?"

Dicky's voice, almost a whisper, roused me from the delicious half-sleeping, half-waking rest which followed my terrific headache. I turned my head toward the doorway of my room, where he stood hesitating with a look of such tender solicitude in his eyes as made me forget all the problems of our short wedded life.

"Not only awake, but much better, thanks to your nursing," I answered. I rose from my pillow, but Dicky came forward swiftly and putting tender hands on my shoulders gently laid me back again.

"A good nurse always enforces implicit obedience from a patient," he said gayly, "and I haven't discharged you yet."

"But, Dicky," I protested, "I told you that when these headaches finally leave me I am perfectly well again."

"You are not perfectly well until you have eaten a square meal." Dicky's tone was strictly professional. "Are you hungry?"

"Hungry! When one of these headaches finally does leave me, I am perfectly ravenous. That's one reason why I want to get up so I can get something to eat."

"Madam!" Dicky's manner was as ponderous as that of a judge, "when I married you I promised to cherish you in sickness and in health, and I am now going to do as nice a little job of cherishing as any you ever witnessed. That is," he added, "provided you obey as you should that promise to do, only the ministers nowadays don't dare to put it in the service."

He swept the things from the table at the side of my bed so recklessly that I wondered half of them did not drop or break. Then he vanished into the other room, bringing back an immense tray laden with covered dishes which he deposited with a ludicrous air of pride.

"I guess this is not bad," he announced grandly and vanished again. This time his entrance was preceded by the odor which is the most grateful to my nostrils of any in the world, the fragrant aroma of hot coffee.

But when he entered, with the stand upon which I keep the coffee machine in one hand and in the other the apparatus itself tilted most alarmingly, I had to protest.

"Dicky, Dicky, you'll drop that! Do be careful!"

But Dicky promptly squelched me.

"Now, Miss Schoolma'am, don't be so fussy," he admonished. "I prepared this coffee with my own fair hands, after carefully sterilizing the hands. You can be shouting sure I'm not going to spoil the party by spilling any of it."

He put a napkin over his arm in the most approved waiter fashion and bowed low.

"Will madam be served?"

"Madam must bathe her face and hands first," I replied. "Do let me get up, Dicky, and I will be glad enough to come back to bed and eat. That always has been my idea of the lap of luxury, breakfast in bed."

"All right," assented Dicky, "but hurry up, or all the things will be cold."

I slipped out of bed and into my negligee and Japanese sandals, twisted up my hair and hid its disorder under one of my breakfast caps, which I took from a drawer in my chiffonier. I noticed Dick looking mischievously at the drawer, so I was not much surprised at his appearance when I came back from the bathroom with my face glowing from dashing cold water against it, my invariable morning practice. With my prettiest boudoir cap perched rakishly over one ear and a big white apron tied around his waist, he stood at attention like a trained nurse.

"Would you like your temperature taken or your pulse counted?" he inquired solicitously.

"No, thank you, nurse," I returned gravely, settling myself luxuriously against my pillows. "I will eat my breakfast, now, if you please."

Dicky took off the covers with a great flourish.

"Dicky!" I gasped. "You extravagant boy!"

For the daintiest imaginable repast lay before me. Broiled squab, baked potatoes, a salad of asparagus tips, hothouse strawberries and French rolls, all served on silver and china with the hall mark of a fashionable hotel near Dicky's studio.

"We aim to please. It is our motto," said Dicky meekly, as he poured me a cup of coffee.

I grasped the cup eagerly and drained it.

"Oh! Dicky, this is delicious!" I exclaimed. "And you made it yourself? I didn't know you could make coffee."

Dicky bowed extravagantly.

"You do not know what a culinary genius you have married. Wait till you taste some of my chafing dish stunts! But I ought to know how to make coffee. I've watched Nellie often enough, and she is the best coffee maker in all the studios."

My appetite suddenly fled. The tempting dishes no longer appealed to me. I was discovering things about myself which were not palatable. I always have been most critical of petty jealousy in others, and here just the casual mention of a woman's name was spoiling the dainty meal Dicky's loving care had provided for me.

How Fat Folks May Become Slim

GET RID OF TEN TO SIXTY POUNDS

To be excessively fat is very mortifying. People who are too stout are usually sensitive on this subject. Style and fat folks are strangers. Therefore, people who are carrying around a burden of unhealthy and unsightly fat will be glad to know that they may reduce their weight without starvation diet or tiresome exercises.

If you want to become thinner in a simple, safe and reliable way, here is a hint worth trying. Spend some time daily in the open air, and get from the druggist a box of oil of korein capsules; take one after each meal and one before retiring at night. Also follow the other simple directions that come with the box.

Weigh yourself once a week so as to know just how fast you are losing weight, and don't leave off the treatment or even skip a single dose until you are down to normal.

Oil of korein is absolutely harmless, is pleasant to take and costs little. A test size sample, with book, will be mailed free, in a plain envelope, if you write to Korein Company, 356E, "Station F," New York, N. Y.

Even a few days' treatment has been reported to show a noticeable reduction in fat, the flesh firm, the skin smooth and the general health improved.

If you are ten to sixty pounds over normal weight, you should give this treatment a trial. You will likely find it is just what you need.—Advertisement.

RAIN IN SOUTH

LOS ANGELES, Feb. 26.—Rain, falling intermittently yesterday, added 1.21 inches to the seasonal total in the past 24 hours and is continuing. The seasonal rainfall to date was 7.22 inches last night, as against 18.62 inches on the same date last year.

Economy calls for Mazola—Saves Money. Patriotism calls for Mazola—Saves Animal Fats. Better Cooking calls for Mazola—the oil for cooking and salads, pressed from Indian Corn

THE thoughtful, thrifty, patriotic housewife is using Mazola for shortening, sautéing, deep frying and salad dressings because it means better food at less cost, conservation of butter, lard, suet.

Mazola comes from an edible *vegetable* source—Indian Corn—is pure and uniform in quality because its manufacture is an exact science.

The same lot of Mazola can be used many times over, as it does not carry odor or flavor from one food to another.

Could you find any greater factor for *economy?*

And Mazola cooks food quickly—makes it delicate and easy to digest.

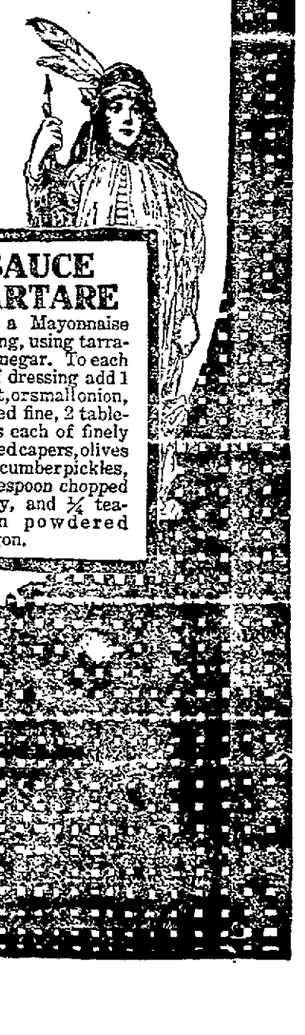

Try it also the next time you want an especially smooth salad dressing.

For sale in pints, quarts, half gallons and gallons.
For greater economy buy the large sizes.

There is a valuable Cook Book for Mazola users. It shows you how to fry, sauté, make dressings and sauces more delicious, make light digestible pastry. Should be in every home. Send for it or ask your grocer. FREE.

SAUCE TARTARE

Make a Mayonnaise dressing, using tarragon vinegar. To each cup of dressing add 1 shallot, or small onion, chopped fine, 2 tablespoons each of finely chopped capers, olives and cucumber pickles, 1 tablespoon chopped parsley, and ¼ teaspoon powdered tarragon.

Clubs

By EDNA B. KINARD.

It is a strange thing that women's clubs are still shying at what they term "politics." There is nowadays not much use for a woman's club unless it is organized to "do" something and having frankly expressed its purpose, to "do" it. The difficulty has seemed up to date to be the inability of the members to discriminate in the sort of "politics" which they must accept. Mr. Daniel Webster, he whose word is not generally disputed, declares that "politics is the art of government or administration of public affairs." But he also says it is "political opinion, party management or control." And even women's clubs which loathe and detest politics as it is expressed in some candidates for election and some modes of gaining control are going to find that if they would do the things which they need do, they must leave the well-worn paths which spurn political contamination and make no secret of affiliating with the politics which is the "art of administrating public affairs."

There is one organization in Alameda county which is closely allied with this new movement which brings women into the big world where history is made and the fate of state sealed. The members are not politicians in the sense that they support or condemn candidates or office-holders. Yet they are distributing an annoying little document which has a real meaning to the future of several men who have represented them. The club has begun on the record which was made in the last session of the legislature. It has without comment presented for perusal the entire story of the actions and votes of those whom the district sent to the assembly and senate. Nor does the survey contain anything save the name, the bills which were proposed and the aye or nay upon it. It is needless to say that this interesting and unpretentious volume will have a direct bearing upon the political future of several officeholders and seekers.

The Child's Welfare League of Alameda county has not entered politics as it is generally understood. Nevertheless, the Child's Welfare League has a practice of sending to men who offer themselves for the legislature the several planks in their annual platform, requesting a written statement as to the candidates' stand thereon. Nor does the reply usually fail. The league, from its black and white record, has a standard for gauging the sincerity of the pre-election promises.

When women come forward, as they will come forward as candidates for the next legislature, these questionnaires will not fail nor will the records cease. The clubs, which have had a vision of the power which may be theirs, are going to see to it that the women particularly who are sent to the halls of the law-makers stand every whit as true as the men and that they have records of which they need not be ashamed.

There has been called an important conference of workers for Saturday morning, when the new program of Americanization, which has been devised by Miss Martha Chickering, chairman of that department under Alameda county woman's committee, Councils of National and State Defense, will be discussed. The great task before the nation today is the absorption of the non-American, and it is to this work in its local application that Miss Chickering has set herself. With Mrs. Frederick Turner, chairman of the county defense body, the outline for the new endeavor has been carefully gone over. Leaders in Americanization work are being assembled for the conference, representing all the agencies, clubs, public and private undertakings which have to do with the newcomer to the shores.

Miss Chickering, who belongs to a pioneer family of Oakland, is widely known as an authority on immigration. She spent the midwinter in the Hawaiian group, going very thoroughly into problems there. The new year found her in New York at an important meeting of leaders. She is at present in the south, preparing to arrive on Friday for the conference.

The members of the executive and advisory board of the woman's section of the Navy League will meet on Thursday afternoon at 2 o'clock in the headquarters in Capwell's Roof Garden. Mrs. Leigh Richmond Smith, the regent, will preside as chairman at the conference, which is called to consider several matters of interest. There is being arranged a series of benefits to swell the free wool fund of the league.

Following the old-fashioned New England dinner which the Home Club is offering the women who have given themselves to Red Cross on Thursday, and the men who will come directly from business, there will be a delightful farce, "The Winning Back of a Husband," presented by Mrs. E. T. Heald and Mrs. F. S. Samuels. Music will be offered by Mr. and Mrs. J. S. Mills and Mrs. E. J. Jolly. The merry-making will be rounded out with an informal dance.

The Home Club is giving up the regular program to an all-day festivity, combining Red Cross service with the usual entertainment.

The women affiliated with the Melrose Civic center are going to see what they can do about the fumes which arise from the chemical plant at the foot of Fiftieth avenue to make anything but a rose garden of their pure air. They have appointed a committee to investigate the whys and wherefores of the disagreeable odor this afternoon, and later will take up the matter with the department on public health and safety. The civic workers have discovered that the fumes may find an outlet through the ground instead of through the air and will so suggest. Mrs. A. C. Christensen, president of the center, is chairman of the investigating committee. Melrose club is also concerning itself with the sanitary conditions surrounding the women who work in the cotton mills and is asking a report on the matter before any definite action is taken.

Mrs. P. F. McKibben is opening her Sixty-fifth-avenue home tomorrow afternoon to the members of the Red Cross section of the Walter T. Frick Parent-Teacher Association, planning a busy day of service for the patriotic seamstresses. Mrs. Ida M. Swoford has been named chairman of this department, with an ambitious program of war work outlined for the mothers and teachers in the Frick school.

That they may do their full part by the West Oakland Day Nursery, the Emerson School Mothers' Club is giving a benefit tea tomorrow afternoon, Mrs. F. H. Getchell opening her home for the informal affair. With a school made up largely of children of foreign parents, there remains but few over 100 of the 1000 pupils who are not affiliated with the Junior Red Cross. The Mothers' Club will appoint to themselves the duty of providing that each student is a member. At the meeting last week Mrs. C. R. Reilly, president of the Second district, California Congress of Mothers, was the speaker, the club celebrating Founders' day.

Winifred Black Writes about "Other Women Are Jealous"

"I don't care much for women," said the woman in the black dress with the yellow trimmings, "they're so jealous."

All the men in the room laughed, and all the women pretended to laugh—and the woman who didn't like other women felt herself to be very clever and fascinating, and dangerous and worldly wise, and, oh, so alluring.

Of course she was charming, or the other women wouldn't all be jealous of her. You could see that the men thought that—at least some of them did.

But there was one man, middle-aged, distinguished and more than usually clever. He laughed when the woman said that, but somehow I got the impression that he wasn't laughing with her, but at her, and, dear me, what a difference that does make!

He has a wife of his own, I happen to know. She wasn't able to be with him that evening. How she would have smiled across the coffee cups into her husband's eyes when the "fascinating" woman said, "Other women are always jealous of me."

The man's wife is beautiful and fascinating, too, but no one is ever jealous of her, or if they are she doesn't know it.

She's never jealous of any one else either. She's too busy helping them, and giving them chances to help themselves, and admiring them and praising them, and appreciating them and loving them.

Jealous! I don't believe she knows the meaning of the word.

THE OLD WORN-OUT WEAPON

They say that before he met her the distinguished man was rather admired by women, and had many sentimental affairs. Perhaps that's the reason his smile had such a hint of mischief in it the other night over the coffee.

He must have heard that little sentiment expressed so often and so often and so often.

And always with the same perfectly apparent purpose—to make men think the speaker was so absolutely irresistible that all other women turned green with envy at the very mention of her name.

There was a young fellow there who smiled satirically, too. He has a mother and a sister, and he knows they are the most loyal, devoted creatures to each other and to their women friends that ever existed.

What a pity it is for a woman in this age of the world to take that old harem attitude, for that's just where this "other women are so jealous" attitude came from—the harem.

Can't you hear Zuleika telling the Protector of the Poor that she's so glad he gave her the pearls yesterday? They were such a comfort to her when the other women in the zenana were so devoured by envy of his attention.

And can't you see the Protector of the Poor and the Brother of the Sun expanding gloriously under the flattery of it?

Poor little Zuleika! I don't blame her much for saying anything. Life in a harem must be such a frightful bore. And then it was the only way she had to get the pearls.

Jealous? Women jealous of each other? Well, so they are, to tell the plain truth, and they're jealous of men, too. But don't think, or, sweet student of human nature, that jealousy is essentially a feminine trait.

Men are also jealous of each other—jealous in love, jealous in war, jealous in business. Tell one piano player that another musical genius is an inspiration, and watch the piano player turn green.

OUT OF THE FASHION.

Mention to Romeo that you think Mercutio is rather good looking himself, and observe Romeo's enthusiasm for Mercutio turn cold.

Tell the best insurance man you know what wonderful work some one from another town does in his own particular field, and you'll have to put on all your furs to keep from getting a severe chill.

Ask any woman who's ever worked in a downtown office what she thinks about men being jealous of each other. Take a day when you have plenty of time. You'll need it if you listen to one-half of what she'll start to tell you.

I'm sorry for the woman who doesn't like other women. There's something wrong with her, just as there's something wrong with a man who doesn't like other men.

ARREST SALESMAN

SAN FRANCISCO, Feb. 26.—George Bell, city salesman, employed by the Willard Storage Battery Company, and residing with his foster-father, T. Mosco, 2035 Forty-seventh street, Oakland, was arrested late yesterday afternoon by William Hink, a grocery-man, at Clay and Larkin streets, on a charge of attempting fraud by trick and device.

Bell, who is 28, gained access to an apartment at 1534 Clay street, it is alleged and using the name of Mrs. L. Goldstein called at the Hink grocery and ordered eggs and butter asking that the delivery boy bring change for $10. Hink became suspicious and delivered the order himself. Bell was captured after a running chase and taken to the Bush-street station, where he confessed.

NEW LITERATURE

Literature printed in any foreign language except the languages of Germany and her allies, is desired for use in the United States army, camps, and an appeal has been issued by the American Association for the Education of Foreign-Born Soldiers in the United States Army. All contributions should be sent to the nearest army camp and in care of the educational secretary of the Y. M. C. A.

In issuing the call, Miss Rose Szewo, secretary of the association, says: "Thousands of our young soldiers cannot read a word of English. Few realize the great number of foreign-speaking soldiers in our new army. At one cantonment alone there are near 7500 foreign-born soldiers, comprising 46 different nationalities.

"These boys are all loyal Americans, learning to fight for our country. They need good reading matter. Send all your books, newspapers and magazines to the educational secretary of the Y. M. C. A. at the camp or cantonment nearest to your home. It is not necessary that new literature be sent. Any reading matter printed in a foreign language is welcome.

"The association plans not only to furnish reading matter to these men, but to promote their welfare in every possible way. Classes in English are being carried on in all the cantonments under the direction of the Y. M. C. A. The movement has been heartily endorsed by high army officials."

MASON WILL COME

Fred Mason, president of the Shredded Wheat Company of Niagara Falls, N. Y., also president of the Pacific Coast Shredded Wheat Company in Oakland, is due to arrive tomorrow morning. Mason is making a trip in which business and pleasure are combined and is accompanied by his wife and son.

BOYLE PROTESTS

Protest by Director Harry L. Boyle against the passage of a claim for $35 for expenses of operating an automobile belonging to Secretary Dan W. Pratt of the Board of Education, made for the third time, failed at the meeting of the board last evening. Boyle contends that the board should not pay for the upkeep of a private car. The matter was presented to the district attorney several months ago and passed upon to the satisfaction of the board.

You Get Better Cough Syrup by Making it at Home

What's more, you save about $2 by it. Easily made and costs little.

You'll never really know what a fine cough syrup you can make until you prepare this famous home-made remedy. You not only save $2 as compared with the ready-made kind, but you will also have a more effective and dependable remedy in every way. It overcomes the usual coughs, throat and chest colds in 24 hours—relieves even whooping cough quickly.

Get 2½ ounces of Pinex (60 cents worth) from any good drug store, pour it into a pint bottle and fill the bottle with plain granulated sugar syrup. Here you have a full pint—a family supply—of the most effective cough syrup that money can buy—at a cost of only 65 cents or less. It never spoils.

The prompt and positive results given by this pleasant tasting cough syrup have caused it to be used in more homes than any other remedy. It quickly loosens a dry, hoarse or tight cough, heals the inflamed membranes that line the throat and bronchial tubes, and relief comes almost immediately. Splendid for throat tickle, hoarseness, bronchitis, croup and bronchial asthma.

Pinex is a highly concentrated compound of genuine Norway pine extract, and has been used for generations for throat and chest ailments.

Avoid disappointment by asking your druggist for "2½ ounces of Pinex" with full directions, and don't accept anything else. A guarantee of absolute satisfaction or money promptly refunded, goes with this preparation. The Pinex Co., Ft. Wayne, Ind.

Don't Let Soap Spoil Your Hair

When you wash your hair, be careful what you use. Most soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is just plain mulsified cocoanut oil, for this is pure and entirely greaseless. It's very cheap, and beats the most expensive soaps or anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months.

Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.—Advertisement.

PAPE'S DIAPEPSIN FOR INDIGESTION OR BAD STOMACH

Relieves Sourness, Gas, Heartburn, Dyspepsia in Five Minutes.

Sour, gassy, upset stomach, indigestion, heartburn, dyspepsia; when the food you eat ferments into gases and upsets you; your head aches and you feel sick and miserable, that's when you realize the wonderful acid neutralizing power of Pape's Diapepsin. It makes all such stomach misery, due to acidity, vanish in five minutes.

If your stomach is in a continuous revolt—if you can't get it regulated, please, for your sake, try Pape's Diapepsin. It's so needless to have an acid stomach—make your next meal a favorite food meal, then take a little Diapepsin. There will not be any distress—eat without fear. It's because Pape's Diapepsin "really does" sweeten out-of-order stomachs that gives it its millions of sales annually.

Get a large fifty-cent case of Pape's Diapepsin from any drug store. It is the quickest, surest antacid and stomach relief known. It acts almost like magic—it is a scientific, harmless and pleasant stomach preparation which truly belongs in every home.—Advertisement.

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. They are the result of Dr. Edwards's determination not to treat liver and bowel complaints with calomel. His efforts to banish it brought out these little olive-colored tablets.

The pleasant little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel, but to let Dr. Edwards' Olive Tablets take its place.

Most headaches, "dullness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "loggy" and "heavy." Note how they "clear" clouded brain and how they "perk up" the spirits. 10c and 25c a box. All druggists.

BAKER FALLS DEAD

Funeral services will be held tomorrow morning at 10 o'clock from the undertaking chapel of Grant Miller, 2372 East Fourteenth street, for Leonard Wade, 65, former owner of the Log Cabin bakery and early Oakland baker, who dropped dead at Thirteenth street and Broadway yesterday while waiting for a car. Wade has been an inmate of the Home for the Aged for the past six years. Funeral arrangements were made by Mrs. Alice Peterson, with whom he made his home at 5436 Manila avenue, for many years. He was a native of Wisconsin.

TUESDAY, FEBRUARY 26, 1918.

THE FATE OF RUSSIA.

Frequent comment has been made in these columns upon the moral aspects of the betrayal of the Russian people and their allies by Lenine and Trotsky in the made-in-Germany peace farce recently staged at Brest-Litovsk. The methods by which the people of Russia and the mighty initial success of their revolution against the Romanoff autocracy were sold out to the criminal autocracy of Germany have been patent since these two men seized governmental powers in Petrograd. The noble groundwork of a great democracy, created after centuries of oppressive exploitation of the great commonality of Russia, has been turned to ashes and poured upon the heads of the ignorant and impotent people.

The fall of idealism, of advanced conceptions of human rights and human welfare, will reverberate throughout history. Over nearly half the population of Russia today, only a few weeks after the overthrow of czarism, is brandished the drawn sword of Germany threatening the life of anyone who even laments the fall. Traitors of less than ordinary ability and with unsavory records were able to bring such a situation about.

But it remained for Germany to describe officially the enormity of the material things Lenine and Trotsky have handed over to her. Nearly 50,000,000 people in 400,000 square miles of territory are to become vassals of the Hohenzollerns until some other power frees them. The remainder of Russia is to lie at the mercy of Germany for commercial and industrial opportunity, for cultural and spiritual evolution. It is a dismal fate for any people. For a people that but yesterday was the largest republic in the world, in point of territory and population, it is inexpressible disaster.

One ray of hope lies in the fact that the peoples of other nations realize how Russia has been dealt with. There is a popular distinction between the German intrigue that operated under the mask of Bolshevism and the plain, liberty-loving people of Russia. One of the objects of the war henceforth will be to rescue these betrayed masses from the pro-German plotters and the German military masters and restore them their land and their rights.

The world can never be safe for democracy until every foot of Russian territory is restored to the Russian people and Poland has attained an independent status. This is the pledge of the American government, through President Wilson's statement of peace conditions, and of the British and French governments. Democracy will not be safe for the world until it accomplishes this feat. If it fails all free nations will stand in perpetual fear and trembling.

LICENSING OF EXPORTS.

In ordering that foreign commerce be put under the strict supervision of the War Trade Board and controlled by a system of licenses, President Wilson has taken a necessary step to make the greatest possible use of available merchant shipping for the transportation of men and supplies to Europe. It will appear as drastic to some persons, and it is drastic, but something was necessary to give more transportation facilities to the operation of the army, and complaint is as inappropriate as it would be ineffectual.

The War Trade Board licensing will also enable the government to maintain a wholly adequate control over the trade with neutrals. This, it must never be forgotten, is an important factor in winning the war. Neutral countries, so-called, contiguous to the Central powers, should not be allowed to receive from the Allies any product that they resell to the enemy, nor any articles of food or material used as a substitute for native products furnished the enemy, nor manufactured products which might be prepared within their own territories by operators and workmen engaged in producing material for export to the enemy.

It is the inescapable duty of the government to see to it that no material and no effort of the people of the United States accrues to the advantage of the enemy against whom the soldiers of the United States are fighting. Neutral nations who do not "put their house in order" to serve this paramount condition of the Allies may not reasonably complain if they are denied supplies from the Allied countries. Neither can any patriotic American citizen complain against restrictions upon his business when they are imposed with a view to bringing about the defeat of the enemy.

ARE THEY FEEDING WHEAT TO HOGS?

A subscriber of THE TRIBUNE at Auburn, California, writes in to protest, with a lot more "punch" than elegance, that the use of barley as a wheat flour substitute in bread has boosted the price of barley until it is more costly than wheat, with the result that some farmers are selling their barley and feeding their wheat to the hogs. Barley is highly esteemed as hog feed. It is greatly preferred to wheat for that purpose. The Auburnite is of the opinion that if hogs must be fed either on barley or wheat, it is better to reserve the hog feed for the hogs and the wheat for those who have been accustomed to eat it.

THE TRIBUNE knows of no authenticated case of farmers and stockmen feeding wheat to animals, though many charges have been made that such is the practice. It would be a lamentable diversion of the purpose of the federal food administration in ordering conservation of wheat for human consumption if wheat was fed to livestock. To do so would be to commit an overt act in obstructing the military activities of the government and punishable under the treason and espionage acts.

An investigation to ascertain whether the reports of wasting wheat are true, or whether they are the work of enemy agents, would not be inappropriate. Prompt action to prevent the barley producers and dealers from doing violence to the law of productive costs and reasonable profits might also be timely.

SAILORS MUST SING.

Desiring to omit nothing to make the seamen on the sailing vessels of the new American merchant marine equal to the sailor of the clipper days of a half century ago, the United States Shipping Board has engaged a chanty man to teach the old songs to the new men studying in training schools to follow the sea. They were a beloved and highly useful institution of the old days of sailing fleets. What old salt has ever hunted up a sail when it was being furled except to the rhythmic:

To my way-a-y-ay
Ah we'll pay Paddy Doyle for his boots.

Pulling wet ropes or piling frozen chains is much easier when the chanty man starts off with the opening line of a favorite and the crew carries the melody through alternate lines. None of the old packet school sailors ever worked a windlass preparatory to leaving a port without breaking into the cheering anchor song which starts:

Come all you young fellows that follow the sea,—
or,

Oh! don't you hear our old man say
We're homeward bound this very day.

The official chanty man of the new government fleet-to-be is Mr. Stanton H. King. He went to sea thirty-eight years ago but retired to open the Sailors' Haven in Charleston, Mass. Besides being a sky pilot he is the author of a number of sea stories and knows all the old chantys. But the revival of the working songs of the old sailors will be of denatured quality under Mr. King's efforts. The richer specimens of sailor folk-lore obviously will not be resurrected. This is to be expected however, what with the elimination of "crimping" and rum, protective laws and the supervision of social conditions ashore to keep the sailorman from harm.

At the request of Secretary of the Treasury McAdoo, the Boy Scouts of America are going to help sell war savings certificates and thrift stamps. They will be messengers of the government in making direct request upon the individual to buy a certificate or stamp. The watchword of the scouts will be "Every Scout to Save a Soldier." This is a good thought for those who are not Boy Scouts and who are not able to buy a fifty-dollar Liberty Bond: "I will help to save a soldier." It is not necessary to await the Boy Scout campaign to put this idea into practice. Letter carriers and banks, postoffices and numerous other agencies are nearby with certificates and stamps to sell.

Here is a committee of savants in Constantinople gravely nominating Lenine for the Nobel peace prize. Lenine, whose ineffable folly has prolonged the war, no one can tell how many years! If the German government has not corrupted and subsidized the Turkish professors, as it did the ninety German intellectuals who solemnly signed a declaration that the Prussian military authorities had not harmed a single Belgian, the Turk is a true humorist. But at present the suspicion that he is merely a puppet of *Kultur* is well-founded.

NEW TIME ON EASTER.

The daylight saving bill as reported to the House provides that the clock shall be set ahead one hour on the last Sunday of March and not set back until the last Sunday of October. When this measure passed the Senate the changes were to be made in April and September respectively. Consequently the House proposes two months more of daylight saving than the Senate contemplated. The last Sunday of March this year is Easter, and the sun rises on that day at 5:46 o'clock.

It is the hope of the managers of the bill that the House will act on it this week or at the latest next week. There is no opposition to the measure and there should be no difficulty in obtaining consideration for it. It is important that it should be adopted at as early a date as possible in order that its purpose may be made known in all parts of the country. The impending change in clock time should be thoroughly advertised not only by the government but by private corporations. The government is peculiarly well equipped to carry the news to remote districts through the Postoffice Department, the Weather Bureau and the railroads, and as soon as the President signs the bill the new rule should be promulgated for the information of all.

So important is it that the law should be put on the books immediately that the House might well adopt a special rule for prompt consideration of the bill and under this rule limit the time to be occupied by amateur astronomers in debate.—New York Sun.

NOTES and COMMENT

The corner in bags, or whatever it is that boosts their price to 23 cents, is resulting in a revolution in the method of handling grain in California. The elevator system is being introduced, which will do away with sacking, which has always been California's way of handling its grain product.

* * *

It is said to be a great disappointment to the Kaiser that the laboring hosts of the United States do not perform in a manner to distinctly help the Hun cause. Assurances were sent to Hunland that they would. There were other misapprehensions as to the patriotic character of the American people.

* * *

Our Filipino wards have developed a most commendable patriotism. They are to build two naval vessels for the United States and have expressed a willingness to send 25,000 troops to the battle front. Arguing well for our treatment of these people, who at the outset were in doubt as to our intent.

* * *

Three years have elapsed since the Panama-Pacific International Exposition was opened. They have been the most eventful three years since a record was kept of the earth's happenings.

* * *

Bakers will now have a chance to exercise their genius. All bread must contain at least 20 per cent of wheat substitutes. The chance will come in formulating the best loaf under such limitation.

* * *

The necessity of increasing the price of wheat is becoming more and more apparent, as that grain is now restricted to a price below that which barley brings and thus becomes the most economical chicken feed.

* * *

The course as to Hagerman would seem to be plain. First, the verification of his confession as to being one of a gang who was inspired by Hun gold to do such things as poison cattle and set fire to lumber yards, and then—well, it is seldom done in this country, but it certainly is coming to be necessary.

* * *

The federal brigade has been rather unceremoniously bundled aboard the Heney bandwagon, but there are a number of evidences that a good many of them are not enjoying the ride.

* * *

The chance has become so open in the gubernatorial sweepstakes that entries that were debatable are now pretty well encouraged to enroll, and some others which were not figured are likely to come in. As it now looks there will be a hot time up and down the state prior to the primary elimination contest.

* * *

James W. Gerard, former ambassador at Berlin, who has written a book about the Hun in his lair, has been seriously ill, though not as ill as the Kaiser might like to hear. He was on the mend at last accounts.

* * *

News from Washington is to the effect that the National German-American Alliance worked against the nomination of both Wilson and Roosevelt in 1916. That may be interesting, but it is ancient history. This country is engaged in a grapple with the German thing over there and is willing to defer consideration of past happenings over here till the larger task shall have been completed. What the German Alliance has done and is doing to defeat America in a war against an enemy is the thing to be weighed.

* * *

The practice of girls marrying soldiers for the possible insurance and pension has become such an industry that camp commanders have had to take the matter in hand. It is a new and unprecedented trend of the younger female.

SPIRIT OF THE STATE PRESS

Some of the high school girls are parading around town wearing various pieces of army insignia. One who got on a street car the other day wore on her coat a pair of crossed rifles with "24th Inf." between them. "Where did you get that?" asked a young lieutenant, who met the girl. "Oh, a friend of mine in the regiment gave it to me,' said the girl with a proud smile. And he didn't have the nerve to tell her that the Twenty-fourth Infantry is a negro regiment.—San Diego Union.

The official price of clean pink beans has been fixed at 8 cents per pound. As that is a little more than double the price in times of peace, producers ought to be satisfied. In fact, many things have been doubled in price, including some wages, but the quite universal friction comes from the fact that the movement has not been entirely uniform, as any housewife can testify. — Stockton Record.

The largest albacore ever taken on rod and reel was the valentine received by Elija Pringle of Tuxedo Park, New York, on the 14th inst., after a heavy tackle battle lasting twenty-nine minutes. The fish was a beautiful specimen and weighed 81 pounds. It has been mounted and will be sent to New York. Although Pringle has had considerable experience as a Florida tarpon fisherman, he is of the opinion that a big albacore is "no slouch of a scrapper" when fought on one of the old-style fishing outfits.—Avalon Islander.

TODAY 20 YEARS AGO

The million-dollar tobacco plant of the Duke Company was destroyed by fire at Louisville, Ky., on this day.

A reporter found Professor Elisha Gray, inventor of the telephone, dying in poverty in the east.

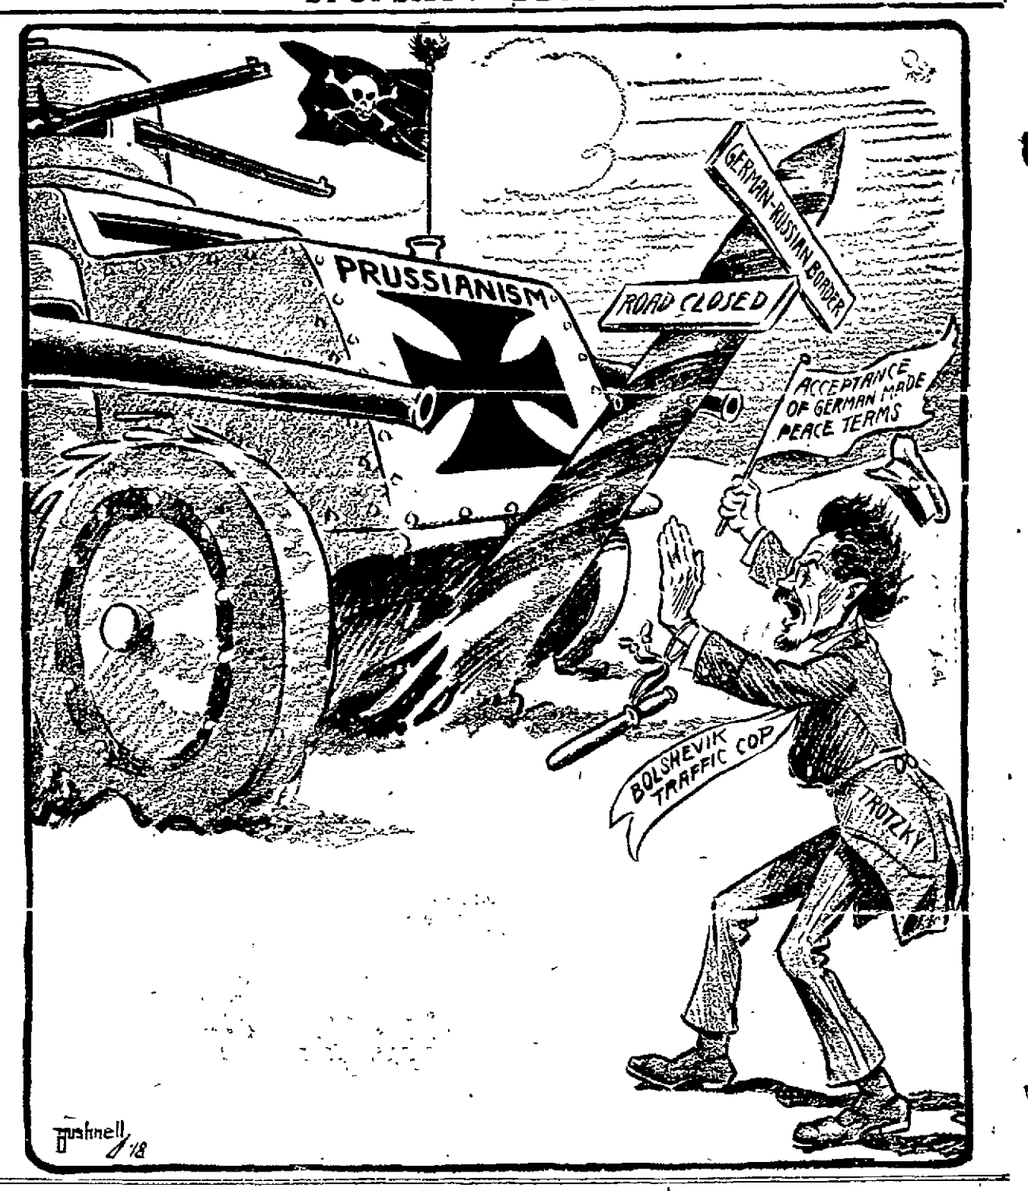

The Wilcox block at Ninth and Broadway sold through W. J. Dingee for $150,000.

The island of Monserrat was wrecked by an earthquake, more than 10,000 persons being rendered homeless.

Klondike miners telegraphed to Washington that $15,000,000 in gold dust was awaiting the establishment of a government assay office.

Volunteer regiments start recruiting all over the United States in anticipation of a war with Spain.

THE FORUM

The Editor of The Tribune disclaims responsibility for opinions and statements expressed in this column. Brief contributions on current topics of general interest are welcome. They will not as a rule be printed unless accompanied by the name of the writer, which, if desired, will be withheld from publication.

ONE ITEM OF COST.

To the Editor of The Tribune:

The most effective way to give the people of Oakland and vicinity cheaper fish is to abolish the peddler's license. In Oakland the license fee peddling fish is $60 a year, and the same is true of meat, vegetables, fruit and provisions. In Alameda and Berkeley the license fee is $50 a year; in Emeryville $20 a year, and in San Francisco $24 a year, all payable quarterly in advance. These licenses are not recognized outside of the city where they are issued, so that a man who peddles in all of the east bay cities must first provide himself with a license from each place, and any violation of the law is punishable by fine and imprisonment. A man with an Oakland license might step across the street into Berkeley to sell a bunch of carrots and be liable to arrest if he failed to have a Berkeley license.

No more effective way could be adopted to suppress the sale of an article than such prohibitive taxes. A dog license is imposed for the avowed purpose of preventing dogs from running at large because they are a nuisance, but fish and vegetables are not nuisances. On the contrary they are very desirable food, very much needed at times, and never can become too plentiful. Their sale should be made as free from restriction as possible and license provisions which effect other businesses should not apply to them.

In Oakland, however, the license fee for peddling fish and vegetables is relatively higher than on other business, as the following list will show, all being yearly rates: Real estate, $20 to $40; laundry, $12 to $40; auctioneer, $75; advertising, $40; hotel, $12 to $50; restaurant, $20; moving pictures, 50 to $100; theaters, $150; undertakers, $20; gasoline station, $30; news stands, $40; milk, $8 to $48; fish, vegetables, fruit and provisions, $60.

P. Y. ALBRIGHT.

Oakland, January 21.

FLAG LAW.

Sec. 31C. Penal Code—Desecration, Mutilation or Improper Use of the Flag of the United States of America.

That any person, firm or corporation, who, in any manner, for exhibition or display, puts, places, or causes to be placed, an inscription, picture, device, design, symbol, name, advertisement, word, letter, character, mark or notice of any kind whatsoever, upon any flag of the United States, or ensign evidently purporting to be such flag, or in any manneor appends, annexes or affixes to any such flag any inscription, picture, device, symbol, name, advertisement, word, letter, character, mark, or notice whatsoever or who displays or exhibits, or causes to be displayed or exhibited, any flag of the United States or ensign purporting to be such flag, upon which is put, attached, annexed, affixed or placed in any manner any inscription, picture, design, device, symbol, name, advertisement, word, letter, mark or notice whatsoever, or who mutilates, tramples upon, or otherwise defaces or defiles any such flag, whether said flag be public or private property, or who places or causes to be placed on any manufactured or prepared article or covering of said article, such flag, or indication of such flag, who uses or causes to be used for purposes of a commercial or other trade mark, such flag or indication of such flag, shall be fined not more than two hundred dollars or imprisoned not more than one year, or both, for each and every offense, in the county jail of the county in which the trial is held; provided, however, that flags or ensigns, the property of and used in the service of the United States, or any state, territory or District of Columbia, may have inscriptions, names of actions, battles, skirmishes, or words, marks, symbols, which are placed thereon pursuant to law or authorized regulations; provided, further, that this act shall not apply to banners or flags carried by military or patriotic organizations existing under the laws of the United States of America and the State of California, or to flags used in theatrical performances, or to flags carried by political parties or organizations, in parades, or in public meetings. (In effect sixty days from and after March 1, 1909.)

Softening the Blow

If we are to have an "eatless day" break it to us gently. We suggest that the first one be camouflaged by allowing to be served two dishes recently mentioned in this column, viz., parsnip chowder and eggs fried in castor oil.—Foston Transcript.

Minutes Cut to Seconds by Labor-Saving Devices in New Tribune Building

SPEED AND ACCURACY COMBINED

Metal furniture, consisting of receiving table, cases, moving tables, pneumatic pressure steam tables and other equipment, is expected to arrive this week for the composing room of the new TRIBUNE building at Thirteenth and Franklin streets. The composing room occupies the entire third floor of the new building, the editorial department occupying the floor immediately above and so being in quick touch with the mechanical department.

The new equipment was designed for The TRIBUNE by specialists to give the mechanical department the benefit of the latest and most modern devices to save labor and time. Minutes have been reduced to seconds in some of the operations by improved adjustments on apparatus that has been long standardized.

Every possible convenience has been provided for the men, either to lighten labor or to save time

In the stereotyping department there will be a full set of new steam tables and a new matrix rolling machine of the most approved type. Steam tables and matrix rolling machine are arranged so as to facilitate the speedy handling of forms and matrices

SPEEDS UP WORK.

This equipment will make possible quicker and better work, and a finer molded impression in handling dry matrix work. The improved matrix rolling machine is so equipped that there is ease of adjustment of pressure on the matrix, thus giving complete control to the stereotypers in their work

The type forms are carried on moving tables, or "turtles," to the rolling machine, where the matrix is rolled, driving the type face against the matrix surface and making a perfect impression in the wet composition. The rolling machine is in direct line with the steam drying tables, of which there will be four. A steel apron, level, runs along the front of the four steam tables directly from the rolling machine, thus making it possible to slide the form and matrix out of the rolling machine and along the apron to any one of the four steam drying tables.

OF PNEUMATIC TYPE.

These tables, instead of being worked by hand as in the average newspaper office, are of the pneumatic type, the pressure during the drying process being applied to the matrix and form by compressed air, giving an average pressure of 90 pounds to the square inch, evenly applied.

The pneumatic feature relieves the mechanics of the work of tugging at the wheel by which the older-fashioned press on the steam table was crewed down to apply the pressure. Slight movements on control levers apply the air pressure, the platen is raised and the steam for drying the matrix applied. A similar lever releases the air and the platen drops away.

The matrix is then ready for the hot metal, and the plates to be clamped on the cylinders in the new TRIBUNE press are speedily made and dropped by an automatic plate elevator to the press room three floors below in the basement.

Finishing of woodwork is under way this week and will be completed in a week or ten days. The marble work in the main entrance and business office has been set in place and only the finishing and minor details of this remain yet to be carried out

Furniture for the editorial department, specially built to meet the needs of the copy desk of five men, the city and telegraph editors and others in the department, is being made ready, and will be installed as soon as the battleship linoleum has been laid. Lockers and other conveniences for the editorial staff are also being installed this week.

MABEL NORMAND, who will be seen at the American in "Dodging a Million," the last half of this week, commencing Tomorrow.

After an absence of several months from the screen, Mabel Normand, one of America's most beautiful and popular film stars, will make her first appearance at the American commencing tomorrow in "Dodging a Million," by Edgar Selwyn. This event also marks Miss Normand's first appearance in a six-act feature production, her efforts heretofore having been confined to two-reel comedies. "Dodging a Million" gives the charming young star opportunity to show every phase of her remarkable acting ability. It is not a Mabel Normand in rags that is presented, but a Mabel Normand decked in beautiful gowns and jewels and in a story of love, laughter and mystery.

On the same bill Tom Mix will be seen in his first feature film, "Cupid's Round-up," said to be a production filled with life and action.

Girl Socialist Is Expelled; Probe of 'Reds' Is Ordered

SAN FRANCISCO, Feb. 26.—The San Francisco Board of Education today adopted a resolution expelling by unanimous vote Hazel Stewart, 16-year-old student of the girls' high school, who was suspended by Superintendent Alfred Roncovieri upon her refusal to salute the flag. A second resolution directing Superintendent Roncovieri to investigate the organization of young radicalists and socialists, especially in the high schools, revealed by the statements made by Miss Stewart and her mother, were also adopted.

Neither the girl nor her mother was present in spite of the statement made last night that she would appear before the board today and demand that the girl be reinstated. She was represented, however, by Mrs. Lillian Bishop Symes, Socialist candidate for supervisor at the last election.

The committee on public schools filed, for investigation by the grand jury, a statement denouncing "well-known anarchists and their endeavors to spread their doctrine among the very young and urging drastic measures to root all forms of disloyalty in the schools."

What is doing TO-NIGHT.

Allendale Central Improvement Club meets, Mutual hall.
Civil Service Board meets, city hall.
Merchants' Exchange meets.
Garfield Civic Association, Twenty-third avenue branch of Oakland library.

Lake Merritt—Boating.

UNFAIRNESS TO SHIP FIRM IS PROTESTED

Complaint that discrimination has been made by the heads of the Emergency Fleet Corporation against an Oakland industry, the Hanlon Drydock and Shipbuilding Company, has been forwarded to Washington by Mayor John L. Davie who has asked Senators Phelan and Johnson and Congressmen Elston and Kahn to investigate the situation immediately.

That a set of plate-bending rolls which D. J. Hanlon claims he ordered last April in anticipation of building steel vessels, have been diverted to a rival company, the Western Pipe and Steel Company, located in San Francisco, greatly to the disadvantage of the local plant is the gist of the complaint The tools were commandeered by order of Admiral F. T. Bowles of the Fleet Corporation, it is declared and turned over to the outside company despite the fact that Hanlon had paid for them

Mayor Davie in presenting the matter of the controversy that has been carried on over the telegraph wires for several days between Oakland and Washington, said

"It is evident that the power of commandeer has worked a great hardship to the Hanlon plant and the reasons given me by telegraph do not justify in my judgment, this hardship. Because of this fact alone I am appealing to our representatives, who are in a better position to investigate the circumstances."

TURNING OVER PLATES.

Even at the time the rolls were diverted, Hanlon claims his company was turning over plates to the Moore Shipbuilding Company to be rolled on Sundays on double time at the expense of the fleet corporation. Also, Hanlon says, he had made an offer to Admiral Bowles to do the rolling for the Western Pipe and Steel Company at his own plant and deliver the plates to San Francisco on his own barges, if he were permitted to have the rolls he had ordered Also, he says, the Western Company in being allotted the rolls made no such offer to take care of his work The matter was taken up here with Captain Pillsbury, agent of the fleet corporation, and finally referred to Washington

In a telegram to Mayor Davie, Admiral Bowles said.

"After careful consideration of circumstances and in order to secure maximum progress in shipbuilding program, first set of bending rolls has been assigned to Western Pipe and Steel account their greater needs due to number of vessels under contract. Fleet Corporation Arrangements have been made to take care of necessary work for Hanlon by Western Pipe and Steel. Next set of rolls will go to Hanlon. You will understand this arrangements made entirely for good of country and to secure maximum production of ships"

Mayor Davie replied to the Bowles telegram, which was dated February 18, with a night letter, taking the admiral to task for his attitude in the case.

TELLS INJUSTICE.

"You have given these rolls to a plant which has never done a dollar's worth of repair work for the shipping board or anyone else, and whose construction thus far is based on the expectation that they will produce more ships than Hanlon, having been awarded larger contracts

"In view of these facts you have made the most extreme possible application of the power of commandeer, taking private property, not in order that your corporation, which is presumed to represent all the people, may take and use it, but in order to give it to another citizen, a rival and competitor of the citizen whom you have forcibly put out of the lists of free competition in the field of government construction. Depriving one individual and giving to another you justify to me on the ground that 'the arrangement is made entirely for the good of the country and to secure a maximum production of ships.'".

The mayor further states that "he finds conclusive evidence of the failure of promises," referring to the purported promise that Hanlon would be taken care of.

BLINDED BY DRINK

AMSTERDAM, Feb. 26.—A number of people in Berlin have gone blind through drinking a newly manufactured substitute for wine, which is believed to contain poisonous drugs, say the German papers.

What is doing TO-MORROW.

Golden Gate Assembly, No. 62, gives theater party, Bishop, evening.
Art exhibit, Auditorium.

Colonial Maids Ride Anew by Uncle Billy in Old Victoria

Seated in an old-fashioned Victoria is MISS JEANNETTE MAXFIELD, and entering the vehicle, MISS BRITTA SELANDER, two pretty east bay belles, who are helping in the benefit for the Red Cross free wool fund tomorrow night. The equippage is one which years ago was looked upon as one of the smartest in east bay society.

But It's Purposeful Trip They Make, Not Just for Pleasure

Two little colonial maids, dressed in the frills and furbelows of years ago, society belles of Oakland and Piedmont, seated in a quaint victoria and driven by old "Uncle Billy," as he is known to east bay society, rode through the streets of the city yesterday and today, doing their "bit" in advertising the free wool fund theater party at the Macdonough theater tomorrow night, to be held under the auspices of the free wool fund committee of Oakland Chapter of the Red Cross.

The two belles—Miss Jeannette Maxfield and Miss Britta Selander—disguised in old-fashioned wigs and gowns of the 1830 period, attracted hundreds to view the equipage, the property of Mrs. Oscar Luning of Oakland, which in its heyday was one of the smartest of vehicles

"Old Uncle Billy," now in his 80th year, reassumed his former role of coachman for the best families of the South and of the bay cities.

Meanwhile in the business districts society matrons are visiting every department store, business office and automobile row, selling tickets for the performance of "Romance," in which Crane Wilbur and ten east bay society matrons will participate.

Those who are to take part in the ball room scene of the play tomorrow night, wearing the exquisite colonial costumes of the period, are.

Mrs Percy Murdock, Mrs Will C de Fremery, Mrs. Joseph Rosborough, Mrs. Kenneth Lowden, Mrs. Harry Mosher, Mrs. Alla Henshaw Chickering, Mrs. George Newton, Mrs. Roger Haynes, Mrs. Jessica Davis Nahl and Miss Georgia Creed.

OAKLANDERS WILL REPORT TO UNCLE SAM

During the War Savings Stamp drive stamps will be on sale at the main office of The TRIBUNE, Eighth and Franklin streets, and at the branch office of The TRIBUNE, 1422 San Pablo Avenue.

Oakland's business men will report to Uncle Sam tomorrow at noon. They have been acting as his agents, selling thrift stamps for him. Tomorrow at a big war drive luncheon the "flying squadron" of 100 will report on the success of their sales campaign. Dr. Frederick Vining Fisher, direct representative of the government, will be present. The luncheon will be under the auspices of the manufacturers' bureau and will open Fisher's campaign to organize county war work units. Fisher is the official representative of the United States Council of Defense and of the department of public information

The "flying squadron" will start out at 8 o'clock tomorrow morning and work until noon. Each of the 100 members is pledged to place war savings stamps and thrift stamps on sale with at least ten agencies Every shop, store, pharmacy, bond and real estate office and other public place in the east bay cities is expected to be an agency for the stamps when the drive is completed.

Arrangements for the "drive" were made at yesterday's luncheon of the members' council, which organized the "flying squadron." Jack Martin, the new chairman of the council, was introduced by the chairman of the day, Joseph R. Knowland, who was presented to the luncheon gathering by J. N. Borroughs, the retiring head of the council

BIG THINGS HAPPEN.

"Oakland," Knowland said, "has seen bigger things happen in the last two decades than we ever dreamed of. We must learn new lessons, among them one that the whole nation has learned only recently—to be prepared.

"This war is likely to cease suddenly. We may wake up some morning and find that peace is in sight. Therefore we in Oakland want to be prepared to get the business, for we are going to see an era of foreign trade unprecedented in this country. And the Pacific coast is going to get

U.S. SOLDIER SHOT NEAR MEXICAN LINE

EL PASO, Tex., Feb. 26.—A soldier of United States cavalry border patrol was shot through the left arm today while patrolling the border near San Elizario, thirty miles southeast of here. The soldier was riding with a comrade when two Mexicans opened fire, hitting one. The other rescued his comrade and carried him to safety. Captain Joseph N. Marx, commander of the border patrol in the city, was shot in the right leg Saturday by Mexicans.

TUFTS TO TALK ON ETHICS OF NATIONS

BERKELEY, Feb. 26.—For the first time since its foundation in 1904, the annual Barbara Weinstock lecture on "the Morals of Trade," at the University of California, will be delivered by a professor of philosophy, rather than an expert in the science of economics or finance. James Hayden Tufts, professor of philosophy at the University of Chicago, has accepted the university's invitation to deliver the Weinstock lecture during the university's semi-centenary week, March 18 to 23.

The international aspect of the university's memorial week will be carried out in the Weinstock lecture, as well as in other courses of lectures to be delivered at the university at this time. The subject for Professor Tuft's address will concern itself with international ethics. It is entitled "The Ethics of Co-operation." It is expected that his remarks will supplement those of Dr. Oswald Garrison Villard, editor of the New York Nation, and president of the New York Post Company, who will speak on "Journalism and International Relations." Other speakers during the semi-centenary week will deal with the international application of knowledge to the problems upon which they will discourse.

"Professor Tufts is an author, translator and editor of prominence. He is a graduate of Amherst College, and received the degree of doctor of philosophy at Freiburg, in 1892. The honorary degree of doctor of laws was conferred upon him by Amherst College, in 1904. He has been an instructor in mathematics at Amherst and an instructor in philosophy at the University of Michigan. He was called to the philosophy department of the University of Chicago in 1892, and now stands at the head of his department. He is a member of the American Psychological Association and of the American Philosophical Association, having been elected president of the latter organization in 1914. He is also a member of the Western Philosophical Association. Professor Tufts is the author of "James Tufts, a Memorial." With Professor John F. Dewey of Columbia University, who is also to attend the university's semi-centenary, he wrote a volume on "Ethics," which appeared in 1908. Professor Tufts is also the author of various monographs on philosophical subjects. He served as editor of "The School Review," and is at present editor of the "International Journal of Ethics."

Among other Weinstock lectures in the past have been Willard Eugene Hotchkiss, director of the school of commerce of the University of Minneapolis; Dr. Stanton Coit of London; Hamilton Holt, editor of the New York Independent; John Graham Brooks, James R. Garfield, Felix Adler, A. C. Bartlett, Albert Shaw, John Bates Clark and Frederick Lockwood Lipman, vice-president of the Wells-Fargo Nevada National Bank of San Francisco.

CHILDREN HATE PILLS, CALOMEL AND CASTOR OIL

Give Fruit Laxative When Cross, Bilious, Feverish or Constipated.

"California Syrup of Figs" Can't Harm Tender Stomach, Liver, Bowels.

Look back at your childhood days. Remember the "dose" mother insisted on—castor oil, calomel, cathartics. How you hated them, how you fought against taking them.

With our children it's different. Mothers who cling to the old form of physic simply don't realize what they do. The children's revolt is well-founded. Their tender little "insides" are injured by them.

If your child's stomach, liver and bowels need cleansing, give only delicious "California Syrup of Figs." Its action is positive, but gentle. Millions of mothers keep this harmless "fruit laxative" handy; they know children love to take it; that it never fails to clean the liver and bowels and sweeten the stomach, and that a teaspoonful given today saves a sick child tomorrow.

Ask your druggist for a bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly on each bottle. Beware of counterfeits sold here. See that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.—Advertisement.

CANCER

TUMORS—ALL BREAST LUMPS TREATED—NO KNIFE USED

Strictly a non-operative treatment. NO KNIFE, NO BLOOD AND WITH LITTLE OR NO PAIN. Our method of application positively kills every particle of diseased tissue. REMEMBER the danger signal is a sore that does not heal or the rapid increase in growth in a LUMP, WART, MOLE or SCAB which may have been present a long time. If these conditions appear in an individual over 40 years of age they are NEARLY ALWAYS OF A MALIGNANT NATURE and require immediate attention. Send for my 64-page (free) book with names and testimonials of cured patients. Many right here in your own vicinity. EXAMINATION FREE.

Clergy Attend Funeral of Priest
Father Michael O'Riordan at Rest
Last Tribute to Pioneer Catholic

Catholic clergy and laity, not only of the entire bay district but from many distant points in California as well, attended the solemn ceremonies which marked the funeral service of Father Michael O'Riordan, aged pastor of St. Andrew's church at 10 o'clock this morning. Among the circle that clustered about the remains of the priest who was one of the early workers of his faith in the state, were faces of many prominent persons. In the cortege which accompanied the remains to their final rest in St. Mary's cemetery were more than 160 priests from various parishes in this district. The church itself was thronged.

Requiem high mass was solemnized at 10 o'clock, Father P. K. Morris, pastor of St. Joseph's church in Berkeley, being the celebrant. Father James Byrne of St. Columbus church of this city officiated as deacon, and Father Robert Sampson of Sacred Heart church of this city as subdeacon. Father Joseph Carroll, assistant pastor of St. Francis de Sales church, acted as master of ceremonies. Most Rev. Archbishop Edward J. Hanna, attended by his secretary, Rev. James Cantwell, presided in the sanctuary. The eulogy was delivered by Rev. P. J. Keane, pastor of St. Francis de Sales church, during which he paid high tribute to the works and accomplishments and high character of the dead priest.

The interment was at St. Mary's cemetery, where Archbishop Hanna performed the committal services. The archbishop also delivered the blessing at the termination of requiem mass at the church. The pall-bearers included Rev. M. J. Barry, pastor of St. Patrick's church; Rev. Owen Lacey, pastor of St. Leo's church; Rev. William Carnwall, chaplain of St. Mary's college; Rev. Father Horan, pastor of St. Louis Bertrand church at Elmhurst, and Rev. Fathers Hartnet and O'Neil of San Francisco.

The ushers were William J. Hayes, William J. Kiefferdorf and Leo J. McCarthy. The funeral service was attended by members of the Young Men and Young Ladies' Institutes, and other Catholic orders, including officers of the Knights of Columbus, and prominent Catholics from all parts of the bay district.

Ready to Extend Their Plant
Plans of the Alaska Packers

TRIBUNE BUREAU
1434 PARK ST.

ALAMEDA, Feb. 26.—The enlargement of the shipping basin, the extension of wharves and the construction of a great chain of warehouses for the storage and rehandling of the mammoth salmon pack of the Alaska Packers is the latest industrial announcement following the determination of the city to construct the belt railroad on Clement avenue and also construct an industrial highway along the entire north side.

Official announcement of the plans of the Alaska Packers was made today to City Manager C. E. Hewes by A. K. Tichenor, vice-president and general superintendent, who succeeded recently to the position vacated by Captain Jefferson Moser. Tichenor called on the city manager this morning to extend congratulations to the manager over the city's determination to construct the belt line. In the course of his talk the new official said that the construction of the railroad meant that the time had come for the Alaska Packers to start in earnest the plan formulated several years ago to build a great system of wharves, docks and warehouses whereby the entire salmon pack could be brought direct from the north to Alameda, unloaded from the salmon ships into the warehouses and re-shipped from Alameda.

The plan includes enlarging the ship basin where the Alaska Packer boats are now overhauled each season and where they lie packed in like sardines in a box.

The announcement of the ultimate aim of the Packers is not new, but the announcement that the time has arrived for carrying out the plan is new. While more or less enlarging, changing and altogether new work has been going on steadily at the big plant in this city, the full program has not yet been undertaken.

Alameda will profit in many ways. The investment for wharves, docks and warehouses will be large. The pay roll at the local plant will be greatly increased. The city will find a material increase in its assessment roll through having more improved property to assess and through having millions of dollars of packed salmon warehoused in this city and therefore subject to Alameda city assessment and tax.

The county of Alameda will likewise profit. The Alaska Packers is the biggest salmon fishing concern and salmon marketing factor in the world. Alaska Packers' salmon goes into every part of the world. The reshipment of packed salmon cold not be undertaken from this city until the Packers were afforded direct rail communication. With the rail communication at hand the Packers have decided that their eventful plans should now be carried out without loss of time.

30 ATTEND CIVIC OWNERSHIP MEET

ALAMEDA, Feb. 26. — That Alameda is not particularly interested in public ownership of public utilities at this time was indicated at the meeting held in the city council chambers last night under the auspices of the Municipal Ownership league. Barely 30 persons, exclusive of the press representatives, were present.

Mayor Greene Majors presided. The mayor was asked by the league to serve as presiding official and he is also a strong exponent of municipal ownership of public utilities. Representatives were present from different improvement clubs.

President L. R. Magoon of the league gave the chief address, telling his hearers that public ownership of public utilities was the only means of giving the public adequate service at reasonable prices. He declared that private ownership was responsible for poor service, for enormous profits, for the corruption of officials and for all that was evil in the ownership and operation of public utilities. Municipal and government owned utilities in Germany, Austro-Hungary, Russia and other countries of Europe were cited as examples of what American cities and states should do.

Getting down to more concrete matters, Magoon said that the effort of the Key Route to raise rates was made because the San Francisco & Oakland Terminal railways company was unable to borrow any more money under present conditions and wished to raise rates so more money could be borrowed. He declared that the properties of the Key Route and the street car company were deteriorating, that the service was poor and that the companies could not even pay interest on bonds, let alone pay dividends and make improvements.

He said that failure of capitalists in the east to purchase the Key Route holdings from F. M. Smith, because the latter declined to sell, caused the eastern financiers to take another course which cropped to the surface in the bursting of the F. M. Smith United Properties bubble, and the loaning to the Key Route of $2,500,000 by N. W. Halsey & Co., of San Francisco, coast representatives of the big money interests centered in the National City bank of New York.

Former Mayor Charles D. Heywood of Berkeley; Attorney Boyer, counsel for the league; George H. Fox of Alameda, Brainard C. Brown and others spoke briefly. During the open forum toward the close of the meeting, it developed that if the league had been in active operation before the Alameda belt railroad and industrial highway scheme had been started, that it would have required a vote of the entire district along the east side, before Alameda could have proceeded. No steps were taken to form an Alameda branch though announcement was made that memberships were $1 each.

WILBUR HEADS GUARD COMPANY

ALAMEDA, Feb. 26. — Definite word has been received from Adjutant General J. J. Borree at Sacramento that Alameda's new National Guard company is to be received into the guard service, and later into Federal service when the new California guard regiment is complete and ready for war.

J. W. Wilbur, the organizer of the company, is to be captain. The other officers have not yet been picked. Captain-elect Wilbur has called a meeting for Thursday night at the Elks club house, when the new company will be sworn in.

Medical examinations are to follow quickly. It is announced that there is still opportunity for a few more men to join as a certain per cent of those already joining will be thrown out by the medical examinations.

RECEIVER CHOSEN

SAN FRANCISCO, Feb. 26.—A receivership for the Yosemite National Park Company was asked in a petition, filed here today, by the Anglo-California Trust Company. George J. Dougherty was appointed receiver. The petition asked for a judgment of $200,000 and $4000 attorney fees. The Yosemite National Park Company operates hotels and other convenionces in the valley.

CLOSE OFFICERS' MESS AT CAMP

CAMP LEWIS, Tacoma, Wash., Feb. 26.—To lessen the danger of the spread of contagious disease at Camp Lewis, the officers' mess at the cooks' and bakers' school was ordered closed last night by Major P. C. Field, division surgeon. The closing of the mess does not mean there is any increase in disease at camp, it was said, for last week's report of the division surgeon showed Camp Lewis had a non-effective rate lower than the average at army cantonments.

One anticipated romance went on the shoals in the 326th Field Signal Corps battalion yesterday, and the men are having a lot of fun with an old army man who used to make the recruits the butt of jokes. When a new shipment of Red Cross sweaters was received at the headquarters camp, Private E. A. James of San Francisco went through the lot and chose one to which was pinned a note with an attractive signature. He wrote a tale of loneliness to the maker of the sweater and asked that she write him.

Yesterday he got the letter. "She" was a South Dakota rural mail carrier who was not satisfied with only giving three sons to the army, and sought to do what he could by knitting sweaters at night.

Three more enemy aliens were discharged today.

CANOEISTS TO RALLY.

BERKELEY, Feb. 26.—Women students of the University of California who are taking up canoeing will attend a bonfire rally to be held at Lakeside Park, Oakland, at 5:30 o'clock Thursday. Before the rally they will be towed around the lake in canoes. Class songs will be sung.

SERVICE FLAG AT GRANT SCHOOL

The Grant school is soon to boast a service flag of 51 stars, for graduates of the school now in the service of the nation. The flag was ordered by the school board, on petition of the teachers. The dedication will take place tomorrow, when a program will be rendered by teachers and students. The program will include the following:

Music, Grant school orchestra; bearing of the flag to the platform, escorted by a students' guard of honor; bugle calls by Russell Jones; address, Lloyd Younger; roll of service flag names, Hartley Hutchinson; bearing of American flag to place on platform opposite service flag, Lila Gibbs; Drake's address to the American flag, Brooke Petray; salute, pledge of allegiance, and "Star Spangled Banner" by school; address, School Director Floyd Gray.

The stars in the flag stand for the following graduates in the service:

Olmstead Atwater, Ernest Anderson, Clyde Adams, Howell Aurebach, Harold Bills, Warren Bectel, Horace Breed, Donald Breed, Henry Breck, Edward Cavanaugh, Irving Cockroft, Dr. Walter Cauch, Leon Chamberlain, Wm. R. Davis Jr., Allan Dennison, Walter Elaison, Frank Fay, Harold Glasier, Leroy Gimbal, Raynor Gimbal, David Glickman, Walter Glavin, Richard Hahn, George Hjelte, Richard Hill, Jack Howard, Albert Hill, Bruce Hill, Byron Hampel, William Jordan, Theodore Jordan, Emile Kern, John Lvle, Harold Livingston, Marshal Langstroth, Malon Langstroth, Elwood Masten, York MacIntyre, Lawrence Miller, Harold Masters, Fred Moller, George Manheims, Jack O'Donald, Dr. Henry C. Petray, Preston Snook, Ellery Stone, Henry Shreve, John Smith, Edward Von Adeling, Harold Wurts, Edward Walsh.

NEXT LOAN 4½%

WASHINGTON, Feb. 26.—"The next Liberty loan will bear 4½ per cent interest." Representative Meeker declared on the floor of the House today.

"I have that information direct," he said.

DEATHS

CALDWELL—In this city, February 25, 1918, Dr. Euler Jones Caldwell, beloved husband of Annie Caldwell, a native of South Carolina, aged 49 years, 11 months and 13 days.
Funeral services Wednesday, February 27, 1918, at 11 o'clock a. m., at the parlors of James Taylor, northeast corner of 15th and Jefferson streets, Oakland, Cal., to which friends are invited.

GRAYSON—In this city, February 25, 1918, Mary Grayson, wife of the late George Grayson and loving mother of J. R. Grayson, Mrs. E. G. Ross, Mrs. O. Dimon and sister of Joseph Philips, a native of England, aged 72 years.

HEUER—In this city, February 26, 1918, Doris Winter Heuer, widow of the late Philip Heuer and idolized mother of George F. and Philip C. Heuer, Mrs. Alvina Heuer Willson, Mrs. George W. Lucy and Mrs. Beach H. Dean and the late Etta Heuer and sister of John F. Winter, a native of Bremen, Germany, aged 82 years.
Friends are respectfully invited to attend the funeral services Thursday afternoon, Feb. 28th, at 2 o'clock, at her late residence, 1120 East 28th street, Oakland. Interment private.

ROWLAND—In this city, February 25, 1918, Anna Mae Rowland, dearly beloved daughter of Mr. and Mrs. Hubert G. Rowland and loving niece of Mrs. P. J. Nicholas, Mrs. F. M. Nicholas and Mrs. L. B. Wade, a native of California, aged 18 years, 1 month and 3 days.
Friends and acquaintances are respectfully invited to attend the funeral services Wednesday, February 27, 1918, at 3 o'clock p. m., from the funeral chapel of Grant D. Miller, 2372 East 14th street, corner of 24th avenue. Interment strictly private.

ROTHERMAN—In Oakland, February 24, 1918, Mary, dearly beloved wife of the late John Rotherman, loving mother of Lillian and Henry Rotherman, a native of Ireland.
Friends and acquaintances are respectfully invited to attend the funeral Wednesday, February 27, 1918, at 9 o'clock a. m., from her late residence, 1456 Ninth street, thence to St. Patrick's Church, where a requiem mass will be celebrated for the repose of her soul, commencing at 9:30 a. m. Interment Holy Sepulchre Cemetery.

WADE—In this city, February 25, 1918, Leonard Wallace Wade, a native of Wisconsin, aged 65 years.
Funeral and interment private. Remains at the chapel of Grant D. Miller, 2372 East 14th street, corner of 24th avenue.

WINTERGARST—In this city, February 25, 1918, Arthur, beloved husband of Mary Wintergarst, loving father of Arthur H. and Ernest C. Wintergarst, a native of Germany, aged 30 years, 8 months. LEARN BILLIARDS

Members of the Advertising Club of the Chamber of Commerce took a lesson in billiards today, expert billiard players lectured on the game and demonstrated on the Commercial Club tables after the luncheon. Brigadier General C. A. Woodruff, retired, spoke on war work.

Tomorrow the Manufacturers' Bureau will offer several features. W. H. Dornfield, the magician, now in the army, will offer his comedy sleight-of-hand act, which was the hit of last night performance at the Magicians' Society show, and Frederick Vining Fisher, former director of the bureau of lectures, Panama Pacific Exposition, and representative of the Department of Public Information, will speak on war aims. Joseph R. Knowland will be chairman of the day. Fisher will open his campaign here to organize county war aid branches at the meeting.

SCHR. NOYO SINKS

SAN FRANCISCO, Feb. 26.—The Yukon Lumber Company's schooner Noyo turned turtle and sank 25 miles north of Point Arena while being towed to this port by the schooner Brunswick, according to a report received here today. The crew were taken off by other vessels which stood by when signals of distress were received from the Noyo early Sunday morning.

The Noyo left port with a cargo of lumber for San Francisco Saturday.

NEW JUROR IS CHOSEN UNDER OLD STATUTE

For two days Ross Reynolds, reporter in Superior Judge James G. Quinn's department, has been reading his notes of the testimony in the case of the people against Louis Murillo, a 20-year-old youth accused of picking the pocket of an Italian of $35. The reading is for the benefit of the new eleventh-hour juror, who was sworn in to take the place vacated in the box by the continued illness of Juror Fred Brandt, whose indisposition two weeks ago caused the postponement.

When the case was called a doctor's certificate was presented showing that Brandt could not attend, and the statutes were perused by the pudge to determine whether or not they could find any expedient by which to proceed. A statute of about the year 1872 was dug out of the tombs by which they were enabled to swear in another juror, read the testimony, by stipulation of the lawyers, and go ahead.

The twelfth juror chosen was a man, completing the last all-masculine jury thta will hear a case in the Superior Court.

FARM SUPPLY BILL WILL DIE

WASHINGTON, Feb. 26.—The Baer bill, appropriating $50,000,000 to supply seed and feed to farmers on credit, will be allowed to die in the House agricultural committee.

The committee voted finally on whether to report the bill favorably today. A tie vote was polled, the deciding vote against the measure being cast by Chairman Lever, who believed with Secretary Houston that such action as contemplated in the bill is unnecessary.

Representative Baer, father of the measure, upon hearing that the committee had decided not to report his bill, gave notice that he would take the floor as soon as possible and tell the House the exact plight of the Northwestern farmers.

P. O. WEIGHT MORE

WASHINGTON, Feb. 26.—As a means of stimulating movement of farm products to the consumer, Postmaster General Burleson today increased the allowable weights of parcel post packages effective March 15.

Packages, when mailed in the first or second zones for delivery in the first, second or third zones, may thereafter be as heavy as seventy pounds. They are now restricted to fifty.

The weight limit for all other zones was increased from twenty to fifty pounds.

MEDICAL MEN OUT

WASHINGTON, Feb. 26.—Discharges of officers from the army medical corps are continuing at the rate of fifty a week, Surgeon General Gorgas announced today. In all 1050 medical officers have been discharged since the war began and in addition there have been about 4000 rejections in the medical reserve corps.

NEW AIR RECORD

FORT WORTH, Tex., Feb. 26.—A new American air endurance record has been set by Homer V. Sharp, American flying cadet, who stayed in the air thirteen hours and five minutes. The figures were given out here today. Sharp enlisted from Knox College, at Monmouth, Ill.

Weather Report

Oakland and vicinity: Partly cloudy and occasionally threatening; moderate winds, mostly westerly.

Sacramento valley: Partly cloudy and occasionally threatening; probably showers north portion, moderate winds, becoming northerly.

San Joaquin valley: Probably fair, light variable winds.

Santa Clara valley: Probably fair, moderate westerly winds.

Southern California: Fair, colder tonight east portion, moderate westerly winds.

Northern California: Partly cloudy and occasionally threatening, probably rain north portion, moderate winds, becoming northerly.

Nevada: Probably fair.

Idaho: Rain or snow tonight, Wednesday fair.

Washington and Oregon: Fair, moderate westerly winds.

WEATHER CONDITIONS.

A severe storm has passed to sea off the New England coast and the barometer is rising steadily over the north Pacific states and falling slowly over California. Light rain has fallen in southern California, western Oregon and portions of Washington, while snow has occurred in eastern Oregon and portions of Idaho. The eastern storm has caused rain turning to snow in the northern states and the Mississippi river. It is much warmer in Nevada and the northern Rocky mountain states and upper Missouri valley. Temperatures have fallen decidedly over a wide strip of territory extending from New Mexico and Texas northeastward to the Lake region.

Conditions are favorable for generally fair weather in this district Wednesday. It will be colder tonight in the eastern portion of southern California.

E. A. BEALS, Forecaster.

SAYS PROBATION IS OVERWORKED

The request for probation made today before Superior Judge Quinn on behalf of Harry Oubridge, charged with cashing a check of the Moore-Scott Company, which did not belong to him, brought from Assistant District Attorney James M. Koford the assertion that the probation system is falling into disrepute.

"The probation system was intended for the rehabilitation of first offenders," he said, "in whose cases the circumstances are in some measure extenuating and who would suffer unduly by the imposition of a sentence to penal servitude. But the motion for probation for this man shows to what a low estate the system has fallen. The district attorney cannot allow the matter to go unchallenged."

The man was charged with four former convictions, which fact made the judge take notice also of the degree to which the machinery of the probation system is being overworked. It was a case of drink that worked the offender's downfall and Judge Quinn declared that it presents the most difficult matter that comes before the courts for solution. In view of the past offenses the judge felt that probation should be denied. He postponed the matter, however, to allow the attorney to develop the plea that the application should be allowed.

MAGICIANS MEET

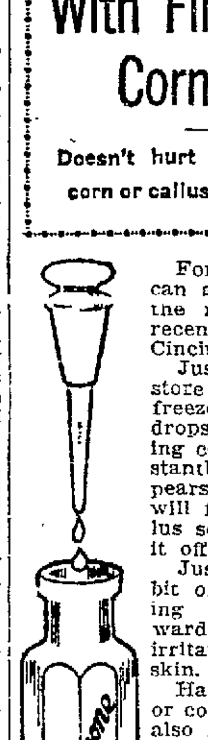

Mystery ruled at the Hotel Oakland last night when the Golden Gate Society of the American Society of Magicians held the boards. Business and professional men of Oakland and San Francisco, who follow magic as a hobby, presented various new illusions. Several old-time professionals were among the guests of honor, including Dr. Samri S. Baldwin ("The White Mahatma), Professor Harry Cooke, who since his retirement from the stage has lived in California, and several others. Frank W. Bilger, president of the local assembly of the organization, of which Harry Houdini is national president, introduced the acts.

Syril Dusenbery, electrical engineer, opened the program with some card experiments, using a small boy in the audience for an assistant. Harold R. Jacobs, H. W. Reynolds, Dr. George Compton, W. H. Dornfield, Jesse A. Mueller, attorney; George Rust, automobile expert, and Professor E. M. Lipka, participated.

The affair took place in the ballroom of the Hotel Oakland. An audience of 500 viewed the various tricksters at work.

With Fingers! Corns Lift Off

Doesn't hurt a bit to lift any corn or callus right off. Try it!

For a few cents you can get a small bottle of the magic drug freezone recently discovered by a Cincinnati man.

Just ask at any drug store for a small bottle of freezone. Apply a few drops upon a tender, aching corn or callus and instantly all soreness disappears and shortly you will find the corn or callus so loose that you lift it off with the fingers.

Just think! Not one bit of pain before applying freezone or afterwards. It doesn't even irritate the surrounding skin.

Hard corns, soft corns, or corns between the toes, also hardened calluses on bottom of feet, shrivel up and fall off without hurting a particle. It is almost magical.

Ladies! Keep a tiny bottle on the dresser and never let a corn or callus ache twice.—Advertisement.

Kidney Trouble Not Easily Recognized

Applicants for Insurance Often Rejected.

An examining physician for one of the prominent Life Insurance Companies, in an interview of the subject, made the astonishing statement that one reason why so many applicants for insurance are rejected is because kidney trouble is so common to the American people, and the large majority of those whose applications are declined do not even suspect that they have the disease.

Judging from reports from druggists who are constantly in direct touch with the public, there is one preparation that has been very successful in overcoming these conditions. The mild and healing influence of Dr. Kilmer's Swamp-Root is soon realized. It stands the highest for its remarkable record of success.

We find that Swamp-Root is strictly an herbal compound and we would advise our readers who feel in need of such a remedy to give it a trial. It is on sale at all drug stores in bottles of two sizes, medium and large.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention the Oakland Daily Tribune.—Advertisement.

NUXATED IRON

increases strength of delicate, nervous, run-down people in ten days' time in many instances. Used and highly endorsed by former United States Senators and Members of Congress, well-known physicians and former Public Health officials. Ask your doctor or druggist about it.

FOR COUGHS AND COLDS

—take a prompt and effective remedy—one that acts quickly and contains no opiates. You can get such a remedy by asking for

PISO'S

BURBANK TO DRAW SUGAR FROM CACTUS

SANTA ROSA, Feb. 26.—Luther Burbank, plant wizard, went "over the top" today with another suggestion for helping to win the war.

With the shortage in sugar and the proposed reduction of the quantities used in soft drink manufacture and candy making, Burbank proposed to extract glucose, or sugar, from the fruit of the spineless cactus which he has brought to perfection.

"The cactus is going to surprise everybody some of these days," he said today. "Like alfalfa, which languished for so many years without appreciation, it is due for great utilization.

"No such thing as a crop failure need be feared in cactus. It will produce fifty tons of fruit to the acre in any climate. Drought does not hurt it, yet water does not harm it and frost never touches it. The cactus fruit is very rich in sugar, especially that of the hot climates. The cactus sugar is refined in the form of glucose, which is the basis of most candies and used as a binder in practically all. There is immense opportunity here for service to the nation."

Burbank's statement on cactus glucose was made as the result of publication recently of the story of a Texas man who made candy from leaves. A Santa Rosa woman then announced that she had done better and had preserved and made glace fruit from cactus fruit, using practically no sugar in the process.

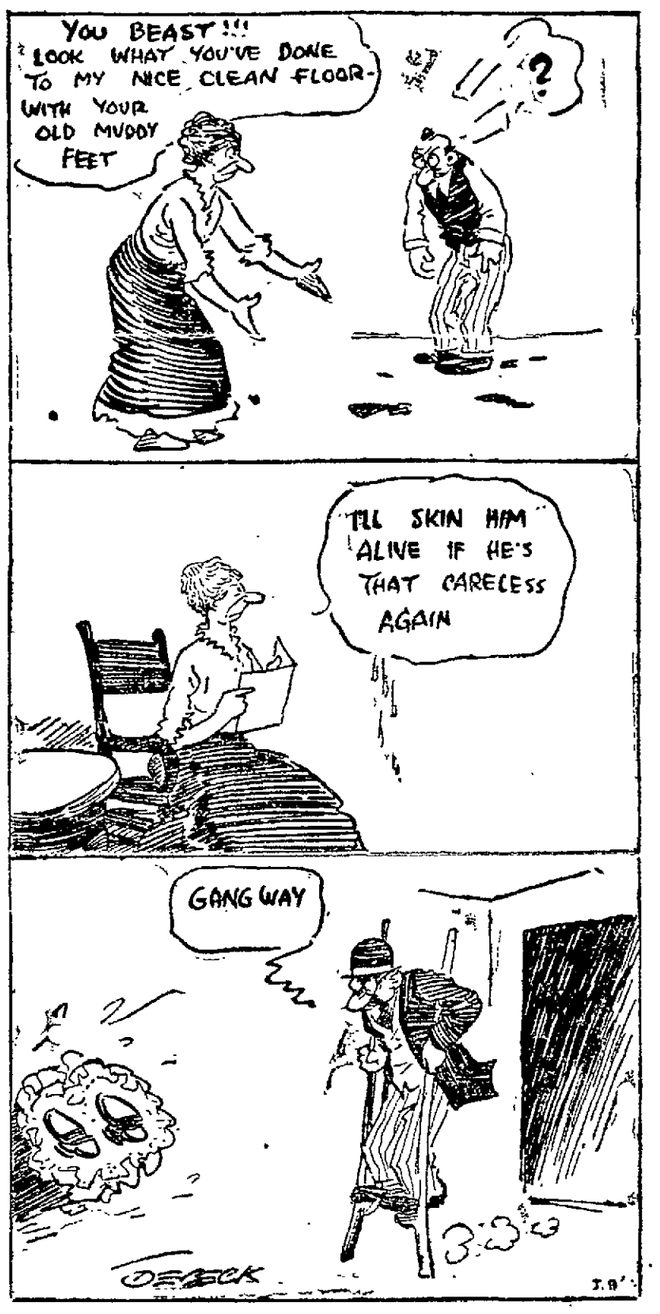

Burbank says he has perfected the cactus to such a point that it is not only spineless, but the spines and seeds have been eliminated from the fruit.

PREMIER BORDEN IN WASHINGTON

WASHINGTON, Feb. 26.—Premier Borden of Canada began a series of conferences here today with Earl Reading, the British ambassador; Lloyd Harris, chairman of the Canadian war mission; Sir Charles Gorden, vice-chairman of the British war mission, and some American officials.

Officially it was announced that the main purpose of the Canadian premier's visit to Washington was to confer with Lord Reading on British war-time policy in Canada and the United States. Although Sir Robert probably will confer with many prominent government officials here, no intimation was given officially of the object of those conferences.

MARRIED LIFE

POLICE SEARCH FOR DIAMOND

Mystery surrounds the loss of a diamond ring valued at $100, which is said to have disappeared from the hand of A. J. Costello, of 1251 Seventh street, under peculiar circumstances while he was confined in the Providence hospital, between 10:30 o'clock Sunday night and 10 o'clock yesterday morning. Police Inspectors Dufton and Neils are today investigating the case which, has so far baffled their efforts at solution.

Costello was injured in an automobile accident at Seventh and Center streets Sunday night and removed to the Emergency hospital. While there he was searched for valuables, and everything but the diamond ring was taken in charge by the attendants.

The ring could not be removed from the patient's finger, the inspectors learned, and at 10 o'clock Costello was removed to the Providence hospital. There the ring was seen by physicians and nurses up to midnight, it is said. Shortly after that Costello left his bed and went into a lavatory. Attendants put him back to bed after a short struggle.

When Mrs. Costello appeared at the hospital yesterday morning she sought the ring and found that it was missing from her husband's finger. She immediately made inquiries and all attendants who were known to have been in the room were closely questioned. Then the police were called into the case last night and made an independent investigation.

According to Inspector Neils, there are no clews at this time which would point to any one responsible for the theft, if theft occurred. It is thought that the ring may have been broken, or that Costello in his delirium wrenched it from his finger and threw it away or secreted it.

OAKLANDERS WILL REPORT TO U. S.

(Continued From Page 11)

a large part of that foreign trade, with Oakland the principal gainer—if only we are prepared.

"We can prepare through the Chamber of Commerce. This organization has demonstrated its usefulness many times. It was due to this organization that such a strong impression was made upon the Helm commission in favor of the Alameda site for the naval base. I know for a fact, from conversations with men in the confidence of the commission, that those eminent naval officers were greatly influenced by the broad-minded and patriotic stand of the Oakland Chamber of Commerce in urging no particular site, in offering no land for sale, in taking the commission to every possible site on the continental side of San Francisco bay."

HELP WIN.

Joseph H. King, former president of the chamber, urged everybody to get behind the government to help win the war.

"You are fighting," he said, "for your existence, for everything you hold dear. It's time you came to a realization of the power of organization, of team work in these times. Words are mere 'bunk' these days. You've got to do.

"And you've got to do it now. I regret to say it, but Oakland, as a rule, has always been just a little too late. The men of vision, the men who accomplish things have seen this tendency and have gone elsewhere.

"Los Angeles is getting ready and San Francisco is getting ready as she never got ready before, because she recognizes that the next ten years is going to decide whether she is to retain her supremacy numerically, industrially and commercially, as between herself and the cities of the continental shore of the bay, and some leaders of San Francisco are willing to concede that the biggest city is going to be on this side.

"We have come to the time when we must all pull together in one great organization to whip kaiserism and make the world safe for democracy."

In urging the teams to exert their utmost efforts in the drive tomorrow H. C. Capwell, president of the chamber, said:

"Those who are not 'for us' are 'agin us.' Oakland has not done its share in the war financing. Shall it be said in Washington that Oakland is 'agin us?'

"The most of us are not doing much for the fellow who is doing our part—and getting shot full of holes for it. Every one of us ought to be buying thrift stamps and war savings stamps.

"The government, to be sure, wants the money, but the government would like to sacrifice $2,000,000 and $2,000,000 more on top of that if it could find out that it had 30,000,000 or 40,000,000 back of it in this war."

Capwell then outlined the scheme of the drive, saying that what was wanted was as many stamp agencies as possible in the east bay cities.

Chairman Martin, in closing, pointed out that the city had been thoroughly districted, that each man would be told just whom to go to, that the way already had been paved with correspondence by officials of the Chamber of Commerce and that about all that was left to do was just to say:

"Please sign on the dotted line."

SAYS OFFICIALS ACTED TOO QUICK

SAN JOSE, Feb. 26.—That Brigadier General Leitch, who has just taken command of the Eighth Division mobilizing at Camp Fremont, was acting without full information as to moral conditions on the peninsula between San Jose and San Francisco when he authorized a statement demanding the cleaning up of Redwood City and San Mateo county saloons, was the assertion of District Attorney Franklin Swart of San Mateo county.

The statement from Fremont, which was in the shape of an ultimatum threatening the posting of a patrol to keep the soldiers away from Redwood City in the event that action was not taken, was the result of the running down and killing of a pedestrian near there by an automobile in which some soldiers had been invited to ride. The accident was witnessed by Captain H. Lester Archer and Major J. S. Hardin of Camp Fremont, and they charged that the driver of the machine was evidently drunk and that after the accident a quantity of liquor was discarded from the machine.

Following the posting of the order at Camp Fremont District Attorney Swart of San Mateo county stated that conditions at Redwood City were as bad as alleged.

PROTEST AGAINST S. P. CONTINUED

SAN FRANCISCO, Feb. 26. — The continuation of the hearing of the South San Francisco Chamber of Commerce's protest against a 50 per cent switching charge made by the Southern Pacific to South City industries was resumed before Railroad Commissioners Devlin and Edgerton today.

In rebuttal the Southern Pacific called R. E. Mulcahy of the freight traffic department, who testified that in laying out yard limits the Southern Pacific had extended them from time to time as various communities do until 1907, when it realized the San Francisco yard limits were beyond the point where traffic could be handled at a 25 cent rate.

Mulcahy stated that the company did not consider the 25 cent rate enjoyed by Oakland and San Francisco as being preferential, but was on the contrary a competitive rate made to compete with the draymen of both cities.

"This 25 cent rate is not based on any logical freight tariff and is handled at a loss," said Mulcahy, "as is the 50 cent rate between San Francisco and Oakland which allows the company to compete with barges."

HUSBAND DESERTS

Helen L. Gamba complains in her suit for divorce from John Gamba that he accused her of trying to alienate the affections of their 20-year-old daughter, Marion. One evening when the father came home and the daughter was away, he made the accusation and left, Mrs. Gamba complains, never to return.

The couple were married in 1894. Besides Marion there is a son, Henry, age eighteen. Mrs. Gamba claims that her husband was sulky and that he once called her "an old devil."

FOR FRUIT JUICES

The California Citrus Products Company, organized for the purpose of manufacturing and dealing in lemon juices as well as al lother kinds of fruit juices and citrus products, filed articles of incorporation in the office of County Clerk Gross today. The incorporators are Judge Mortimer Smith, J. Treager, former jewelry merchant, and Manuel Goldwater. The company is capitalized for $50,000.

DELAY PROBATION

The application of Hite L. Grove for probation, following his conviction on a charge of obtaining money by means of a forged deed of trust, was continued today for two weeks at the request of the probation officers.

TWO OF WEINBERG CHARGES DROPPED

SAN FRANCISCO, Feb. 26.—As the result of the failure of the prosecution to obtain a continuance in the case of Israel Weinberg, one of the Preparedness Day bomb defendants, two of the murder indictments against him have been dismissed by Superior Judge Cabaniss on the request of the district attorney's office.

There are five remaining murder indictments, and, according to District Attorney Fickert these are ample for the purpose of the prosecution.

The Weinberg case virtually had gone to trial yesterday after the pleas of the prosecution for a continuance had been refused. At the afternoon session, however, Deputy District Attorney Louis Ferrari announced that without the presence of four witnesses now out of the State, the prosecution would request the dismissal of the indictments on which trial was about to begin. Date for trial on any of the remaining indictments has not been set.

POLICE HUNTING BOMB PLACER

SAN FRANCISCO, Feb. 26. — Naval intelligence bureau operatives, headed by Captain Van Antwerp and the police neutrality squad, commanded by Lieutenant J. J. O'Meara, have been combing South San Francisco since last Saturday following the discovery of a cleverly constructed bomb containing eight half-sticks of dynamite, which had been placed in the timekeeper's office of the Shaw-Batcher Shipbuilding Co. shortly after the noon hour Saturday.

By cunningly contrived mechanism, a fuse attached to the explosive would have been ignited when the lid of a tin can in which it had been place was lifted.

The plant, which employs 1500 men, is believed to have among its number a German sympathizer, and the rigorous investigation which is being made is directed at several suspects who have been described as German sympathizers. The Shaw-Batcher Co. has contracts totalling $30,000,000 for 18 8800-ton freighters being built for the emergency fleet corporation. The first of these will probably be launched April 1.

TRY INCENDIARY

SANTA ROSA, Feb. 26.—Wong Bow, Chinese, went on trial before Superior Judge Seawell today, charged with burning an apple drier at Forestville, with a loss of $1500. He claims another Chinese incited him to start the fire as a result of business rivalry with the owner of the drier.

AN ARMY OF INTERNAL BATHERS

Over half a million bright, keen, up-to-date Americans have found that internal Bathing is more essential to their well-being than external Baths.

Have found that taken occasionally at night they feel like different people the next morning. No more of that bilious, tired, nervous condition—but, having by Nature's own cleanser, antiseptic warm water, removed all the poisonous wastes from the Lower Intestine, they awake thoroughly refreshed by normal sleep, with all their functions acting in healthy accord, bright, happy, clear-headed and confident, eager and capable for the duties of the day.

Mr. Walter Johnson writes: I got a "J. B. L. Cascade" outfit from you and I am glad I did. It worked fine. I haven't used any medicine since the "Cascade" arrived—do not need it. I used "Cascade" according to direction. It certainly does just what you say it will. Its use makes one feel fine and hungry. Am using the "Cascade" once a week now, but don't need it so often.

Why not learn more about this rapidly growing and natural practice? The "J. B. L. Cascade," the original and best appliance for this purpose, manufactured by Chas. A. Tyrrell, M. D., is now being shown and explained by The Owl Drug Co. There also may be obtained free on request "Why Man of Today Is Only 50 Per Cent Efficient," a most interesting booklet on the subject.—Advertisement.

Children Cry for Fletcher's

CASTORIA

The Kind You Have Always Bought has borne the signature of Chas. H. Fletcher, and has been made under his personal supervision for over 30 years. Allow no one to deceive you in this. Counterfeits, Imitations and "Just-as-good" are but experiments, and endanger the health of Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It contains neither Opium, Morphine nor other narcotic substance. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Panacea—The Mother's Friend,

The Kind You Have Always Bought

Bears the Signature of

Chas. H. Fletcher.

In Use For Over 30 Years

THE CENTAUR COMPANY, NEW YORK CITY.

PREMIER QUITS

PEKING, Feb. 26.—It is unofficially announced that President Feng Kwo Chang has accepted the resignation of Acting Premier Wang Chin Chen, who on January 10 verbally requested permission to retire. The president at that time declined to accept the resignation.

MADE YEOMAN.

VALLEJO, Feb. 26. — Ernest Wichels, a former Mare Island employee, who enlisted in the naval reserve as a yeoman, left yesterday for San Pedro, where he will be assigned to duty.

CHEESE SUSPECTED

SAN RAFAEL, Feb. 26.—Sheriff J. J. Keating, County Physician Dr. J. H. Kusel and District Attorney Edward L. Butler are investigating the report of Frank Murray of Bolinas to the effect that he had found a quantity of ground glass in cheese purchased at a local store. The cheese was made in Salinas. A thorough inspection of all of the cheese manufactured by the same firm remaining in the store where the Murray purchase was made failed to show evidence of glass.

CLEVELAND

Breaks the World's 24-Hour Record

On Sunday last, Lester Manning of the Oakland police traffic department broke the twenty-four-hour lightweight motorcycle record, riding a

Cleveland Lightweight Motorcycle 621½ Miles in 24 Hours

using but nine gallons of gasoline, averaging sixty-nine miles to the gallon, proving the Cleveland is the most economical method of motor-propelled transportation in the world.

Don't Neglect Your Cold!

In adults the result of a cold is often disastrous. Grip, pneumonia, bronchitis and tonsilitis, not to mention chronic catarrh and numerous other ailments, can all be traced to the general system having been weakened by the attack of a common cold.

The judicious use of

Duffy's Pure Malt Whiskey

when tendency to a cold is first noticed will help to prevent its becoming deep seated and dangerous. It is also efficient to relieve any throat troubles that have already taken hold. Duffy's is made from selected grain thoroughly malted. It strengthens as well as stimulates. Use it at the right time and prevent a break down of the vital forces when you most need vigor to resist the rigors of winter. Do it now—

"Get Duffy's and Keep Well"

Now obtainable in pint size at most druggists, grocers and dealers. If they can't supply you, write us. Useful household booklet free.

Stomach Trouble Cured

Wm. A. De Mooy

Oakland, Oct. 2, '17. My stomach was my master for many years. I am a clerk in the office of the lumber department of the S. P. Co., and after every meal I had an annoying, grating sensation, together with an empty feeling in my stomach. Through lack of nourishment my health was broken and I was in a hospital for several weeks. The doctors first cleaned me out with a stomach pump. Then they treated me for ulcers, and finally, as I did not improve, they observed my digestion through an X-ray. Concluding that they could do nothing for me they sent me home with the suggestion of an operation.

Then a fellow employee who had received a great benefit by drinking the FONG WAN CHINESE HERBS suggested that I try them. The first cup of tea brought me genuine relief, and after a few weeks I was entirely cured. I am back in the office and will be glad to give my personal testimony to any desiring it.

(Signed) WM. A. DE MOOY,
2737 12th Ave.

Middleton and Prough Sign After Tearing Up Contracts

Shipyard and Independent Baseball Activities May Hit the Oaks Hard

By CARL E. BRAZIER

Take the annual spring holdout worries and double them and then add a few more and you will have some idea of the problems that face the Coast League baseball boys around the bay this year. Bill Prough and Roxey Middleton tore up their contracts offered by the Oakland club, and they took the middle of Broadway as the place for the destruction. However, both Middleton and Prough went out to pay the Oakland bosses a visit this morning and before they got away came to an agreement with them and signed a new contract. Billy Lane will stick right in the shipyard, and the tiniest little whisper is going around that "Speed" Martin may join the holdout ranks.

But these holdout worries which are a regular part of the calendar for baseball magnates and managers, are but part of the troubles confronting the Oaks. Ray Kremer is working at the Moore shipyards and is being counted on there as one of the mainstays of the Moore baseball team in the shipyard league. Billy Lane will stick at the Union Iron Works and play with the team there, and the trouble arising from local independent baseball activities seem due to spread to other regions, for Bill Kenworthy at the Hanlon yards is busy rounding up a baseball team for that concern and is [illegible] stay right where he is. In fact, Bill says that he will not go back to the Angels this year.

Pat Kilhullen, who figures to be a big help to the Oaks if he could be landed on an Oak contract, is considering a Crockett proposition to stay up in the sugar town; Pat built up a championship team for Crockett in the winter league and he can have any job he wants there.

The contracts offered Prough and Middleton are said to have quoted figures more than $400 below what they received last year. Speed Martin received a contract for the same as last year, but has not yet decided that he likes the proposition.

MEETINGS THIS WEEK.

And now comes still another cause of worry for the Oak bosses, for with the shipyards organizing an athletic league at a meeting at Spalding's Fan Room, 416 Fourteenth street, tonight, and with representatives of about a score of independent ball clubs gathering Friday night at Maxwell's clubroom, 1320 Washington street, to organize several summer leagues, the young players are undecided as to whether to stand pat for independent ball or take the chance which is offered of getting a tryout with the Oaks. In the meantime no word has been received from Danny Murray, the only regular catcher in sight, and nothing definite from Harry Krause or Happy Goodbred has been received.

The shipyards are offering young ballplayers jobs, for the shipyard boys are going into this athletic league movement with a spirit that exceeds expectations. The independent clubs see one of their greatest seasons ahead and after Friday night's meeting several leagues will be definitely organized and the boys behind the various clubs will be out there trying to land the best players available.

UNUSUAL COMPETITION.

In other words, in addition to war conditions and the draft, Coast League baseball will have shipyard baseball activity and unusual independent baseball activity as competitors this year, and this competition will hit particularly hard on the Oakland club, because the shipyard and independent league activities are centered on this side of the bay. It looks like a great year for the ball player, but it's going to be tough on the managers and magnates.

YOUNG OAKS AT WORK.

Del Howard had some of the young Oaks out yesterday at the Oakland Coast league park where they will get a chance every day this week to cut loose and show what they have. Next Sunday the boys will start for Boyes Springs where training work will start in earnest Monday morning. In the meantime all the young players on the Oak list will be urged to get out this week for the daily workouts at the local park and in this way Howard will be able to devote special attention to the youngsters without any of the veterans around to divide his attention.

Among those who are out for the daily workouts already are:

Eugene Calderia, pitcher with San Leandro Merchants.

Andro Caldera, pitcher who had a tryout with Vernon.

Charles Martinelli, catcher.

Earl Perry, first sacker, Santa Clara.

Nelson (Chicken) Hawks, San Francisco boy and outfielder.

Ralph Croll, infielder.

Paul Kennedy, infielder, Coalinga.

BAUM TO REPORT LATE.

SAN FRANCISCO, Feb. 26. — Spider Baum, who hasn't signed his contract yet, will not train with the Seals at Fresno. Baum would like to go through the paces at the Raisin city, but Uncle Sam has ruled otherwise. He signed an oath when he entered the exemption board and not until late in March will he be released from it. Baum's pitching arm is practically ready for mound duty now.

CLOSE SEAL DEAL SOON.

SAN FRANCISCO, Feb. 26. — The negotiations for the purchase of the Seals from Hen Berry marked time today while Charlie Graham, new part owner and manager, took the legal papers in the case to Sacramento to have his lawyer look them over before affixing his signature. Graham will return tomorrow and the transfer of the club to Graham and his assistants will be completed.

Women Bowlers in Match Game Tonight

Miss Irene Graham, champion woman bowler of Oakland, will roll a five game match with Mrs. Hobbles, champion bowler of King City, at Herold's alleys tonight at 8 p. m. Mrs. Hobbles scored a 234 game in a match at San Francisco on new alleys. Miss Graham has a high score of 259; a hard-fought match is looked for.

Tribune Picks All-Stars for Melrose Game

Championship Trophies to Be Presented at Big Battle Next Sunday.

Local fans will have a chance to see an Oakland Tribune All-Star Midwinter League team in action without going out of Oakland, within the next week or two, and it will not be the Crockett team, winners of the class A division, that they will see them playing. There will be a collection of All Star players picked from among the teams in the class B division of the East Bay Cities Midwinter League, and these class B All Stars will be pitted against the Melrose champions next Sunday, or the one following. If the players can be gathered together for the All Star team to permit playing the game next Sunday, the fans will see the battle then, on the Fruitvale lot.

The Melrose Merchants have challenged The TRIBUNE to pick an All Star team from the class B league for a game with them on the Melrose lot, but if the All Star team is ready this Sunday the game will probably be played at Fruitvale Recreation park. The players to make up the All Star team are selected, with one or two exceptions, and by Thursday or Friday the full roster of players will be announced.

The same ceremonies which will take place at The TRIBUNE All Star and Crockett game will be carried out at this game. The banner and gold coat lapel buttons which The TRIBUNE put up for the winners of the class B race will be presented to the Melrose champions, and after giving the nice things to the boys who fought so hard for them, The TRIBUNE will turn right around and turn their All Star team loose on them, with the idea of giving them their first beating since grabbing the honor of champions.

The Fruitvale ball park will be vacant next Sunday, as the Fruitvale Natives will be at San Leandro, playing the cherry pickers, in their second game of the season. By playing the Melrose-All Star game on this lot, the players would be coming in for their first out since playing in the Midwinter League, and a game of this kind should draw out just as large a crowd as would any of the class A teams. The class B boys have played great ball all season, and were drawing out as large crowds as were the class A boys, and the fans would surely want to see the Melrose champions meeting an All Star team picked from the other teams. If possible to get the services of the players selected, the champions are due to get their first beating in a long while next Sunday.

Any fans who have a good idea of an All Star team of class B players are requested to send in the names of the players. Of course, it will not do to include the names of any of the Melrose players.

Grizzlies Find No Games; Start Back to Camp

Local Fans Get No Chance to See Southern Team in Action.

Failing to get permission from Camp Kearney to stay the rest of the week around the bay cities, the Grizzlies baseball team, 15 in number, departed this morning for Camp Kearney without the local fans having a chance to see how well they can perform on the baseball diamond since becoming soldiers.

The Grizzlies arrived here last Thursday night expecting to play with the Quartermasters, Marines and other teams, and in that way make expenses to carry them home on Monday. But on Friday and Saturday rain made it impossible for them to play. When it was seen that there was no chance to play any games at the last week-end Sergeant Herne, in whose charge the Grizzlies made the trip, wired to Colonel Mullally for an extension of leave until next Monday, but because of a Navy tournament which starts this week in the south and in which the Grizzlies are to participate, the colonel refused the boys the extended leave.

So now the Grizzlies, with Red Baldwin, Wiz Pappa, Walter Croll and other local baseball favorites, are on their way to Camp Kearney. The only money which the team received on this end was the [illegible] War Camp Community Service committees, which made good the guarantee even though having no chance to stage a game.

Baseball Lecture on Muscle Care to Aid Young Players

Semi-pro and amateur baseball players from all over the county are invited to attend a lecture which will be given on Friday night in room 1 of the county court house at Fifth and Broadway. Clarence Yolugh of the University of California will deliver a lecture of much aid to the young ballplayer.

He will have a number of charts from which he will describe the workings of the muscles of the throwing arms and how these muscles should be treated by the players when giving them trouble.

Del Howard, Cal Ewing and "Speed" Martin will also be on hand, and they are expected to give talks that will be of interest to the young players.

SANTA CLARA VS. MARINES.

The Santa Clara varsity baseball nine will tackle Duffy Lewis' Marines team tomorrow at Mare Island. Rain prevented the game from being held last week on the college grounds. "Bub" Spencer has been coaching the college nine and has found three good heavers in Berg, Leavey and Durkin.

Billiard Notes

John Horgan and Harry Wakefield played the first exhibition of the week's engagement at the Oakland billiard parlor last night, Wakefield winning, 50x47. While the game was rather slow at the start, due to the table being equipped with new cushions and new cloth, the players soon got on to the rolls of the table. Horgan was in front most of the time, but there was never a difference of more than 3 points. Wakefield made the high run of 6, which he gathered in the last part of the game. Horgan's high run was 4. The game was played in 66 innings.

Wakefield and Horgan will attend the Ad Club luncheon at the Hotel Oakland today. Wakefield will make a short talk on billiards, after which he and Horgan will play an exhibition game.

Every afternoon at 3 p. m. Wakefield plays fancy and trick shots, and at 8 p. m. Horgan and Wakefield play 50 points at three cushions.

Oakland High Team Blanked by St. Mary's

School Team Looks Weak at Bat Against College Pitchers.

By EDDIE MURPHY.

If the Oakland High school baseball teams hope to have a chance for the championship in the Alameda County High School League which starts its season next Wednesday, their manager needs to add a couple of players to his list who can swing the bat a little harder on the ball than can some of the players in the present lineup.

Out at St. Mary's college grounds yesterday afternoon, Oakland High was defeated by the Phoenix team of the college by a score of 6 to 0 score. One bit in seven innings is the best that the Oakland hopes could secure off the pitching of Lambert and Oeschger of the college. The lone hit came in the last inning off Oeschger, who relieved Lambert after the fifth inning. Lambert pitched great ball while on the mound for the Phoenix and only one runner went as far as second base and that was when Lambert made a wild throw to first in the fourth inning. In the two innings that young Vernon Oeschger pitched, he fanned five batters and was touched for the only hit of the game for Oakland. [illegible] Finnemore pitching for the Oakland team, looked good in the box outside of the first inning, when the Phoenix team jumped on him for two runs and four hits. To open the inning, Gowanlock singled to left, Mitchell hit one in front of the plate and both runners were safe when the ball arrived at second too late to catch Gowanlock. Tom Kelley followed with a double to center field to score the two runners ahead of him, and when he tried to take third after the throw to the plate, he was thrown out by Goldberg. Scott hit to second, but Cunningham flied to Bullock to close the inning.

Finnemore then held the Phoenix hitless until the fourth when they made another run. Medlin walked, went to second on a passed ball and scored on a hit to center by Lambert. The fourth run of the game came in the next inning when Kelly beat out a rap in front of the plate, went to third on Brandon's single to center. Scott was out, Bullock to Cutting, Cunningham walked, and Kelly came home while Medlin was being thrown out on his grounder to Sherman.

The Phoenix added their last two when Oeschger, first up in the sixth inning, walked, stole second and third; Gowanlock walked, and stole second; Mitchell was out, Sherman to Cutting, Oeschger and Gowanlock scoring on the play. Kelly flied to Sibert, Brandon singled to center, but Scott forced him at second to end the inning.

Cutting led off with a hit in the seventh, but the next three batters were easy outs and the game ended there. The score:

OAKLAND HIGH.	AB.	R.	BH.	SB.	PO.	A.	E.
Gleason, lf	3	0	0	0	1	0	0
Sherman, 3b, 2b	3	0	0	0	2	1	0
Goldberg, c	3	0	0	0	1	2	0
Bullock, 1b, 3b	3	0	0	0	7	2	0
Thompson, s	2	0	0	0	1	2	1
Bloomheart, rf	2	0	0	0	0	0	1
Johnstone, 2b	3	0	0	0	0	1	0
Sibt, cf	2	0	0	0	1	0	2
Fennimore, p	2	0	0	0	2	0	0
Cutting, 1b	1	0	1	1	3	0	0
Totals	24	0	1	1	18	8	4

ST. MARY'S COLLEGE.	AB.	R.	BH.	SB.	PO.	A.	E.
Gowanlock, s	3	2	1	1	0	2	1
Mitchell, 3b	4	1	1	0	0	0	0
Kelly, 2b	4	1	2	0	2	1	0
Brandon, cf	4	0	2	1	1	0	0
Scott, lf	4	0	1	0	0	0	0
Cunningham, 1b	3	0	0	0	7	0	1
Medlin, rf	1	1	0	0	11	0	1
Keane, c	3	0	0	0	0	0	0
Lambert, p	2	0	1	0	0	3	1
Oeschger, p	0	1	0	0	0	0	0
Totals	27	6	8	4	21	6	4

Runs and hits by innings:										
Oakland High	0	0	0	0	0	0	0	—	0
Base hits	0	0	0	0	0	0	1	—	1
St. Mary's	2	0	0	1	1	2	*	—	6
Base hits	4	0	0	1	2	1	*	—	8

Summary: Two base hit—Kelly. First base on called balls off Finnemore 6, off Lambert 2. Struck out by Fennemore 1, by Lambert 2, by Oeschger 5. Double plays—Gleason to Thompson, Gowanlock to Kelly to Cunningham. Passed balls—Goldberg 2. Time of game—1h 25m. Umpire—Remmer.

Steve Yerkes, the former Red Sox, may return to the game as a member of the Cardinals.

Greatest Heavyweight Go of Generation Is in Sight When Fulton Meets Dempsey

Moran and Brennan Put Out of Running by the Knockout Route

MILWAUKEE, Wis., Feb. 26.—Jack Dempsey and Fred Fulton will meet in this city about May 1. Tom Anderson of New Orleans signed Fulton following his victory over Moran, and then got a promise from Dempsey that he would accept the match if terms are satisfactory. Betting here probably will be two to one Dempsey beats Fulton.

NEW YORK, Feb. 26.—The greatest heavyweight battle of the generation is in the making. The man who can sign Jack Dempsey and Fred Fulton, calling for a bout between them of any length, will have produced a fight card unequaled since the days of Sullivan, Corbett, Fitzsimmons and Jeffries. For pure fighting action, it will surpass the Jeffries-Johnson miscalled battle and should roll just as many dollars through the gate.

There was no need for surprise over Fred Fulton's easy victory over Frank Moran. There is no reason for any one to express astonishment over the fact that Fulton didn't turn tail and run when he was hit hard.

As for the Dempsey-Brennan scrap in Milwaukee—it was merely the elimination of one good man pitted against another. Dempsey has proved himself a master fighter and so has Fred Fulton. Just now they stand alone in the heavyweight class. When one of them whips the other he has taken the step that will bring him a championship, in the opinion of practically every fight follower in America.

Milwaukee promoters are said to have practically clinched a match between Fulton and Dempsey, to take place about May 1.

BRENNAN'S FIRST KNOCKOUT.

MILWAUKEE, Wis., Feb. 26. — Just one man—Fred Fulton—stands today between Jack Dempsey, the shiftiest two-fisted fighter since Bob Fitzsimmons, and Jess Willard, the heavyweight champion of the world. When Dempsey fights as he fought against Bill Brennan here last night, no lesser man can stand against him.

Dempsey knocked Brennan out in the sixth round, and it was a masterly piece of work. Very few fighters have taken a better licking or taken their licking better than Brennan did last night.

In sixty-seven fights Brennan had never been knocked off his feet, and his record includes a list of about forty knockouts. Dempsey knocked him down four times in the second round and twice in the sixth. That ought to be answer enough to the question, can Dempsey hit?

FULTON STOPS MORAN.

NEW ORLEANS, Feb. 26—Fred Fulton knocked out Frank Moran in the third round of their scheduled 20-round battle here last night.

The former plasterer made short work of the sorrel topped Pittsburger, bringing his mighty right swing into play. Moran displayed gameness and was putting up a wonderful scrap until he suddenly wilted under the terrific smash which came just after the start of the third round.

Moran started the first round by rushing Fulton and landing right and left hooks to the face, following with right and left swings to the head. Fulton retaliated with right and left jabs to the body and a right cross that cut just above the Pittsburg man's right eye, starting blood.

In the second round Moran opened with hard jabs to Fulton's ribs, followed by a shower of rights and lefts to his opponent's face. After driving Fulton into a corner he landed repeated right and left hooks to the big fellow's head.

Fulton weighed 215 and Moran 198.

DEMPSEY STOPS BRENNAN.

MILWAUKEE, Wis., Feb. 26. — Jack Dempsey stopped game Bill Brennan in the sixth round of a dazzling though one-sided battle and demonstrated that he surely is worthy of a whack at Fred Fulton in a runner-up contest for the opportunity to combat with Jess Willard.

Referee Walter Houlihan stepped between the warriors before the sixth spasm had gone very far and halted hostilities because he concluded that Brennan had taken enough punishment.

Dempsey hit Brennan with everything in the punching line from the start of the second round and every time he connected he hurt. He clouted with stunning force and had Bill on the floor five times before the finish. Brennan was on his feet but bleeding and groggy when Houlihan signaled his seconds to take him away.

Jack won the argument in the second round, when he had poor Bill on the canvas four times. The other upset came in the sixth just before the curtain was rung down on the championship aspirations of the Chicago mauler.

O'DOWD BEATS CREB.

ST. PAUL, Minn., Feb. 26. — Newspaper critics gave Mike O'Dowd of St. Paul, claimant of the middleweight championship, a shade over Harry Creb of Pittsburg at the end of a 10-round bout here last night. Creb did most of the leading, but could not get inside O'Dowd's left hand.

LEWIS OUTPOINTS BARTFIELD.

PHILADELPHIA, Feb. 26. — Ted (Kid) Lewis, welterweight champion, outpointed Soldier Bartfield in a six-round bout at the Olympia A. A. here last night.

DAVIS BEATS CHAVEZ.

SALT LAKE CITY, Utah, Feb. 26.—Id Davis of Salt Lake last night won a decision over Benny Chavez of Denver before the Manhattan Club.

Bobby Munger of Salt Lake defeated Young Hurley of New York in four rounds.

KID WILLIAMS WINS.

DENVER, Feb. 26.—"Kid" Williams of Baltimore, former bantamweight champion of the world, was awarded a decision over Joe "King" Leopold, at the end of their ten-round match here last night, by Referee Abe Pollock of Denver.

Summer Leaguers to Meet Friday to Plan for Season

Managers and representatives of semi-pro and amateur teams from all parts of Northern California are requested to be present at a meeting which will be held in the meeting room of the Maxwell-Hardware Company at 1320 Washington street next Friday night March 1.

At this meeting which will start at 8 o'clock, it is planned to form a number of leagues for different parts of the State, and a large number of managers and representatives are expected to be present. The meeting will be open to anybody interested in the forming of leagues. No invitations are being sent out, so everyone who attends can feel that he can have just as much to say as anyone else.

If any representatives of outside towns are unable to attend they are requested to phone the sporting editor of The TRIBUNE, Lakeside 6000.

Jimmie Dundee Up Against Tough One in South Tonight

Jimmy Dundee, the local bantamweight, is today down in Los Angeles where he is waiting to step into the ring at Doyle's arena tonight for his scrap with George Adams, the fast boy who put Charley Moy away a week ago. The little local boxer left here along with Red Chalbers on the Lark, Sunday, and was in great trim after his battle with Duffy, outside of a bruised eye which was fast losing its dark color.

Fans who have seen Adams in action, say that Dundee is in for the hardest fight he has yet had. He is said to be a ringer from the east going under an assumed name, and has fought such well learned boxers as Johnny Coulon, Kid Williams and Frankie Burns. Besides being a fast stepper, Adams is credited with being one of the hardest hitters for his weight in the ring. But Dundee is game and will step into the ring tonight ready to give or take what he can.

If Dundee can hold Adams to as much as a draw, is all that his manager, Peto Nolan, wants, and he says when the fans may begin to realize that his little boxer is as good as any of the boys of his class around here. Nolan wanted to make the trip south with Jimmy, but he got married a couple of weeks ago, and the lady of the house would not let him get away, so he sent Dundee down in the care of Red Chalmbers.

Presidio Team Meets Fremont Friday Night

Basketball Championship of Service Men Is at Stake on Y. M. C. A. Court.

Army and navy basketball championships will be settled at the local Y. M. C. A. court Friday night. The Eighth Company team from Camp Fremont which was not given a chance to play in the Washington's Birthday tournament here owing to a mixup at the camp which resulted in sending two teams here, will play the fast Presidio bunch which won the tournament in the Auditorium. Basketball followers who saw those games at the Auditorium last Friday know that they have a fast hard battle in store and the Y. M. C. A. court should draw the biggest crowd of spectators it has had this year.

At the time of the Service Men's Day tournament, the Eighth Company team protested the ruling that refused it a chance to play. The Eighth and Thirteenth Company teams were on hand from Camp Fremont, each claiming to have the better team. Bud Kearns, the Y. M. C. A. physical director, who was in charge of the basketball end of the program, tossed a coin and ruled that the Thirteenth company team would be the one to play. To satisfy the Eighth company team he announced that the winner of Friday's tournament would be given a chance to play the Eighth Company team within the next week.

The game next Friday night at the local Y. M. C. A. is the result of this agreement. In the meantime the wrist watches which were to go to the winner of the basketball tournament have been held up and will go to the members of next Friday's winning team which will be entitled to claim the title of the coast champions for Service Men.

With this game coming up, the central California entry for the big basketball tournament that is being planned at the Auditorium will be determined. Against this team will probably be sent the St. Mary's College, Stanford University, Oakland Golds, and four other top-notch teams in a big tournament for the unlimited basketball championship of the coast.

George Hjelte, former local basketball star, is now at Camp Lewis, and if his camp team comes here as the best northwest team for the tourney, there will be plenty of basketball fans out to see him in action again. In a letter to Kearns at the Y. M. C. A. Hjelte says that there will be no difficulty in arranging a trip here for a basketball team from Camp Lewis, and in return the Camp Lewis boys are willing to bear their share of the expense to take the best club from around this part of the state to the northwest on a tour to play college and service men's teams.

With a northwestern trip in sight in addition to the title of coast champions, there will be plenty of incentive for the best basketball teams in the game to get into the local tournament.

Greyhound Polymelus Wins Coursing Meet

Roy S. Avery's greyhound Polymelus won the Sixteen Dog Champion Stake of the California Coursing Club held Sunday out of Dixon. Polymelus defeated Napa Girl in the finals, 18 points to 12. In the first round Polymelus was pitted against Oakland Pep and in the second round Avery's greyhound ran against Hudson Boy. The results:

Hudson Boy defeated Banshee, Polymelus defeated Oakland Pep, Richmond King defeated Young Royal Gold, Napa Girl defeated Tralee Girl. Second round—Polymelus defeated Hudson Boy, Napa Girl defeated Richmond King.

Clay Turner, a clever and game middleweight, claims to be a full-blooded Indian, although he has a decidedly Caucasian appearance. Of the half-breeds of early ring days none achieved any distinction, and most of them were flat failures.

Alameda County School Athletic League Gossip

At the Oakland Auditorium tomorrow afternoon the first of the three games on the schedule for the Alameda County High School Basketball league will be played with Berkeley meeting the Vocational quintet, while on the following day the big battle for second place between the Oakland and Technical team will be the attraction and on Friday the season will come to a close with Fremont high due to add another game to their perfect record in meeting the Vocational team.

With two games for them to play of the three on the schedule, the Vocational team has a chance to work its way up to third place, but that chance is about one out of 20. With Oakland and Tech. on even terms and battling for second place, someone of the two will have to finish with 3 wins and 2 defeats, and that would be the same record which Vocational would hold if it won its two games. Vocational stands a good show to beat Berkeley tomorrow, but hardly anyone figures them to beat Fremont on Friday, which makes it appear that they will have to be satisfied to finish in fourth or fifth place.

If the outcome of Thursday's game between Oakland and Technical were to depend on the showing of the two teams against Fremont, Tech. would be the favorite, as they gave the Fremont team their hardest game, while Oakland was easy victim for Fremont. But many a time the old dope has been upset and the Oakland followers can still look to their team as a second place contender.

Right after Friday's game, Coach Walter Le Baker of Fremont will try to arrange games with the army and navy teams, as well as the other fast teams in the State. Le Baker will have the green and gold team out on the Oakland "Y" court tomorrow night for a game with the Oakland Golds.

With Old Sol casting his rays down on the baseball diamonds yesterday afternoon, a big number of ball players trying out for the high school teams were out for practice and cut themselves loose for the first time in more than a week.

The Fremont team had a couple of practice games to play last week, but the rain put the damper on them. Yesterday Le Baker and his assistant, Eddie Brennan, had the players out at the Melrose lot and put them through some stiff practice.

Next Wednesday is the day for the start of the baseball season in the 7 big schools, which leaves the managers with just one week to look their players over and pick their regular lineups. Gene Fitzgerald, the Technical captain, has about decided on his lineup, but the other managers are still guessing. Fitzgerald had practically the same players of last year's team, and had no trouble in lining up his team, while the other schools will be represented by many new faces.

A schedule published a week or so ago, calls for the Fremont and Berkeley teams to play the first game, but where this schedule came from no one connected with the high school doings seems to know. The schedule extends until May 3, with Oakland and Technical meeting in the last game.

Shipbuilders to Meet to Organize League Tonight

The committees on baseball and boxing for the Shipbuilders' Athletic League will gather tonight in a meeting at the fan room of the local store of the A. G. Spalding sporting goods house at 416 Fourteenth street, between Broadway and Franklin.

The meeting, which will start at 8 o'clock, will deal mostly on the drawing up of a baseball schedule and a card of bouts which are likely to be staged some night next week. Bill Kenworthy, who has been given charge of the baseball affairs at the Hanlon yards, will probably be one of the committee to be present. On the boxing committee are Pete Nolan and Bill Shafer of the Union Iron Works, A. C. Berg and G. M. Glidden of the Moore yards and A. T. Hiefield of Hanlon's yard. On the baseball committee are Al Earle of the Union Iron, Joe Tobin for Moore's yard and Bill Kenworthy and A. T. Hiefield of Hanlon's.

BASKETBALL NOTES

The Oakland Independents will play the St. Mary's Varsity basketball team on the latter's court tonight at eight o'clock. The St. Mary's boys have made a clean-up of the college basketball league, but the Independents will, in all probability, give their more experienced opponents a good argument.

The Independents are made up of former Oakland high school stars, and are anxious to get games with any unlimited teams, but it seems to be pretty hard for them to get games with any of the local teams, except the Golds, who are altogether too fast for them. Saturday night the team will journey up to Martinez for a game with the Martinez Athletic Club team, and will make a trip to Fresno the middle of March. The schedule is not very well filled up, and any team wishing a game with these boys should call up Oakland 1314 during the day or Piedmont 1376-J at night.

The 130-pound Olympic Club basketball team, winner of the divisional championship in the P. A. tournament, defeated the Y. M. I. 145-pound team Sunday morning at the Olympic Club, 46 to 32. The Olympic team will play the University of California Wednesday at the San Francisco Y. M. C. A. for the right to tackle Fresno for the state championship.

Saturday night the Olympic Club 145-pounders went to Sebastopol, where they defeated the Analy High school team by a score of 21 to 16. These two teams have met twice before, the Olympic team winning each time, but in Saturday's game the losers displayed more speed and class.

The Hayward High School basketball five defeated the 130-pound team of Commercial Evening High School Saturday evening by a score of 25 to 24. The score at half time was 15 to 10 in favor of Hayward.

The Mohawk Athletic Club basketball five were presented with a pennant at a meeting of the club in honor of the team's victories this season. The Mohawk team has played practically every team in Santa Rosa and has lost only one game. The team will meet the Oakland High School five Thursday.

The Fremont High School basketball team of Oakland will play the Olympic 145-pound team tonight at the Olympic Club.

The 120-pound Willows play the Y. M. C. A. team at the Y. M. C. A. tomorrow night in the P. A. tournament.

The Hercules 120-team defeated the Plymouth Center bunch Saturday night, by a score of 42 to 19. At the end of the first half the score was 27 to 11, in the "Hercs'" favor. Cleary scored eight goals for "Hercs" and two fouls; Copple scored six goals and one foul; Simenson scored four goals and one foul; Hanson scored one goal, shooting three-quarters the length of the court; Tenney showed his good guarding. The line-up of Hercules: Copple and Cleary, forwards; Simenson, center; Hanson and Tenney, guards. Tonight, at Crockett, the Hercules team expects to play their hardest game against the Crockett Boys' Club, that beat the Baby Golds, by two points.

STOCKS and BONDS BY DIRECT WIRE FROM EXCHANGE BOARD QUOTATIONS NEW YORK CHICAGO SAN FRANCISCO PRODUCE and GRAIN LOCAL EASTERN & FOREIGN FINANCE

Stocks Move to Higher Levels — Prices of Industrials Advance

NEW YORK, Feb. 26.—The stock market moved to higher levels in the latter part of today's session after early hesitancy due to the more uncertain aspects of the foreign situation.

Special stocks, notably those comprising the war group, were one to two points higher at the opening, presumably in consequence of overnight advices from abroad. Shippings also were materially better, but rails made little response, St. Paul issues displaying further heaviness. Much of the early trading owed its initiative to pools and short covering. Liberty bonds were inactive, but steady.

Dealing diminished perceptibly after the first advance with fractional reactions in leaders due in part to further pressure against St. Paul and General Motors. Later prices ranged higher than at the outset, marked strength being shown by Baldwin Locomotive, Texas Company, Industrial Alcohol, Sumatra Tobacco, Hide and Leather preferred, Beet Sugar and Pittsburgh Coal. Minor specialties and low-priced equipments also improved.

The market was almost at a standstill during the mid-session, trade centering in a few equipments and specialties. Baldwin Locomotive and Sumatra Tobacco were the chief features at extreme advances of 3½ and 2¾ points, respectively.

Stocks were at their best in the final hour, rails, shippings and steels leading at extreme gains of one to four points. The closing was strong.

The course of prices in today's trading is indicated, for the different periods, in the following:

OPENING—The overnight news developments were reflected in a strong tone at the opening, initial prices showing advances of from one to two points. Steel common rose one point to 96⅛ and Baldwin Locomotive advanced 1½ to 73¾. Bethlehem Steel "B" gained one point to 81½. Marine common sold one point higher at 29½, while the preferred rose to 98¼. Atlantic Gulf advanced ¾ to 112½. National Enamel continued its upward movement, selling one point higher at 53½, while Texas Company rose 1¾ to 149. Alcohol gained 1¼ to 122 and Chandler Motors advanced 1½ to 95. Pittsburg Coal was unusually active, selling 1½ higher at 58¼. General Motors continued under pressure, yielding 1¾ to 119¼. Copper issues showed fractional upturns.

FORENOON—Nearly all the active issues maintained a strong tone during the greater part of the forenoon. Steel common held around 96, an upturn of about one point. Baldwin Locomotive moved up above 75. Pittsburg Coal was in demand, rising 1¾ to 58½. The Marine issues reflected accumulation, both the common and preferred making gains of about one point. St. Paul common dropped 1¾ to 38, while the preferred, after dropping to 68⅛, moved up to 69½. Money loaning at 4 per cent. Liberty 4s sold down to 96.74, while the 3½s sold at 97.98.

CLOSING—The market closed strong. Government bonds were unchanged; railway and other bonds steady. Total sales, 444,500 shares; bonds, $3,512,000.

N. Y. Sun Review

NEW YORK, Feb. 26.—The New York Evening Sun financial review today said:

There was practically no outside buying and professionals again had the field to themselves until the late trading. The movement today was fractionally upward with pronounced strength in the last half hour.

The news developments, as well as a rise in call money to 6 per cent, had little effect on the market. The opening was higher with stocks up a fraction to 1¼, except General Motors. Steel and copper stocks made fractional additional advances as well as Union Pacific and Reading, without any display of activity.

Weakness was shown by motor stocks, led by General Motors, which at one time was 1½ points below the previous closing.

In the late trading there was a brief period of strength and activity in the rails, Union Pacific and Canadian Pacific making a new high for the day.

In the last half hour, on short covering, the entire list advanced, many issues making new highs for the day, with United States Steel at 97⅛, showing a gain of 2 points.

Money Market

NEW YORK, Feb. 26.—Mercantile paper, 5½@5¾ per cent.

Sterling—Sixty-day bills, $4.72½; commercial, 60-day bills on banks, $4.72; commercial 60-day bills, $4.71½; demand, $4.75¼; cables, $4.76 7-16.

Bar silver, 85⅛c.

Mexican dollars, 68c.

Government and railroad bonds easy. Time loans strong; 60 days, 90 days and six months, 6 bid.

Call money strong; high 6, low 4, ruling rate 4, closing bid 3½, offered at 4, last loan 4.

LONDON, Feb. 26.—Bar silver, 42½d per ounce. Money, 3 per cent.

Metal Exchange

NEW YORK, Feb. 26.—Metal Exchange quotes lead firm; spot, $7.25@7.50. Spelter, quiet; East St. Louis delivery, spot, offered at 7.75c.

Cotton Market

NEW YORK, Feb. 26.—Business at the opening of the cotton market today was active and the list firmer, with prices 4 to 22 points higher. There was some realizing after the start, but at the end of the first fifteen minutes of business prices were four to fifteen points net higher on the active positions.

FUTURES

LEGAL NOTICES.

ANNUAL MEETING OF THE STOCKHOLDERS OF SAN FRANCISCO-OAKLAND TERMINAL RAILWAYS.

The annual meeting of the stockholders of the SAN FRANCISCO-OAKLAND TERMINAL RAILWAYS will be held at the principal office of said corporation, said principal office being situated at room number 315 on the third floor of the building known as the Key System Building, the entrance to which building is number 2183 Grove Street, in the City of Oakland, County of Alameda, State of California, on Tuesday, the 5th day of March, A. D. 1918, at the hour of 4 o'clock in the afternoon of said day; said meeting being held for the purpose of electing a Board of Directors to serve for the ensuing year and for the transaction of such other business as may come before the meeting.

F. W. FROST.
Secretary of the SAN FRANCISCO-OAKLAND TERMINAL RAILWAYS.
Dated: February 16th, 1918.
Principal office, room 315, number 2183 Grove Street, Oakland, California.

NOTICE OF ANNUAL MEETING.
Oakland, Cal., Feb. 21, 1918.
Notice of annual meeting of STOCKHOLDERS of Death Valley Railroad Company.

Notice is hereby given that the annual meeting of the stockholders of Death Valley Railroad Company will be held at the office of the company, room 504, First Savings Bank Building, Oakland, California, on the fourth day of March, 1918, at the hour of ten o'clock A. M. of said date, for the purpose of electing directors for the ensuing year and to transact such other business as may properly come before said meeting.

C. R. DUDLEY, Secretary.

NOTICE OF NON-RESPONSIBILITY.
We, the undersigned, have sold the paint business and store located at 1767 Alcatraz avenue, Berkeley, California, to Mrs. Medora B. Yarnell and Mrs. Ella E. Garcia, and are in no way responsible for any debts or obligations contracted thereon. All outstanding bills must be presented on or before February 26, 1918.
(Signed) M. R. GARCIA.
WM. HEARN.

Dock and Deck

The new auxiliary schooner Palawan finished loading her cargo at the new West Oakland waterfront, and left there yesterday, waiting for her crew in the stream. She was built at Stone's shipyard, East Oakland, for the Atkins & Kroll company. She is on her way to New Zealand, and from there will bring copra to this port. She is the first vessel to load a cargo at the new Oakland wharf.

Latest charters reported for steamers are: Japanese steamer Taiyo Maru, which will load a cargo of merchandise at this port for Yokohama and Kobe in April for Struthers & Dixon; steamer Tahoe loads lumber at Grays Harbor for this port; steamer Arctic loads lumber at Fort Bragg, Coquille River for Oakland; steamer Katherine to load lumber at Eureka for San Pedro.

The steam schooner Arctic arrived from Monterey in ballast, where she went for a cargo. Her owners called her to go out to search for the steamer Noyo, which is floating helplessly near Fort Bragg. Both craft are owned by the Union Lumber Company and if Captain Linder succeeds in finding the vessel he will attempt to tow her to this port.

VESSELS ARRIVE WITH HEAVY CARGO.

Many large cargoes reached port during the past 24 hours. The Johanna Smith brought 1,500,000 feet of lumber to Oakland for the C. A. Smith Co. The ship Star of Italy brought 33,582 bags of sugar from Honolulu. The Danish motor schooner Chile brought a cargo of 8235 tons of merchandise from Calcutta and Singapore, most of which will be reshipped by rail from Oakland. It is the largest cargo brought here by a single vessel for some time.

Captain Fred Herriman has been appointed master of the steamer Point Loma, a craft at the Columbia river just completed for the government. Herriman is well known here, and is the son of Captain Albert Herriman, formerly of the stevedoring firm of Herriman & Mills. He leaves today for Portland.

Several of the Alaska fishing fleet which were sent out as merchant vessels last winter are still at sea, and making for the Golden Gate with all haste, as they are due to leave here for Alaska about April 1. Ten of the craft which have been used on the coast have returned home, and are at Oakland shipyards overhauling and getting into shape before loading their stores and provisions.

As soon as the cargo of wheat is unloaded from the motor schooner La Merced, she will take another cargo of case coal oil from Point Richmond to Australia. The vessel arrived here February 20.

JOHN AND WINTHROP IS EXPECTED DAILY.

The schooner John and Winthrop is daily expected in port from Auckland, New Zealand. She is out 50 days, which is considered a long passage compared to other vessels which have arrived here from that port. No fears are felt for her safety. Captain Mercer is in command of the vessel, which was the last of the whaling fleet in Oakland harbor to be sold and converted into a cargo carrier.

Change of masters registered at the U. S. Custom House: Captain O. C. Orsland, steamer Willamette; Captain J. B. Parks, steamer Farragut; Captain Edw. Jensen, steamer Reform; Captain G. Gallia, steamer Stanwood; Captain C. H. Macloon, steamer Atlas.

Sun, Moon, Tide

Chicago Grain

CHICAGO, Feb. 26. — Renewal of peace gossip gave a moderate down turn today to the grain markets.

Corn was bearishly affected also by fine weather and by liberal receipts. On the decline, however, commission house buying increased and something of a reaction ensued. Opening quotations which ranged from ⅛ to ¼c lower with March not quoted and May $1.25⅝ to $1.25¾ were followed by a slight rally.

The close was steady at the same as yesterday's finish, with February $1.28 and May $1.26⅞.

Oats showed more decided weakness than corn but also reacted more decidedly. After opening ⅛ to ⅝c lower with May 87½ to 87¾c, prices underwent a further sag and then ascended to above yesterday's finish.

Provisions advanced owing to scantiness of offerings.

Corn—No. 3 yellow, nominal; No. 4, $1.59@1.70.

Rye—No. 2, $2.50. Barley, $1.70@2.05. Timothy, $5.00@8.25. Clover, $22.00@33.00.

The close:
Corn—Feb., $1.28; May, $1.26⅞.
Oats—March, 88¾c; May, 87⅝c.
Pork—May, $48.35.
Lard—May, $26.12; July, $26.32.
Ribs—May, $25.35; July, $25.75.

Grain, Provisions

Following were the closing quotations:

Option—	Open.	High.	Low.	Close.
CORN—PER BUSHEL.				
May	1.26⅝	1.27	1.26⅝	1.26⅞
OATS—PER BUSHEL.				
March	.88⅞	.89½	.88½	.88⅞
May	.87⅞	.88¾	.87⅞	.87⅝
PORK—PER 100 LBS.				
May	48.65	48.65	48.20	48.35
LARD—PER 100 LBS.				
May	26.15	26.17	26.05	26.12
SHORT RIBS				
May	25.35	25.45	25.30	25.35

Local Produce

Rises in oranges and apples, predicted in the early part of last week as goods became scarcer, went into effect today, all smaller varieties of oranges and practically every variety of apple being affected. Vegetables, new crop, also saw readjustive changes as the supply changed. Cauliflower rose, as did cabbage, and bell peppers sold a shade over what they had brought yesterday.

Citrus fruits—Oranges, Navels, Sunkist, $4.25@6, according to size; choice, $4@5; others, $4@4.75, according to size; Tangerines, $2.25@2.50, half orange boxes.

Lemons—Sunkist, $6@6.50; fancy, $5@6.25; choice, $4.25@5.25; others, $3.75@4, according to quality; lemonettes, $2.50@3.25.

Grapefruit—Sunkist, per box, $2.25@3.00; choice, $2@2.50; lemonettes, $1.50@2.25; limes, new Tahiti, nominal.

Tropical fruits—Central American and New Orleans bananas, 4½@5c per lb; Hawaiian, 4½@5c; coconnuts, nominal; pineapples, nominal.

Apples—Oregon, Spitzenbergs, extra fancy, $2@2.25; fancy, $1.75@2; choice, $1.65@1.85; Newtown Pippins, Cal., 3½-tier, $1.65@1.75; 4-tier $1.50@1.65; Permains, $1.50@1.60; 4½-tier, $1.25@1.30; Missouri Pippins, 4½-tier, $1.10@1.15; 4-tier, $1.35@1.40; Black Twigs, fancy, $1.50@1.65; all sizes, Winesaps, fancy, $2.15@2.25; ex. fancy, $2.40@2.50, and Golden Ortley, nominal; Gano, nominal; red Baldwins, choice, nominal.

Pears—Winter Nellis, from cold storage, $2@2.25.

Potatoes—No. 1 Rivers, per 100 lbs, $1.50@1.75; No. 2 Rivers, 75c@$1 per sack; Nevadas, $1.50@1.90; Idahos, $1.50@1.65 per 100 lbs; Salinas Burbanks, per 100, $2.

Alligator pears—Nominal.
Sweet potatoes—Cellar, $5@5.50.
Onions—Locals, $2@2.25.
New garlic—3@4½c.
Tomatoes—Per small lug, $1.75@2.25.
Pumpkins, sack, 75c.
Artichokes—30@60c, according to size.
Asparagus—River, 30c.
Lettuce—L. A., $1.50@1.65 per crate.
Celery—Local, 20@30c per dozen, [illegible] per crate.
Cucumbers—Santa Cruz hothouse, $1.50@1.75 per dozen.
Rhubarb—$2@2.25 box; San Leandro, 11@12c a lb.

Sheep—Receipts, 4000; market strong to 10c higher. Lambs, $16@16.55.

BUSINESS IS GOOD

The annual statement of the Equitable Life Assurance Society of the United States gives evidence of the company's continued progress.

Increases are shown in new insurance, outstanding insurance, assets and income. The interest rate for the year increased and the mortality rate decreased. The payments to policyholders in 1917 aggregated $62,831,172, making a total since organization of $1,162,589,011. The insurance on the company's books now amounts to $1,754,868,908, an increase for the year of $147,779,327. The new insurance paid for totaled $251,344,652, covering 190,000 lives. Of 6792 domestic death claims paid during the year over 98 per cent were settled within one day after the receipt of the proofs of death.

The local office in the Union Savings Bank building, under the management of Benjamin F. Shapro, reports splendid progress, 1917 having proven the most prosperous in the history of the Oakland office.

TAKE OFF TAX

WASHINGTON, Feb. 26.—Exemption from the stamp tax of short time notes given by member banks to federal reserve banks to facilitate issues of Liberty bonds and war savings certificates, was agreed upon today by the House ways and means committee.

All will be sold; no reserve; no limit.
ERNEST FEIGENBERG, Auctioneer.

DRIED FOOD GAINS

The production of preserved and dried foods in California during 1917 is estimated by the Western Canner and Packer as follows:

"The impetus of war made the year 1917 the greatest ever known to the industry and trade devoted to the production of canned and dried foods in the Pacific region. California's production of canned fruits amounted to 7,855,000 cases as compared with 6,713,005 in 1916, of canned vegetables 5,554,910 cases as compared with 4,091,875 in 1916 and canned fish 2,000,000 cases as compared with 900,000 in 1916.

"There were 350,000 tons of dried fruits produced in 1917 as compared with 257,000 tons in 1916. Beans were produced in 1917 to the extent of at least 300,000 tons as compared with 200,600 tons in 1916. Nuts were produced to the extent of 16,800 tons in 1917 as compared with 17,200 tons in 1916, or 400 tons less. The Pacific Coast of North America produced 9,847,435 cases of canned salmon in 1917 as compared with 7,362,073 in 1916. Canned fish, fruit and vegetables were produced to the extent of 30,000,000 cases as compared with 20,000,000 cases in 1916.

"If to this are added the canned pineapple production of Hawaii and the crab meat production of Japan, both of which are to the extent of 90 per cent contributory to the trade of San Francisco and add also the various other canned food products the market for which is centered on the Pacific Coast of the United States it is safe to estimate that the canned foods output of this region in 1917 was approximately 35,000,000 cases and for this pack San Francisco is the center of trade."

Prices On Fish

The following are the maximum retail prices for these varieties of fish on Tuesday, February 26, in San Francisco, Oakland, Alameda and Berkeley. Dealers are free to sell at lower prices, but should not charge more. Purchasers who are overcharged are invited to make complaint in writing to the State Market Director.

IF YOU WANT RED CHEEKS EAT CARROTS

"If you want to have red cheeks, eat carrots," was the secret imparted last evening to the 500 women and the some odd men who gathered in the Webster-street building of the Young Woman's Christian Association to celebrate the annual dinner. Dr. Charles Klose, pastor of Plymouth Congregational church, was the speaker, naming legitimate the ambition of every girl to be beautiful.

"You are not good looking unless you are healthy," declared the clergyman. "There are many more thousands of food drunkards in the United States than drink drunkards. Armies of women are just beginning to know the difference between a calory and a microbe. No man has a right to sit down to an immoral breakfast. It's unhealthy."

"No person is permanently good looking unless he is intelligent. The peasant girls of Europe lose their good looks when young because they have not the advantage of our great school systems. Concentrate in your leisure if you would be beautiful," advised Dr. Klose.

"Have a programmed face, and be good."

This is the simple recipe for becoming permanently good looking, as presented by Dr. Klose.

TELLS OF GOOD WORK.

Miss Eva Powell presided as chairman at the dinner, which brought together the hundreds of representative women. The annual reports were omitted, the board of directors having decided this year to offer them in print. However, Miss Powell gave some interesting facts regarding the association and its work. The budget for last year was $89,000, all of which was met. The new budget has been advanced to $92,000, with $52,500 of that sum to be raised, the difference being already on hand: $8000 is in the fund which later will provide the swimming pool. The mortgage of $50,000 yet remains. There is coming before the legislature a bill at the next session which will provide for the tax exemption of Young Women's Christian Association properties as well as that belonging to the Young Men's Christian Association. By this proposed law from $5000 to $6000 will be released in taxes annually. The hotel and boarding home during the past twelve months have been self-supporting. The cafeteria is on a good basis. The employment bureau has been abolished because the state employment bureau is doing a similar work: 1573 positions were obtained last year for women and girls. There has been created a vocational guidance bureau which has obtained 154 positions.

As against 400 students last year the association has but 180 this year in the educational departments. Because the night schools are offering similar work the closing of these classes is being discussed; 400 girls are connected with the 17 clubs. The new extension department established following a survey of the factory district has 70 members. Friday nights the recreation department entertains all the women and girls of the city.

Mrs. Katherine Edson, executive secretary of the State Industrial Welfare Commission, and Miss Alice Moore, chairman of the department of girls' work under the State Council of Defense and secretary of the Girls' Work Extension for the Pacific coast field, were the guests of honor. Miss Moore outlined the efforts which were being put forth for the girls and by them in association work. Mrs. Edson appealed that women "not be anxious to enter the unusual occupations until there is not a man left to give the job to."

In speaking of the employment of girls in elevator service she said: "I am not personally certain that this form of work is good for women. We ought to be careful to find out whether the lift is too heavy and the elevator not too great before we urge them to it."

War songs and patriotic anthems were sung during the evening. The girls' clubs made demonstrations of their yells and association choruses.

NOW IS TIME TO PLANT GARDEN, SAYS COUNCIL

Plant home gardens now. A back yard vegetable garden started at this time will mean fresh vegetables and green foods for the dining table throughout the summer months.

This is the call issued by the State Council of Defense, acting in co-operation with Herbert Hoover and the United States food administration, in the campaign for increased production of food stuffs.

That home gardens should be planted now and without loss of time also is the warning of seed dealers, who say that seed may be scarce within a short time.

California home gardeners last summer are estimated to have raised more than $5,000,000 worth of food stuffs. This big production unquestionably was a factor in keeping [illegible] gardens are needed this year and every home gardener or cultivator of a vacant lot will be doing a patriotic service in helping to increase their own food supply, thereby helping to conserve food needed for our own troops and for our allies

CITY MARKET PLANS URGED BY STOCKTON

By HARRY L. SULLY.

The wide interest that is being taken in municipal markets and the [illegible] is shown in the [illegible] bulletin issued by the extension division of the University of Indiana on "City Markets—How to Start Them." The bulletin was prepared by Dr. Frank T. Stockton, assistant professor of economics and sociology.

Dr. Stockton, after reviewing the complaints of consumers and producers alike concerning the current methods of distribution and sale of food, summarizes the manner in which a number of cities and towns in Indiana have attacked the problem and the measure of success that has resulted. Before going into the problem in general Dr. Stockton has this special plea to make as to the urgency of food conservation and the relation of markets to the present grave crisis:

"The great war has emphasized the importance of the conservation of our resources. Every day sees an appeal for the economical use or consumption of food. It is equally important that the unnecessary use of human capital and of human energy in the distribution of food products be eliminated. Conservation in its best sense means social efficiency. The extension division of the Indiana University offers this practical paper on retail markets, with the thought that it may help to promote greater efficiency in the distribution of food products."

MAY AID IN WORK.

Retail public markets, Dr. Stockton found in his survey of the cities struggling with the problem, "do not establish themselves." He found that in Bloomington, Ind., the market issue was taken up almost simultaneously by the Parent-Teachers' Association of the public schools, the Central Labor Council and the extension division of the university. This offers a striking parallel to Oakland, where the market agitation which has been taken up by the Federation of Mothers' Clubs, the women's committee of the State and National Councils of Defense and the college of agriculture of the University of California. Dr. Stockton also found that there was splendid cooperation to be expected from the county agricultural agents, a condition repeated in Oakland in the cooperation being given by Marcus A. Lee, Alameda county farm advisor. In other communities Dr. Stockton found the housewives' leagues, women's clubs, civic associations and chambers of commerce among the initiators of the movement. His advice on the next step follows:

"As soon as some group of people with the market plan a public meeting should be called at which the question can be discussed. Such a meeting should result in the appointment of a fairly large committee to sound the sentiment of the purchasing community, to canvass the farmers and to arrange for a future conference. At a second gathering a small working committee should be designated whose function it should be to get in touch with the city council and to work for the adoption of a market ordinance. In all probability this committee can be of great assistance to the council in drafting the ordinance and working out the general market scheme."

SUPPORT IS URGED.

Support of the market plan by the mayor of the community is urged by Dr. Stockton and has a fresh parallel in Oakland, where Mayor John L. Davie took the first step in the present market agitation by his appointment of a board of market directors.

"The cities investigated have had some excellent mayors, who have not hesitated to use all their influence in helping their people to handle the food problem," writes Dr. Stockton. "They have earned great credit for the way they have grappled with the problems of marketing and distribution in their cities."

Speaking of the kind of market, the value of the curbstone market as a first step in solving the market problem is urged, as follows:

"The simplest form of market is the outdoor or curbstone market. This form does not call for the erection or rental of a building. All that needs to be done is to designate a suitable street or square for a market place to be set aside on certain days, or parts of days, for market purposes. No large expense is involved in this way and no one can complain that the market is costing the city money before its practicability has been tested. The one difficulty of an open market is that it does not afford protection against inclement weather. During the summer season, however, this objection is not a serious one. And the farmers feel that more customers are likely to come in contact with them on the curb than would be the case if they were inside.

WOULD LIMIT MARKETS.

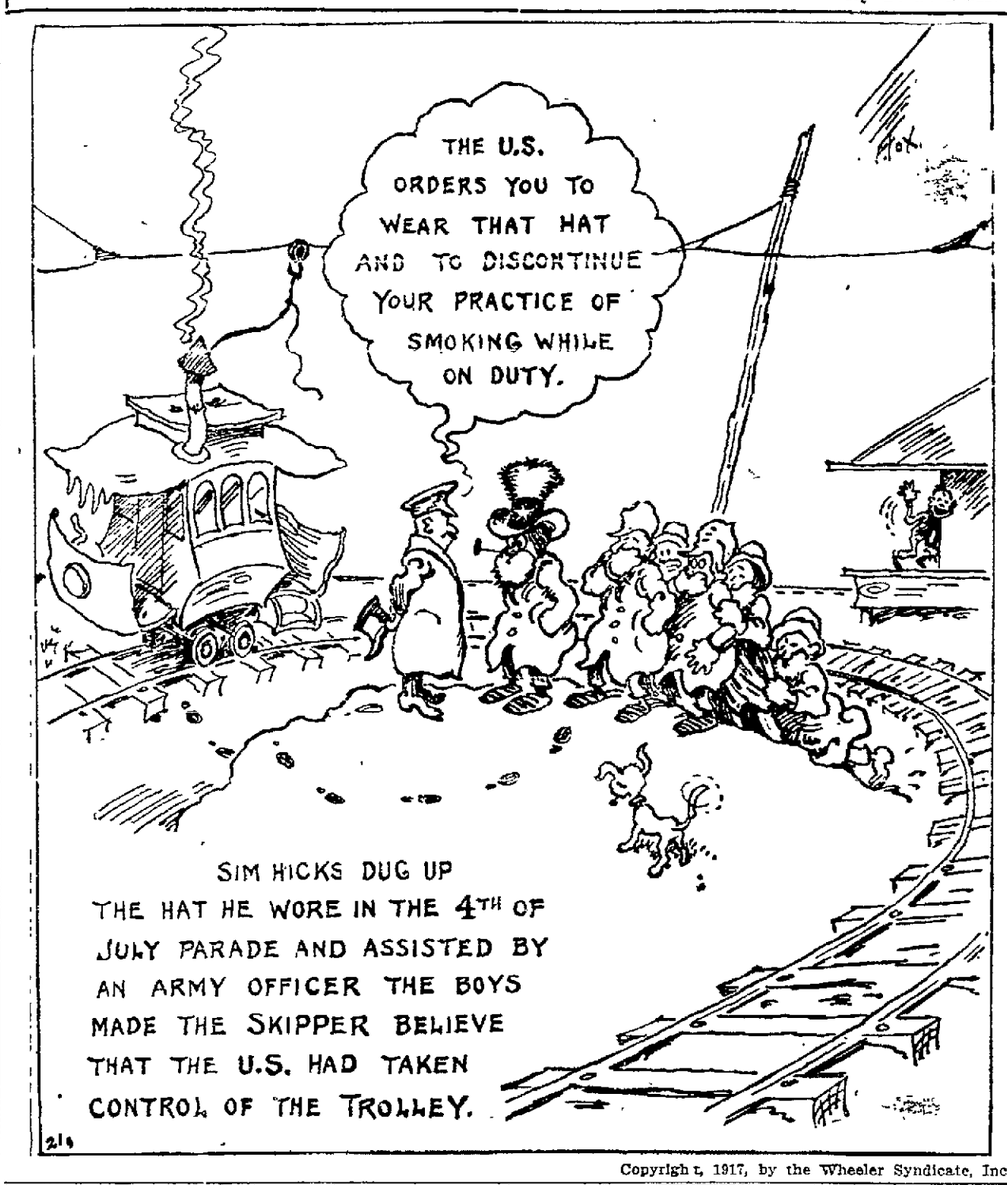

"It is strongly recommended that retail public markets be limited to the actual producers or growers of foodstuffs. Keep grocers, commission houses, peddlers and other middlemen off the market. Wherever they have been their influence has generally been bad since they are professional traders and have their eyes set on the highest prices rather than on splitting prices with the purchasing public. Even one or two middlemen on a market will sometimes talk over other sellers into a price combination. Middlemen have their own places and modes of sale and markets should be for the exclusive use of producers and consumers dealing directly with each other.

"The promoters of a market should not be disappointed if, on the first day, only a few growers appear with their wagons. In one Iowa city only two farmers drove in with their wagons the first market day. On the next market day about twenty were on hand. Bloomington's first market was attended by only four farmers and truck growers, while about 500 would-be purchasers came down with their baskets. At the present time as many as twenty dealers attend regularly, and, as the season advances, this number is greatly increased.

"Articles offered for sale at the market need not be restricted to foodstuffs. Rag rugs and other home manufactures, kindling, cordwood, etc., are generally for sale, as are flowers, plants and bulbs."

WILD DUCK DINNERS GO GLIMMERING

Six residents of the Hotel Oakland, including in their number well known citizens and prominent society folk who have anticipated satisfying their epicurean tastes with wild duck dinners during the season that is closed to the hunter, have had the tender and juicy morsels snatched from their mouths, so to speak, by the hand of the law, and will have to appear in the police court to answer charges sworn to today by J. L. Bundock, deputy fish and game commissioner, accusing them of having contraband game in their possession.

Nearly fifty wild ducks were seized by Deputy Bundock from the cold storage rooms in the hotel, where they have been in storage since the duck season closed on February 1. Bundock was searching the storage rooms for striped bass, which have gone out of season when, to his surprise, he came upon the bevies of wild duck, all carefully labeled for their owners. He promptly confiscated them, and it is probable that they will be distributed to some charitable institution.

Those against whom warrants were issued today by Prosecuting Attorney Ezra Decoto are Harmon Bell, well-known attorney and food administrator for the city of Oakland; George C. Walker, contractor; William Bercovich, cigar merchant; George C. Morgan Jr., Mrs. Chas. T. Hutchinson and R. W. Westover. Walker had twenty ducks to his credit, according to Deputy Bundock, and the others held from five to ten each.

Each of the defendants will be required to put up $25 cash bail. The penalty on conviction is a fine from $25 to $100 for each duck.

"It's all a mistake," said "Billie" Bercovich. "I did not even know that the ducks were left there for me. You know sometimes when friends go duck hunting they return and leave some of the catch for people living in the hotel. I think that each of those against whom complaint has been made will be able to explain in a satisfactory manner. "I'll put up the bail at once."

Mrs. Hutchinson and her husband, Charles T. Hutchinson, a wealthy publisher of San Francisco, have been living in the Hotel Oakland since their home in Nineteenth street was closed following an attempt to dynamite it more than a year ago.

All of those against whom complaints have been made are well known in business and social circles in the city.

THINKS BROCK WILL BE FOUND

While continued search is being made by detectives employed by the family of McKinley Parker Brock, the missing young University of California student, Captain of Inspectors Harry E. Green of Oakland today expressed an opinion that Brock will ultimately be located alive.

Captain Green, following a talk with friends of the student last night, said that he has come to the conclusion that Brock could not have fallen off of the Key Route train and met his death without leaving a trace. He learned that Brock had taken charge of a sack of crabs which the members of the party he was in were taking to a fraternity house in Berkeley for a midnight supper. The train he was on did not stop between the pier and Fifty-ninth street and Captain Green believes that Brock was still on the train. He was not sought at the station in Berkeley, where the others left, and it was not until they had arrived at the fraternity house that he was missed. Then others set out for him in an auto.

Brock had submitted to an injection of serum at the Presidio prior to his disappearance and it is thought that the treatment may have affected him mentally and caused him to disappear.

"I am of the opinion that Brock did not meet his death from the train," said Captain Green. "I believe that he will be found sooner or later and it may develop that he has either been in hiding or that he left the city while suffering from some hallucination."

BODY IS FOUND

TACOMA, Wash., Feb. 26.—The body of an unknown woman, apparently 40 to 50 years of age, was found on the beach at Point Defiance near the clubhouse of the Tacoma Yacht Club this morning. The body had evidently been washed in from the bay and had only been in the water a few hours. Whether murder, accidental death or suicide the police and coroner are endeavoring to determine.

CHARGE EVASION

SANTA ROSA, Feb. 26.—Thomas Bowman, charged with evading the draft at San Mateo, was arrested here today by Deputy Sheriff Phil Varner. He has been working near Santa Rosa.

THE EQUITABLE

LIFE ASSURANCE SOCIETY OF THE U. S.
120 BROADWAY, NEW YORK

By the thrift of the people the Nation is strengthened. The most effective teacher of thrift is life insurance.

The Equitable's Outstanding Insurance now aggregates $1,754,868,908. The New Insurance paid for in 1917 amounted to $251,344,000, an increase of $41,637,000 over 1916, and the largest single year's business in the history of the Society.

Its payments to policyholders in 1917 totaled $62,831,172.

The following items are from the 58th Annual Statement, which will be furnished on request:

ASSETS, December 31, 1917		$576,837,343
INSURANCE RESERVE	$471,914,234	
Other Liabilities	13,620,304	$485,534,538
SURPLUS RESERVES.		
For Distribution to Policyholders in 1918	$ 16,065,192	
Awaiting apportionment on deferred dividend policies	63,592,355	
For Contingencies	11,645,258	$ 91,302,805
		$576,837,343

During the year the Equitable invested $45,889,556 at an average yield of 5.24%.

The Mortality Rate in 1917 was the lowest for the last twenty-five years.

The Equitable issues the following special policies in addition to all varieties of Life, Endowment, and Annuity contracts:

A LIFE INCOME POLICY under which the insurance is paid to the Beneficiary in the form of a monthly income for life.

A GROUP POLICY by which an employer protects his employees.

A CORPORATE POLICY to protect business organizations.

A CONVERTIBLE POLICY which can be modified to meet changing conditions.

A BOND providing an income for the declining years of a man or a woman.

A LIFE ANNUITY providing an immediate income, under which the total return may be more but can never be less than the price paid for the Annuity.

A NEW POLICY under which if the Insured becomes totally and permanently disabled he will receive a *life income* without reducing the amount payable at his death to the Beneficiary; and under which the Beneficiary will receive *double* the face of the policy if the Insured's death is the result of an accident.

For full particulars apply to the Equitable or to any of its agencies.
